#### CHRISTIAN MESSENGER. I H H

## News of the World.

It is expected that the Marquis of Lorne will sail to-day from Liverpool for Canada.

It was rumored a few days since that an attempt was being made to abstract the bodies of the Prince Imperial and Napoleon III. from the vaults at Chiselhurst. Subsequent despatches state that there seems no grounds for believing the report.

Earl Derby has made a new departure. At the banquet of the Liverpool Club he s id he hoped there would be no further attempt to prevent Bradlaugh taking the Parl amentary oath. Discussing the question of Home Rule in Ireland, the Earl said : " America is not a despotic or a reactionary country, but we know how she dealt with secession, and we see how soon and how thoroughly the traces of sanguinary conflict disappeared. I do not see why we should show less determination, or have less good fortune."

A violent gale, accompanied by rain, prevailed on Friday last throughout the United Kingdom. Considerable damage was done, especially in Scotland. The President, Secretary, and Treasurer of the Ladies' Land League at Roscommon, Ireland, were arrested one day last week, but they were afterwards released on back.

At a meeting of the Ennistown commission a letter from Herbert Gladsone was read, stating that according to official in ormation crime is decreasing in proclaimed districts, and the authorities expect the repressive measures will of the pursuing party were badly soon be abandoned.

The United States debt was decreased in the month of December by nearly \$13,000,000.

On Friday last Dr. E. Adams assistant medical superintendent of the Michigan insanc asylum, was fatally stabbed by a patient while making his daily rounds.

Small-pox is prevailing at Chicago, and also at Port Jervis, New York. and other places in the West. Additional cases are developing every day The large pork pa king establishment of F. W. ANNAPOLIS -The ancient capital of Nova Scotia-Annapolis-does not appear to be the finished city it has been sometimes called It has of late been making large strides in the way of pro gress in commerce, and it will doubtless soon advance in size and importance in like proportion. Its situation as the centre of a thriving agricultural population is highly favorable, and being ac cessible to the sea, its facilities for commerce are only limited by its population. The following statement from the Herald will shew how it has advanced, especially in its exports :

The probabilities are that this rapid growth will be exceeded in the few coming years, and show more rapid advancement than it has hitherto. The European and United States markets being supplied with our produce, will keep it as the shipping port of the fertile valley all around.
