CHRISTMAS GREETINGS.

The rapid flight of Time has brought us to the last issue before the great festival day of the European and American peoples, and, indeed, of all Christendom, which is intended to commemorate THE BIRTH OF OUR LORD AND SAVIOUR into this world, at Bethlehem in Judea. We would join with the heavenly host in the song:

"Glory to Gad in the highest, on earth Beace, good will to men."

The superstition connected with the observance of

having any scriptural authority is large ly banished from the minds of intelli gent Christian people, but as a time of reunion and hearty expression of kindly feeling between members of famil es and triends, of gifts and presents, it is we believe, more and more observed, and that in a more rational and pleasant manner than at any previous age of the world! We have had the privilege of joining in such expressions of good wishes for the happiness of our thou sands of readers for twenty seven years, and we never felt a warmer attachment, especially to the children of our patrons, than at this day. To them all, and to their fathers and mothers and uncles and aunts and cousins, we would offer a hearifelt and sincere wish that they may one and all have

3 Merrie, Merrie Christmas.

THE matter of Confession, Absolution, &c., brought so prominently forward during the recent visit of the Episcopal visitors to our city, has been taken up vigorously by Rev. Dr. Burns, Presbyterian minister of Fort Ma-sey Church. The publication of his lecture has brought forth an elaborate defense from a writer over the signature " C .. ' unders oud to be from the pen of the Archbishop of Halifax, or the Bishop of Arichat. Opinions will of course differ as to which is the more able production. Dr. Burns is, of course, unable to take his stand on ground that is necessary to render his position unassailable. In the matter of Intant Baptism Tradition is appealed to by Protestants and Catholics alike. The pith of the whole argument is, of course, as to the sufficiency of the teachings of the Sacred Scriptures, or whether reliable Tradition is left as any part of Christ's legacy to His Church. It is singular that the priest, so called, who recently opened upthis matter in St. Luke's, bears the same name as he, who, in 1859 was the means of bring ng forth a vigorous pamphlet from the pen of the late Rev. Dr. Cramp, entitled, "Scripture and Tradition: A reply to Rev. Mr. Maturin's Letter on The Claims of the Catholic Church." If Presbyterians would but carry out the views they sometimes express on the subject of Baptism, they might successfully challenge the Anglican or the Roman Catholic in reference to the matter they profess to have had committed to them as the successors of Peter, and of the other apostles, but, until they do, they have an exposed joint in their armour, through which they may receive the deadly thrusts of the Anglican Bishop, or the Roman Catholic Archbishop, and so may be silenced.

We have not cared to interfere in this discussion at present, as we had not authoritative statements from any of the leading men in these communions, but we have now just learned that Bishop Binney has put torth a pamphlet on the subject. We have not yet seen it, but shall probably in a day or two, and shall inform our readers of hygienic principles held by the author. the character of its contents.

We have also received a request from respected brethren to insert another letter that appeared, several days ago, in one of our city papers, which we are compelled to decline. It would be but a repetition of matters which have already appeared in one shape or another in our columns. It we did this we must, of course, copy all the replies and rejoinders, and whatever else is written, of bad temper and bad language, the writers may choose to use ia them. To the Editor of the Christian Messenger.

Sir.-I gave what I regarded as correct account of the founding of the new chair, and of the appointment of Dr. Rand. Then I defended it from a public attack, by showing that everything was done fairly and honourably. Of the part of this account referring to himself, Dr. Higgins first says, that it was "wholly incorrect," then that it was partly incorrect, and lastly that the statements are "false charges." But he must see that they are not charges at all. It is simply a recital of business transactions in founding a chair in Acadia College, and in appointing a profes sor. I took no little trouble to get the account correct. In order to do this, before publishing it-the account of what took place in committees, in the Senate, and in the Board of Governors-I, by request, read it to the Rev. J W. Manning, B. H. Eaton, Esq., E. D. King, all agreed that the whole account, inclustate the case fairly. If Prof. Higgins' part in the matter was by him intended to be different from that of my accounts then he has led us all astray. These are the facts of the case, so far as I know

I trust you will give me space, as one who has been opposed from the first to the establishment of the Cuair of Education, to contradict certain statements made by Dr. Saunders in his "Series" to the effect that "in the agitation led up against the College authorities, it is evident that passion and caprice," trickery," base and "unscrupulous' me in , 'insaue," "blind" feelings, "political devices." have taken the control. Many young women who otherwise have the ability and inclination to obtain a liberal education, are debarred on ac count of the great expense. Men and women, under these circumstances become tired of the hors--leech's cry of "Give, give." It would have been pluden, it would have been wise, to have miniged to get along in an economical way for a few years. Did not the Governors at the St. John Convention say that College matters would move along in a business way, if only the present debt was removed, and did not that noble hearted man, Mr. Cummings, endeavour to gratify the wishes of the Governors? A-k him if this is not so. Let us return, before it is to lite, to the safe way, let us lay aside all personal aims and act for the cause of Christian educatio like men. It may be too late a year he ce. If once a deficit of \$2,000 or \$3,000 occurs, as it is I kely to do under the present circums ances, it may be extremely difficult (I will not s y impossible) to remove it. People may decline to pay a debt which they have protested against incurring. Thanking you for your space.

Rejoinder from Rev. I. J. Skinner. To the Editor of the Christian Messenger

I have neither the time nor inclination to engage in controversy on the subject to pass unnoticed I therefore ask a brief space in your columns for this purpose.

Bro. King takes exception to my statement that the founding of the new chair at Acadia College, was done without the knowledge and concurrence of the Convention, and he comforts himself with the assurance that a "brief recital of the facts of the case," will prove and convince me, that "it was not really so," -that is to say that my statement was incorrect.
