Then we are given to understand that half a dozen men appointed by the Convention as governors to carry out its understood wishes, feel determined to override, overrule and set at naught the opinions and wishes of that large and influential body to whom they are

responsible. It is industriously circulated that the opposition to the measure referred to is local and limited I deny this. It is almost universal throughout the length and breadth of the lower provinces. As an evidence, not a minister of the 340 churches connected with the Baptist Convention has written a line commending the measure. 'Tis true that two of the governors-both of the legal profession-have put forth feeble excuses for the acts of the Board. They were certainly very weak but probably the best pleas they had to offer; no one outside of the Board has ventured to come to their rescue.

I believe the action taken has already resulted in injury to our beloved institution, no doubt but more serious detriment will be felt hereafter .-Acadia college, the boast of the Baptist denomination, has been made a laughing stock and this is the consequence of a and fearless critic may render great few men in secret plotting to carry out the whims and fancies of a few interested | criticism may result in great disa ivan-

Nov. 2nd 1883.

The Acadia College Difficulty. No. I.

To the Editor of the Herald:

SIR,-Will you give me room in your paper for a short series of letters on the subject of Dr. Rand's appointment to the chair of the principles and practice of education in Acadia College? The letter of John W. Barss, Esq., in the Herald of the 2nd inst., added to some previous writing, has induced me to ask

Neither would she fail to call his attention to the fact that she had done much in creating the cul. tured and intellectual society in which he has moved for a quarter of a century or more, and in which he has reared his children. Something also would be charged against him for the help rendered in making Wolfville a place of business, which has been of great advantage to Mr. Buss in that line. But I leave this for Mr. Barss and the institutions to settle between themselves. It might, however, not be improper for me to remind Mr. Barss, in this connection, that the principle of giving to any object is not that of amounts merely, but of ability rather. As an officer in a church of Christ, Mr. Barss believes that the widow who gave all that she had, and that only a mite, gave more than all the rich men who cast their large contributions in o the treasury.

Had his fault said the doings of the governors have been inconsistent, then he would have a just claim for the thanks of the defew years makes it plain that Mr. Barss' judgment is not infallible. Only four years ago at the Central Association at Berwick, in an address characterized by much warmth of feeling and positive utterance, Mr. Barss said that in three Having been intimately connected years, because of the ill judged management of the governors, there would be no College in Wolfville. Since that time he so despaired of the efficient existence of that institution that he felt constrained to appear in the newspapers, favoring the proposal then made to surrender our College work at Acadia and con olidate with Dalhousie. But what did he do in the late Convention held in Halifax? He actually moved a vote of thanks to the Governors of Acadia College for their able and successful management of its affairs.

Now Mr. Barss is very sanguine in his condemnation of the governors for founding a chair, and for appointing Dr. Rand to a professorship; but in less than four years I fondly hope that he will be just as sanguine in moving a vote of thanks commending them for it. He will then be able to point to the good results of this movement as he is now able to point to the good results of building the Ladies' Seminary, the going into debt for which had caused him to believe that all was lost.

The history of the founding of the new professorship and the appointing of Dr. Rand to fill it, will be plainly told in subsequent letters. The nature also of the new department, and the grounds on which the belief rests that it will yield good results will be considered at some length.

For the Christian Messenger. Suggestions on College Matters. Mr. Editor,-

Having in mind a prophecy which was utt-red in my hearing not long since, to the effect that one issue of the current reconstruction of the Arts Curriculum of Acadia College, I venture to suggest that the members of the Senate, to whom such work belongs, immediately put under serious consideration some such questions as the following, in order to satisfy themselves of the expediency or necessity of radical changes :-

(3) Do the same interests demand any modification of the Mathematical Course?

German be inserted into the Curriculum? (5) Are there any other studies whose importance as elements of a liberal recognized?

(Clause 16.)

(5) "The Body of the College shall present a report of their doings to the Board of Governors at their meetings during the Anniversary proceedings of

died on the 15th October, at Ridgeville,

EDWARD L. STUBBERT,

Iriquois Co., Illinois, after a lingering illness, in the 23rd year of his age, beloved and much lamented son of Rev. James A. and Mary C. Stubbert. He died peaceful and happy, without a doubt or a fear, trusting in the finished work of his Redeemer. Edward experienced the saving power of God's love when in the 13th year of his age, and was baptized into the fellowship of the Baptist Church in Deerfield, Yarmouth County, of which he continued a worthy member until death. He loved the worship of God, took part in the family worship, and after leaving home he often in his letters spoke of the comfort and strength he derived in engaging in family worship with his brother's family with whom he lived. He left home in the early part of last March to visit a brother residing in Minnesota, and intending to study Telegraphy, and practice it, but after only one week's study, he took a heavy cold, which resulted in undermining a constitution naturally frail and delicate, and at last terminated in his early death. A few sentences from the last letter he was able to write will show the state of his mind. In referring to some troubles through which we were passing, he says, "Look up to God for His support in the trying hour, He has said He will never leave nor forsake you. CONCERNING CONVERSION AND BAPTISM. - Dr. Dickinson, of the American Baptist Religious Herald, says .-"We once heard Dr. W. F. Broadus tell of a little girl who, in the days when the conversion of children was not the subject of as much prayer as now, applied for membership in a Baptist church. 'Were you a sinner,' asked an old deacon, 'before this change of which you now speak?' 'Yes sir, she replied. 'Well, are you now a sinner?' Yes, sir, I feel I am a greater sinner than ever.' 'Then,' continued the deacon, 'what change can there be in you? 'I don't know how to explain it,' she said. but I used to be a sinner running after sin, and now I hope I am a sinner running from sin.' They received her? and for years she was a bright and shining light; and now she lives where there is no sin to run from."

There was a famous battle of the birds in Ohio some weeks ago. A flock of ravens numbering some five hundred hovered high in the air over Ginnheim. They formed three detach ments, and, as if at a given signal, flew at each other with savage cries. Dead birds began to fall, and soon over fitty were picked up. Their wounds were all on the head.

An old minister in Ohio seemed rather opposed to an educated ministry. Said he, 'Why, my 'brethering,' every young man who is going to preach thinks he must be off to some college and study a lot of Greek and Latin. All nonsense! All wrong! What did Peter and Paul know about Greek? Why not one word, my 'brethering.' No Peter and Paul preached in the plain old English, and so'll I.'
