CARBOLIC ACID .- In the Boston Journal of Chemistry for February a physician states as the result of his own experiments upon himself, that chronic bronchitis and severe coughs have been cured by the inhalation of a five per cent. solution of carbolic aeid; that for three-and-a-half years he has not had a cough, sore throat or cold in the head. But as causes producing catarrhs and coughs are always acting, he uses the spray more or less every day. Many who have used it under his directions have been at once cured of ordinary coughs and relieved of catarrh. He uses Shentleff's atomizer. Five per cent. spray was given a baby three months old and cured her immedi-

ately. In a case of eczema palmaris pure was afterwards applied to prevent dryness of the skin. One application of de old masters." carbolic acid one part, and glycerise

THE HOUSE.

A little fellow turning over the leaves of a scrap-book, came across the well-known pieture of some chickens just out of the shell. He examined the picture carefully, and then, with a grave sagacious look, slowly remarked : " They came out 'cos they was afraid of bein' boiled."

The New York World makes neat definitions : " Mr. Longfellow can take a worthless sheet of paper, and by writing a poem on it make it worth \$50. That's genius. Mr. Vanderbilt can take a sheet of paper and by writing fewer words on it can make it worth \$50,000,-000. That's capital."

An aged negro, the other day was showing the scars of the wounds inflicted by the lash when he was a slave. earbolic acid applied freely removed "What a picture !" exclaimed a sympaall disagreeable sensations. Glycerine thizing looker-on. "Yes," responded the colored brother, "dat's de work ob
