## OCTOBER 11, 1882.

### CHRISTIAN MESSENGER.

way Bridge Accidents," " The Hydraulic Jack," "The more perfect combustion of Fuel and prevention of Smoke," &c., &c.

It is highly important that the latter article should be read and well considered by all who have to do with steam-boilers. Indeed in almost all our fire places there is, we believe, great waste of heat. Many people we are persuaded let fully half the heat escape by the chimney, consequently, the fuel is but partially consumed. The writer of the article referred to, says "When we know that steam users and others are paying from 10 to 50 cents for what ought to be had in indicated and accountable work for 2 cents, it behaves one and all to steadily work on this important field which offers such great inducements and scope for improvement."

SONGS OF PRAISE for Sunday Schools. American Baptist Publication Society, pp. 123, 25 cents.

A new book of music for Sunday Schools is not a very uncommon thing now-a-days, but a real good one is. This one we think may be so designated. The music is choice and the hymns are carefully selected. It is got up in good style and substantially bound in stiff eovers.

THE GRAPHIC, a weekly illustrated paper published at 190 Strand, London is we believe at the head of all the illustrated papers. The summer number is a splendid specimen of the adin colors. It has three full page page size, got up in what may be considered the highest still of art and almost equal to hand-painting. A recent issue consisted of 520,000 copies, 160 tons of paper, and costing \$85,000, and the number was out of print in a few days.

handsome sum of \$1.309 in recognition

of their esteem for him in the office he

has so long held. Mr. Muncey returns

a note of thanks, and says : Having

arrived, in the Providence of God, at a

good old age, it is particularly pleasing

to me to know that I enjoy the confi-

dence and esteem of so many of the

members of the commercial community

and other friends.

THAT HUSBAND OF MINES is three times the man he was before he began using "Wells' Health Renewer." \$1. Druggists.

EXHIBITIONS.-Public attention was largely taken up in several parts of the province last week, by Agricultural and Industrial Exhibitions.

At Truro it was held on Wednesday and Thursday. The exhibits embraced stock of very superior character. Argi-cultural productions, not in large quantities, but very superior in quality. Woollen and flax manufactures of excellent make and finish, apples, pears and grapes of superior descriptions. In al railway rates—\$65 from Montreal to maunfactures Gates Bros., Organs and Pianos deservedly occupied a conspic-uous position. Mr. Longworth gave the probable time of employment is three closing address on Thursday which years. elicited much applause.

He said the committee, gave it as their opinion "that the exhibits in this department for excellency of quality, as well as for size, and especially in potatoes, have never been surpassed at any pre-vious Nova Scotian show; and they doubt if as good a display has ever been the British authorities. We shall therewitnessed on the continent of America." fore probably not have her in our harbor And he was glad to hear so prominent to avoid, whatever Scylla there may be a Nova Scotian stock raiser as Jonathan Rand, a large exhibitor at this Exhibition, declare it as his decided opinion that the exhibit of grade heifer calves, in numbers as well as size and breeding, is far ahead of that of any previous show. But high as the standard of excellence which our cattle have attained in breed and growth for feeding purposes, it is not to be compared with what has been accomplished in other parts of Canada. And our farmers must not rest satisfied until they secure results that have been obtained elsewhere. At the great shows ber is a splendid specimen of the ad-vancement made in the art of printing H. & J. Groff, of Elmira, exhibited yearling steers weighing from 1300 to have cleared out the Boot and Shoe handsome plates, with one of double 1400 pounds apiece; two year olds, from Machinery from the factory at Truro, for 1800 to 1900 each ; and three year olds \$1000, a good price to them, yet a good from 2,500 to 2,600 pounds, the largest | bargain to the Pictou purchasers. fattest and best lot yet raised in the Dominion. He was well assured that our farmers are becoming more convinced of the fact that a high standard of agriculture is not attained by cultivation of the soil for immediate profit, regardless of future crops. He closed by repeating the following appropriate stanzas : Come boys, I have something to tell you, Come near, I would whisper it low; You are thinking of leaving the homestead, Don't be in a hurry to go. THE HALIFAX MERCHANTS have done themselves honor by presenting, to Mr. The city has many attractions. John F. Muncey, who after a period of But think of the vices and sins ; fifteen years as Appraiser to H. M. Customs in Halifax has retired, the

The Governor-General arrived at Yale, British Columbia, on Wednesday, and met with a very hearty reception. He went over twenty-three miles of the Canadian Pacific Railway up the Fraser River Canon, and was much pleased with the work done. He ascertained, on the authority of the contractors, that employment can be given as follows: 150 carpenters, at \$3 50 to \$4 a day; 100 hewers, at \$3,50 a day; 300 chop-pers and scorers, at \$2.50 a day; 100 stone-cutters, at \$3.50 a day. Board and ial railway rates-\$65 from Montreal to the works-can be obtained through W. probable time of employment is three

But, ah ! there is gold on the farm, boys,

The mercantile life is a hazard,

DON'T DIE IN THE HOUSE .- " Rough on Rats." Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers, 15c.

WE have had several steamers and ships put into Halifax in distress during | The Bankers and Brokers are wealthy, the week.

On Monday the steamer Lombard with cargo of grain from New Orleans for Antwerp was obliged to discharge a portion of her cargo. She is repairing The farm is the safest and surest; and reloading to sail in a few days. On Thursday the German barque Alama from New York for Trieste with 3152 barrels of refined petroleum came in leaking. It was found necessary to discharge a portion of her cargo.

On Friday evening the steamer Mount Lebanon an iron-ship of 1555 tons regis ter with a cargo of 42,000 bushels of grain, 300 bales of Cotton, and other merchandise was towed into the harbor by two tugs. It appears that the Mount Lebanon had left Baltimore on the 20th of September for Havre, but on Tues day the 25th, while passing through a exhibit noon. was struck by one of them which knocked it off, leaving the ship in a comparatively helpless condition. Attempts were made by other steamers to tow her, but in the rough weather they were obliged to cease after rendering steamers were sighted but refused. She
