April 27. STAMMERING CERTIFICATE.

WE THE UNDERSIGNED, residents of North Sydney and vicinity in Cape Breton, having known Miss Lawlor when afflicted with, and often times pained to witness her struggling with the impediment of stammering, have now much pleasure in testifying through this medium, that she has been relieved of the above referred to difficulty. She can now give utterance to her ideas with a freedom of speech at once free, deliberate, and apparently without effort. We learn from her that she attended, last December, the Stammering Institute at Halifax, in charge of Mr. R. B. MACKINTOSH, who having been empowered to use the method first known to, and practiced by Professor Sutherland of London, Ontario. We heartily recommend those similarly affected as Miss Lawlor, to avail themselves of the privilege of attending an institution calculated to render such valuable aid to both old and young.

**MECHANICAL ORGUINETTE.**

**AN AUTOMATIC REED ORGAN.**

"THE ORGUINETTE may now be called a celebrated instrument. In tone it is akin to the Cabinet Organ, but the organ must be manipulated by an artist in order to produce music; the ORGUINETTE is on the other hand entirely mechanical in its action, and at trifling expense it can be made to furnish an unlimited supply of all kinds of music. TORONTO GLOBE."  
 "THE ORGUINETTE is indeed a musical wonder. It is a miniature reed organ, with as strong and melodious a tone as a Cabinet Size. It surpasses the Cabinet Organ for the reason that the ignorant in music can play it as well as the most accomplished professor. THE ORGUINETTE is strong and accurate in its mechanism and consequently not liable to get out of order."—MONTREAL GAZETTE.  
 "THE ORGUINETTE is the most perfect automatic musical instrument yet invented; its repertoire is unlimited, the tone is remarkably good."—MONTREAL STAR.

PRICES 10 TO \$16. Send for Illustrated Catalogue to W. F. ABBOT & CO. 1 TO 21 VOLTIGEURS STREET, MONTREAL. SOLE MANUFACTURERS AND PATENTEES. June 1.
