AN ESSENTIAL OF HEALTH. - One of the prime essentials of health is the secretion of bile by the liver in due quantity and of proper quality for the use which Nature has ordained for this important secretion. Its gently stimulating and potent regula-ting action upon the biliary gland constitutes Northrup and Lyman's Vegetable Discovery and Dyspeptic Cure a most valuable speciic for Liver complaint. Among the consequences of its continued and systematic use are the disappearence of such symptoms of chronic biliousness as constinuation, nausea, pain in the vicinity of the organ affected, yellowness of the skin, fur upon the tongue, and headache. No finer remedy for dyspepsia exists, and its remedial value has been signally demonstrated in kidney complaints, scrofula, female weakness, erysipelas, salt rheum, and all disorders arising from impurities of the blood. The vigor with which it endows a feeble physique, is shown in an increased activity of every vital function, and its effects, though potent, are followed by no hurt-ful reaction. The bowels are relaxed by it naturally and easily, and it is not dis agreeable to the taste, and the purity and taining mercury, designed to affect the TRY ONE BOTTLE. liver beneficially, but which sometimesdo more harm than good. Large doses of it are not required, and it is, therefore, in reality much cheaper than other cathartics. Price \$1.00. Sample bottle 10 cents. AN AUTOMATIC REED ORGAN.

"THE ORGUINETTE may now be called a celebrated instrument. In tone it is akin to the Cabinet Organ, but the organ must be manipulated by an artist in order to produce music; the Orguinette is on the other hand entirely mechanical in iis action, and at trifling expense it can be made to furnish an unlimited supply of all kinds of music. - Toronto Globe.

"THE ORGUINETTE is indeed a musical wonder. It is a minature reed organ with as strong and meledious a tone as a Cabinet Size. It Surpasses the Cabine Organ for the reason that the ignoramus in music can play it as well as the mos accomplished professor. THE ORGUINETTE is strong and accurate in its mechanis and consequently not liable to get out of order."-MONTSEAL GAZETTE.

"THE ORGNINFTTE is the most perfect automatic musical instriment yet invented; its repertoire is unlimited, the tone is remarkably good." MONTREAL
