

RELIGIOUS INTELLIGENCE.

HALIFAX NORTH CHURCH.—Rev. J. W. Manning baptized two persons on Sunday evening, and subsequently, they, with two others received by letter were welcomed to the church by the pastor giving them the right hand of fellowship.

We learn that the ordinance of baptism was administered at Mount Uniacke last Lord's day, by Rev. Isa. Wallace, under circumstances deeply impressive.

NORTH SYDNEY, C. B.—Rev. J. W. Bancroft, writes: "Last Sabbath, it was my privilege, on the 9th inst., to administer the ordinance of baptism to five happy believers. The morning was fine, the attendance large, and the baptism interesting. This makes thirty-one baptized since the revival began."

NEW ALEANY, June 7th.—Dear Bro,— "We had the pleasure of baptizing two at Albany last Sunday, and receiving them into the fellowship of the Church. A very large number subsequently sat down to the Lord's table. To God be the glory."

H. B. SHAFFNER.

The Moderator of the Council, which recommended his ordination was Rev. W. P. Everett, of St. John, and Rev. E. W. Kelly of the same city was clerk. The ordination sermon was preached by Rev. A. B. MacDonald, of Cambridge, and the other parts of the service were performed by Revs. G. W. Springer, W. A. Corey, E. W. Kelly, W. P. Everett and F. Todd.

DOMINION & FOREIGN NEWS.

DOMINION OF CANADA.—A terribly destructive fire took place at Quebec, on Wednesday night, and continued burning till Thursday morning last. The first alarm was sounded from the corner of Oliver and St. Clair Streets at ten minutes before 11 o'clock. The fire appears to have originated in a stable on Oliver Street, belonging to a man named La Pierre, and immediately spread on every hand to the wooden buildings, around. It is supposed that the man had entered the stable with a candle while he was drunk. The people seemed terror-stricken and the police and firemen are said to have been greatly demoralized. Burning shingles flew about in all directions, often setting fire to the clothing of the people. The water was not available for about twenty minutes, when the fire was found unmanageable. The St. John's Church, the largest and finest in the city, worth about a hundred thousand dollars, was burnt to the ground

in a very short time, nothing but the sacred vessels being saved. Next came the Friars school; the firemen succeeded in stopping the fire east of Genevieve Street, as the wind was blowing from East and North East. From Latourelle Street up nearly to John Street, the Western side of St. Genevieve has been swept away to the North, the fire extended as far as Richmond Street. The Western limit is a little beyond the Street Car stables at Mount Pleasant, near the city boundary. The limit South, at Burior Street near Scott and at Gabriel Street has been already mentioned. Briefly summed up.

The streets consumed are running East and West. Richmond in part, principally South side; Latourelle street Oliver, Richelieu, Daguillon, and St. John, in St. John's ward, and in Montreal, St. Gabriel, Nouvelle and Breton streets. Running North and South, the principal streets are Sutherland, Deliquy, St. Clair, St. Marie, and St. Genevieve, West side, besides Jupiter Street, in Montcalm ward; also the West side. Amongst the property destroyed on John Street, were a large number of handsome buildings, used as stores and private residences.

On the lower field, where most of the burnt out people had camped with their saved goods, the fire, as if jealous that anything should escape its greed, followed up the unfortunate people, and burnt up most of the goods piled on the grass.

It is computed there must be a loss of two million dollars, between buildings, stock and furniture. Over fifteen hundred families are rendered homeless by the conflagration. At least eight hundred buildings have been destroyed.

The fire brigade and apparatus were quite unfit to cope with such a fire, and to its weakness and the wretched water service the whole disaster is due.

But a small part of the property destroyed was insured. The following is given as an estimate of the losses in Quebec thus far—Quebec, \$300,000; North British and Mercantile, \$50,000; Royal \$42,000; Royal Canadian \$40,000; Queen's \$35,000; London, Liverpool and Globe, \$35,000; Sovereign, \$30,000; Lancashire, \$30,000; Imperial, \$25,000; Western, \$20,000; Northern, \$20,000; Dominion, \$18,000; Citizens', \$17,000; Guardian, \$14,000; British American, \$12,000; Hartford, \$10,000; Phoenix, \$7,500; Commercial Union, \$6,000; London, \$5,000; total, \$716,000.

Telegrams from London state that Sir John A. MacDonald's health has greatly improved, and he is now able to attend to business. His physicians recommend him to proceed to Tunbridge Wells. If convalescence continues as rapidly as hitherto, he will shortly return to Canada.

Hon. Alex. Mackenzie was at Geneva, but was to return to London on the 10th inst. Dominion Day is to be celebrated at Ottawa with great display. It is affirmed that those who are to be placed on the supernation list are W. H. Griffin, Assistant Postmaster-General; W. M. Smith, Deputy Minister of Marine and Fisheries; W. H. Whitcher, Commissioner of Fisheries; A. Brunel, Commissioner of Inland Revenue; Andrew Russell, First Clerk in the Department of the Interior; Robert Lemoine, Clerk of the Senate; G. W. Wicksted, Law Clerk of the House of Commons; A. J. Russell, of the Timber Office; T. Trudeau, Deputy Minister of Railways; G. F. Baillange, Deputy Minister of Railways and Canals, and many others. Other changes may be expected to follow.

The Canada Pacific Railway Company is said to have sold 200,000 acres of land to French farmers at \$1.25 per acre for immediate colonization. P. E. ISLAND.—The Telegraph says that at Mr. John H. Bell's factory at Howard's Cove, P. E. Island, 12,000 lobsters were landed from seven boats on Saturday, 28th ult.

UNITED STATES.—The New York Legislature is investigating a charge of attempted bribery on the part of the administration. Direct questions of veracity on the part of members of the Legislature are involved. The heavy rains of the past week have resulted in a general freshet in Pennsylvania, and damage is reported on all railroads in the section by washouts and slides.

On Thursday the rise in the Ohio River was 92 inches and rising rapidly.

The Alleghany was also rising fast and much damage done.

Thousands of acres of corn in Illinois were under water. Several bridges were washed away. The grass and crops through the country were looking finely.

Two hundred students at the State Normal School at Millerville, on Wednesday last marched through the town, serenaded two newspaper offices, and took the train for their homes. They left on account of trouble with the Principal.

Kuklux outrages are reported from Perryville Arkansas. Letters were read by Judge of County Court and other prominent citizens, warning them to leave the county, stating that fire and gunpowder will be used against them. On Sunday night an attempt was made to destroy the town by fire. A newspaper office was ignited, but the citizens extinguished the flames and drove the incendiaries away, before they applied the torch to other houses.

The Cornell University crew trained every day during the passage from New York in stationary rowing apparatus.

ENGLAND.—Sir Charles Dilke, Under Foreign Secretary, in the House of Commons on Wednesday, said that as the provisions of the Treaty of Washington, under which Americans enjoy the privilege of fishing in British Colonial waters, could not in any case expire before 1885; the Government was not at present in a position to consider the expediency of terminating the treaty so far as it relates to fishery questions.

The centennial of the birth of George Stephenson, the originator of railway locomotion, was celebrated on Thursday last in various parts of England.

The Times Dublin despatch says: "There is little doubt, the Government have considered the expediency of suppressing the Land League, but there is a difference of opinion among lawyers, as to whether it can be done without an Act of Parliament, or at least done so efficiently as to prevent a proclamation being evaded. But the course hitherto adopted, of arresting violent speakers, &c., is calculated to obtain the same result by more certain, though less rapid means."

The Irish executive has re-issued an important circular instructing all County Inspectors and constabulary to forward to their head quarters sworn reports as to the occasions when they anticipate obstruction to sheriff sales or evictions, in order that the Government may send the necessary military forces and proclaim the district, warning all persons to refrain from assembling to obstruct legal processes, and declaring that all persons so assembling will be dispersed by force. This circular entirely dispels the rumor that the Government intended to introduce measures for the temporary suspension of evictions.

On Wednesday last a party of fifty marines, sent from Bantry to Ballydesob, was encountered at the latter place by a mob numbering some thousands. After much stone throwing and some bayonet charges, the marines were compelled to retreat to Bantry under the protection of a priest.

An attempt was made on Thursday night, to blow up the Liverpool Town Hall, but only resulted in breaking the windows in the hall and in Brown's buildings on the opposite side of the street. It is reported that two men were arrested with dynamite and loaded revolvers in their possession.

Archbishop Croke advises the people to avoid all assemblages at evictions, sales, &c.

Since then sentries have been placed around the prison, and the warden, armed to the teeth, are patrolling outside.

AUSTRIA.—Terrible hail storms have destroyed the entire harvest in the district of Theamasvar, in the south of Hungary.

Acus.

A telegram from Ottawa on Friday states that information had been received from a reliable source, to the effect that a wealthy English corporation has tendered for the acquisition of the whole Nova Scotia railway system, including roads now in operation, and those contemplated, and that their representatives will leave England for Nova Scotia by the next Allan steamer.

It is also understood that the Nova Scotian Government has received several other offers. It is stated that the Provincial Legislature will be called together within six weeks to take action in the matter.

A meeting of the provisional directors of the N. S. Cotton Manufacturing Company was held on Friday last, to hear a further report from Mr. Brookfield, who has just returned from a second visit to the States. It is understood that a call of 25 per cent of the capital will be made at once, and a meeting of the shareholders will be held not later than the first week of July.

On Friday last some excitement was caused on Brunswick Street, by the appearance in the Garrison Field of a mad dog. Dr. Moren, City Medical Officer, succeeded in killing the rabid animal with a policeman's baton before any person was bitten. Well done, Dr. Moren.

The steamer Circassia, of the Anchor line arrived here on Friday, with the steamer Victoria, of the same line in tow. The Victoria left London May 28th, bound to New York, with freight, and about 650 passengers on board. All went well until the 6th inst., when nine days out, the crank of her shaft broke. On the day following, they sighted the Circassia, from New York for Glasgow, which bore down to her and decided to take her in tow, she then being 350 miles from this port.

Herring are in great abundance at Digby and Annapolis. One day a week or so since, there were over two hundred and fifty barrels in the Half-tide weir at Annapolis. After the owners had cared for about one hundred and fifty barrels, the neighbors were invited, who came from all directions. It required eleven teams to take them away before the tide returned.

Comely! Attractive! Winning!—Those expressive words are often and properly applied to the fair ladies of our favoured land, who keep their hair abundant and natural, in colour and lustre by the timely use of Ayer's Hair Vigor. The Vigor is safe and agreeable; and its effects are very lasting, making it the most economical, and at the same time the most beneficial and elegant of toilet preparations.

THE HIGHEST AWARD.—That Puttner's Emulsion stands to-day higher and far ahead of any other compound of the kind, and is acknowledged by the profession to be the most reliable in the treatment of Wasting, Scrophulous, and Children's Diseases, and diseases of the Nervous System, where the brain is overworked, and the general system run down for the want of Phosphorus, which is the only Nervous Tonic.

It is said ease of mind assist longevity. A man who carries a policy of life insurance, in such a company as the UNION MUTUAL, certainly should have ease of mind, and therefore this must help to prolong his life. And should the "brittle thread" be broken, he has secured something for his dear ones. F. B. K. MARTER, Manager, Office Queens Building, Hollis St.

I. K. Funk & Co., of 10 & 12 Dey Street New York, last week announced a Revised Edition of the late Mrs. H. C. Conant's Popular History of English Bible Translation, with a New Preface and additional matter, bringing the history down to the present time, by Thomas J. Conant, D. D., husband of the talented author, and well-known Biblical Scholar and Member of the American Bible Revision Committee. This is a complete history of Bible Revision from the days of Wycliffe to the present time. Says Dr. J. Standford Holme: "It is interesting as a novel, and beyond all comparison the best work of the kind ever written. It ought to be in everybody's hands. Price, 50 cents, in paper; \$1.00, in cloth."

THE INTERCOMMUNION OF CHURCHES INCONSISTENT, UNSCRIPTURAL, AND PRODUCTIVE OF EVIL; by J. R. Graves, L. E. D. Memphis, Tennessee, pp. 368.

The author of "The Great Iron Wheel," "Old Landmark," &c., &c., has in this volume attacked the practise of members of one Baptist church communing with another, and denounces it with all his characteristic severity. It would appear from the contents of this book that great evil has arisen in the Southern States from the practise—as if the invitation conferred the right. Dr. Graves by his sharp incisive logic deduces from the New Testament accounts of the Supper, that "You can only eat it worthily in the church of which are a member."

The matter appears to us, however, a very simple one. The privilege of communion is co-extensive with the power and duty of discipline, and therefore members only of the individual church are at the Lord's table by right. But they may—as we are accustomed to do—give an invitation to members of sister churches to partake with them, without giving up any principle, or violating any scriptural precept or precedent. There is doubtless some truth in the principle advocated, and every member removing from one locality to another, should remove his or

her membership, as soon as possible to the church with which he is able to worship, and by that means secure fellowship and co-operation with his brethren. Great weakness often arises to individuals and churches from the neglect of this duty.
