JULY 20, 1881.

IHE CHRISTIAN MESSENGER.

Now that Mr. Moody is back again at his Northfield home, there will undoubtedly be some instructive meetings held at that village during the summer. He and his co-worker, Sankey, talk of holding another series of meetings at Northfield for consultation and prayer, similar to those held the first ten days of last September, which called together such a large representative body of Christian workers. The meetings will be held this year in August instead of September, and many have already expressed their purpose to attend.

THE MEDICAL FACULTY were among the first to recognize the value of North-rop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda as a remedy for throat and lung affections, premature decline and general debility. Physicians not only recommend it for incipient consumption, bronchitis, asthma, and minor pulmonary and bron-chial troubles, but speak in the highest terms of it as a means of enriching the terms of it as a means of enriching the blood and counteracting a hereditary tendency to consumption. In every part of the Dominion and throughout the United States it has attained a popularity as wide-spread as it is deserved, and the evidence atte-ting its efficacy is volumin-ous and convincing. The Cod Liver Oil, which is its pulmonic constituent, is absolutely pure, and does not nauseate the stomach; while the Hypophosphites, superadded to, and chemically blended with this ingredient, possesses invigorat-ing properties which render it most desirable in diseases involving such a tremendous waste of tissue and loss of bodily substance as incipient consumpterms of it as a means of enriching the tremendous waste of tissue and loss of bodily substance as incipient consump-tion, which it checks with a promptitude truly marvellous. In addition to its pul-monic effects, it imparts tone to the whole system, and being a fine blood depurent conteracts a tendency to scrofula. More-over, it is sold at a reasonable price, the cost of the smaller bottles (the contents of one often sufficing to break up a bad cold) being 50 cents, and of the larger, \$1,00 Prepared by NORTHROP & LYMAN, Toron-to. Ont. to, Ont. June 22. eow. 2m.

"THE ORGUINETTE may now be called a celebrated instrument. In tone it is akin to the Cabinet Organ, but the organ must be manipulated by an artist in order to produce music; the ORGUINETTE is on the other hand entirely mechanical in iis action, and at trifling expense it can be made to furnish an unlimited supply of all kinds of music -TORONTO GLOBE."

"THE ORGUINETTE is indeed a musical wonder. It is a minature reed organ, with as strong and meledious a tone as a Cabinet Size. It Surpasses the Cabinet Organ for the reason that the ignoramus in music can play it as well as the most accomplished professor. THE ORGUINETTE is strong and accurate in its mechanism and consequently not liable to get out of order."-MONTSEAL GAZETTE.

"THE ORGNINFTTE is the most perfect automatic musical instriment yet invented; its repertoire is unlimited, the tone is remarkably good."-MONTREAL

About a year ago I had a lame back-so bad that I could neither sit, lie or stand, freefrom cramping pains, when, by a kind Providence, I obtained your Plaster, and by using that only. was relieved, and I may say cured, for I have not been lame since, for the space of a year. I believe your medicines are excellent for a family medicine. My wife, 1871, was so sick that she c uld not get out of bed without assistance, and I had a docter attending her, from whom she seemed to get no her, from whom she seemed to get no benefit; but I obtained your Bitters and Syrup, which helped her immediately; and after taking 4 bottles of Bitters and two of syrup she was restored to quite good health, so that she was well all the summer following. I also had a little girl very sick; your Syrup restored her to health; and to-day she is as well as any father need wish. I have written this certificate feeling a desire to heapfit my certificate feeling a desire to benefit my fellow creatures; for I believe your medi-MONTREAL. cines are all they are represented to be, if not more. STAMMERING CERTIFICATE.

WE THE UNDERSIGNED, residents of North Sydney and vicinity in Cape Breton, having known Miss Lawlor when afflicted with, and often times pained to witness her struggling with the impediment of stammering, have now much pleasure in testifying through this medium, that she has been relieved of the above referred to difficulty. She can now give utterance to her ideas with a freedom of speech at once free, deliberate, and apparently without effort. We learn from her that she attended, last December, the Stammering Institute at Halifax, in charge of MR. R. B. MAC-KINTOSH,—he having been empowered to use the method first known to, and practiced by Professor Sutherland of London, Ontario. We heartily recom-mend those similarly affected as Miss Lawlor, to avail themselves of the privilege of attending an institution calculated to render such valuable aid to both old and young.
