Scripture Catechism, \$6.00 per 100. CHRISTIAN MESSENGER OFFICE, No. 69 & 71 Granville St., Halifax.

April 15.

obtained for new inventions, or for improvements in old ones. Caveats, Trade Marks and all patent business promptly attended to.

INVENTIONS THAT HAVE BEEN REJECTED may still, in most cases, be patented by us. Being opposite the U.S. Patent Office, and engaged in PATENT BUSINESS EXCLUSIVELY, we can secure patents in less time than those who are remote from Washington and who must depend upon the mails in all transactions with the Patent Office.

When Inventors send model or sketch we make search in the Patent Office and advise as to its patentability FREE OF CHARGE. Correspondence confidential, prices low, and NO CHARGE UNLESS PATENT IS OBTAINED.

We refer to Hon. Postmaster General D. M. KEY, Rev. F. D. POWER, to officials in the U.S. Patent Office, and especially to our clients in every State of the Union and in Canada. For special references, terms, advice, &c., Address

C. A. SNOW & CO., OPPOSITE PATENT OFFICE, WASHINGTON, D. C. July 23.

quently asked, but we believe has not frame for the hay-carriage is suspended yet been definitely settled. The longest distance that we have seen mentioned is given in the item below, namely, two thousand miles. But perhaps Mr. Edison has had more extended experiences. If so we should be glad if he would let our readers know.

An exchange states that Mr. Robert A. Packer, superintendent of the Pennsylvania Railroad, is at present hunting with a party of gentlemen in Nebraska. A few days ago he for two hours conversed pleasantly with his wife and friends at Sayre, Pa., his hrother at Mauch Chunk, Pa., and friends along the line. The medium was the railroad and Western Union Telegraph wires and Edison's telephone. At the office in Bethlehem, Pa., connection was made with the Easton and Anaboy wire, and at Perth Amboy with a Western Union wire, and thence to Chicago and North Bend, Nebraska, where the party are. The distance was about two thousand miles, and every whisper was audible.-Scientific American.

VARIETIES.

A curious sign has been adopted by a native baker in India, proud of his knowledge of English. "European loafer" is printed in large letters over his door, and the baker is evidently quite unaware of the colloquial uncomplimentary meaning of the word.

Is a collector of moths a mother ?---Boston Post. No more that a collector of fat is a father. - Commercial Bulletin. Well then, is a man who eats broth a brother ?- Boston Post. No, but if he assists, he is a twin to a sister.

NICE LITTLE GIRL.-" Oh, do let

me see you drink?" Captain Grogson.-"Why, my dear?" says you drink like a fish."

to these. This mode of framing gives great strength without any interfering timbers inside to come in the way of unloading hay or grain, as the bays are entirely open from the lower beams up to the purline plates .- American Agriculturist.

THE HOUSEHOLD

To wash windows have a pail partly filled with tepid water ; throw in a teaspoonful of powdered borax; have one small chamois dipped into the borax water, to wash the windows ; then with a dry chamois rub the windows dry, and polish. In this way the windows may be cleansed in a very few moments.

The wicks of kerosene lamps should be changed frequently, or, if not too short, washed in strong hot soapsuds, with some ammonia in the rinsing from kerosene lamps arises from the wicks being full of the sediment or refuse matter which comes from the oil, and that impedes the free passage of the kerosene through the wicks.

BEEFSTEAK WITH ONIONS .- An dredge flour over it, and add by degrees a cup of boiling water with more seasonhave been boiled, cut them up and put put them in the pan, having taken out the steak; add a lump of butter and a little more flour, stir them to prevent scorching, and when the onions are well browned, put in the steak, and place the whole over the fire till heated thoroughly. In serving, heap the

onions upon the steak. A jelly made from cider after the Nice Little Girl.-" Because ma following recipe is said to be very nice: Take a gallon of cider, before termentation has commenced, and boil it down Some newspaper man asks the girls in a porcelain kettle to two quarts; skim

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, LOWELL, MASS.

BROWN & WEBB, Halifax,

obtained for Inventors, in the United States, Canada, and Europe, at reduced rates. With our principal Office located water. The trouble with poor light in Washington, directly opposite the from kerosene lamps arises from the United States Patent Office, we are able to attend to all Patent Business with greater promptness and despatch and less cost, than other patent attorneys, who are at a distance from Washington, and who have, therefore, to employ "as-sociate attorneys." We make preliminary examinations and furnish opinions as to patentability, free of charge, and all who are interested in new inventions and English recipe: Pound the steak, season and fry in a frying-pan; then season and fry in a frying-pan; then season and fry in a frying-pan; then season and fry in a frying-pan complete instructions how to obtain Patents, and other valuable matter. We refer to the German-American National ing. Drain the onions which must Bank, Washington, D. C.; the Royal Swedish, Norwegian, and Danish Lega-tions, at Washington; Hon. Jos. Casey, late Chief Justice, U. S. Court oi Claims, to the Officials of the U. S. Patent Office, and to Senators and Members of Congress from every-State. Address :

LOUIS BAGGER & CO., Solicitors of Patents and Attorneys-at-Law, LeDroit Building, Washington, May 1. D. C.
