#### RELIGIOUS INTELLIGENCE.

DARTMOUTH .- The pastor of the Baptist Church, Rev. E. J. Grant, administered the ordinance of Christian baptism on Sunday morning last. In the evening the Rev. J. W. Manning preached here while Mr. Grant supplied his place in the North Church, Halifax.

Mount Uniack & Mines .- Dear Editor, -I had the pleasure of baptizing last Lord's day in a beautiful lake near Mount Uniacke Mines. The candidate is a valued sister, the head of a family. Our esteemed brother Rev. E. O. Read in his present affliction will be cheered to learn that the person baptized informed me, she was first convicted of sin under his ministry. She and her sister, previously baptized, received the hand of fellowship at the close of the service at the Mines on Sabbath evening. The good cause at Mount Uniacke Mines is in a hopeful state. About 60 families are gathered here from various parts of the provinces in search of gold, and as a general thing are a sober and intelligent class of people, and some of them are not indifferent to the heavenly treasure. They have a flourishing Sabbath School under the superintendence of brother E. Brymer, who also conducts a prayer meeting, and is highly esteemed among the people. At a regular monthly Conference at South Rawdon on Sep. 10th, brother B. was unanimously chosen a deacon to represent the Mount Uniacke section of the church, and on the following Sabbath was ordained to that office.

As we were moving away from the water yesterday, a venerable man of 70 years came to me, and expressed desire to be baptized. He is I believe a sincere penitent, and his wish will be gratified at an early date. The services of last Lord's day were deeply impressive and encouraging, and we are anticipating greater blessings. The fields all around are white unto the harvest. Let us, my brethren in the ministry, with increased faith in God and His gospel, and with increased consecration to His service go into these fields and gather glorious harvests of souls for the Master! Yours in the work,

ISA. WALLACE. Mount Uniacke Mines, Sept. 26. 1881.

CHESTER. -- Rev. J. W. Weeks writes -"Sept. 11th, I baptized another candidate professing faith in Jesus Christ.

NEWTON CENTRE, Sept. 17, 1881.-My dear Bro. Selden, - You will notice by this that I have crossed the line of demarkation between Nova Scotia and United States. I have in order to better fit myself for my chosen and beloved work, come here to study, and in con. sequence have torn myself from a kind and loving people, to whom I have enjoyed for fifteen months the privilege of telling the gospel story. Now if there is a good and true man of God who may notice this and desire a field, I can cordially recommend him to New Albany, Springfield and Dalhousie. I remain the pastor, until another is found.

Yours in truth, H. B. SHAFFNER.

AN ESSENTIAL OF HEALTH. - One of the prime essentials of health is the secretion of bile by the liver in due quantity and of proper quality for the use which Nature has ordained for this important secretion. Its gently stimulating and potent regulating action upon the biliary gland constitutes Northrup and Lyman's Vegetable Discovery and Dyspeptic Cure a most valuable specific for Liver complaint. Among the consequences of its continued and systematic use are the disappearence of such symptoms of chronic biliousness as constipation, nausea, pain in the vicinity of the organ affected, yellowness of the skin, fur upon the tongue, and headache. No finer remedy for dyspepsia exists, and its remedial value has been signally demonstrated in kidney complaints, scrofula, female weakness, erysipelas, salt rheum, and all disorders arising from impurities of the blood, The vigor with which it endows a feeble physique, is shown in an increased activity of every vital function, and its effects, though potent, are followed by no hurt-ful reaction. The bowels are relaxed by it naturally and easily, and it is not disagreeable to the taste, and the purity and wholesomeness of its ootanic ingredients make it a far safer as well as a more efficient remedy than preparations containing mercury, designed to affect the liver beneficially, but which sometimes do more harm than good. Large doses of it are not required, and it is, therefore, in reality much cheaper than other cathartics. Price \$1.00. Sample bottle 10 cents.
