It is feared that it was too late to do much for the hay crop which will necessarily be very light in many parts of the Province. All through the Annapolis Valley there was great need of rain. But little grass was being cut.

The heat at the beginning of last week was higher than we often have in this land. In some places it is said to have registered from 90 to 96 in the shade.

The Corner Stone of the new Building for the Home for the Aged was laid by Lieut. Governor Richey on Wednesday afternoon. After reading a suitable portion of Scripture, Rev. Dr. Hill delivered a brief address. He alluded to the success of the Home for the Aged in the past, equalling the anticipations of its founders, and spoke of the cordial sympathy Hon. Dr. Parker and himself had met with in soliciting subscriptions. Some who had given previously increased their contributions, while others expressed their pleasure at the opportunity to give to so worthy an object. He trusted that further contributions would flow in, that the trustees might be enabled to discharge the liability they are now incurring in the erection of so large and commodious a building. Subscriptions were reported amounting to \$5,895.90. Copies of the following newspapers were deposited in the corner stone:—The Morning Chronicle; Morning Herald; Acadia Recorder; Wesleyan; Presbyterian Witness; Christian Messenger; Church Guardian, and various other reports and documents. THE METHODIST CAMP MEETING at Berwick commenced on Tuesday of last week. The grounds have a high board fence around them and a fee is charged for entrance. Preaching and other meetings are continued each day and evening. A number of popular ministers are there taking part in the exercises. A restaurant on the ground supplies eatables. The reporter for the Morning Chronicle gives glowing accounts of the proceedings.

The following are some of the terms characterizing the doings "a splendid altar service" "a wonderful sermon causing the people to weep, laugh and shout aloud." "At both altar services the people seemed to be carried away by a supernatural power."

On Sunday it is said that more than 2000 people were assembled in the grounds. The order on the grounds was excellent considering the multitude. The fence proved a complete success, and Sabbath desecration during camp meeting time seems to be a thing of the past. The meetings close on Tuesday.

Before the balloting was proceeded with eight of the votes polled were challenged, and a fund is being raised to carry the matter into the Supreme Court, the legality of the election being questioned.

News of the World.

A despatch on the 1st inst. says: Earl Granville, Foreign Secretary of State, on Saturday received a despatch from Gen. Gordon, giving assurances of his health and safety. The date of the despatch is unknown.

Another despatch of the same date says: The Conference has given a favorable reception to England's financial proposals regarding Egypt. It is expected that the deliberations of the Conference will reach a successful result.

A despatch from Cairo to the London Telegraph says: "That letters have been received there from Khartoum stating that that place was captured during the latter part of May without difficulty. There was no massacre. Most of the Europeans turned Mohammedan. Among those who did not was General Gordon, who is quite safe and allowed the freedom of Mahdi's camp. The Mahdi himself is at Khartoum, Europeans are well treated. Special despatches do not confirm the above.

The German Government have given to an English firm of shipbuilders an order for the construction of the largest torpedo boat ever built.

On Thursday in the House of Commons Hon. Hugh Childers, Chancellor of the Exchequer, stated that the Egyptian Conference would reassemble when the assistants of delegates had finished the examination of England's financial proposals. Ashmead Bartlett (Conservative), gave notice that he would supplement a question which Mr. Labouchere yesterday gave notice of intention to ask, by asking Mr. Gladstone whether in view of the evidence of Conservative feeling in the country afford by the recent elections, it was not advisable to dissolve Parliament and take a public verdict on the difference between the House of Lords and the subservient majority of the House of Commons.

A despatch from Glasgow on the 3rd says, detectives acting under a special order minutely overhauled the steamer Bolivia which arrived here yesterday from New York for infernal machines, but without success. All American vessels arriving in the Clyde will henceforth be carefully examined to discover any explosives on board. All public buildings are being closely guarded.

The cholera is causing much concern especially in France, a despatch on Thursday last from Marseilles said: "Situation worse at Toulon. Deaths average 10; 13 yesterday. It is conceded to be Asiatic cholera. The epidemic is stationary at Marseilles; 6 deaths Friday, 8 Saturday, 4 Sunday, 5 Monday. Some cases are apparently Asiatic the remainder infantum or sporadic. There are 12 cases at the Operai Hospital."

Paris the Prefect of Police has ordered that all passengers and baggage arriving from places where cholera is prevalent shall be disinfected before entering Paris. Some of the Parisian journals assert there were three cases of cholera in Paris on Wednesday. Travellers who pass into Italy by the Mount Cenis tunnel are subject to a

quarantine of five days at the frontier. All vessels coming from Toulon to Malta are subjected to twenty-one days quarantine.

The Spanish Government is dissatisfied with the precautions taken by England against cholera. It has therefore ordered that all vessels arriving at Spanish ports direct from England shall be detained three days for observation. Those arriving from England by the way of non-infected French ports shall be subject to seven days quarantine. Those by way of infected French ports to ten days if they have a clean bill of health, and if not to fifteen days.

Advices from Toulon state that five cases of cholera were cured there by inhaling pure oxygen. The effect is immediate, and consists of restoring warmth to the system and making the pulse normal once more. A Rome despatch says that agricultural laborers in the Venetian and Mantuan Provinces have struck for higher wages. The Government commissioners of inquiry attribute the existing depression to the sale of crown lands, to the effects of brigandage and to American and Indian competition.

The Chamber of Deputies at Paris on Tuesday adopted the first clause of the bill for the revision of the constitution, affirming the expediency of the revision by a vote of 456 to 20. The Chamber rejected the amendments abolishing the office of President on the ground of inutility, and proposing universal suffrage for the election of Senators. M. Andrieux proposed to add a provision prohibiting members of former reigning families from becoming eligible to the office of President.

At a Cabinet counsel in Paris on Thursday, Minister Ferry stated that the Chinese Foreign Board did not disavow the Chinese regular troops at Langson. The Board admitted that the Chinese army had obeyed orders to retain the possession of that city, though this was contrary to the recent Franco-Chinese treaty. China contended that the evacuation of the frontier towns was conditional upon the signature of a definitive treaty between France and China.

In the event of China's refusing redress for the action of her troops at Langson, France will immediately declare war. Active preparations are being made for reinforcements to leave France for the East.

The Times, referring to this matter says: "The complication wherewith the contest between China and France threatens the trade of America, England and Germany will be of the most serious character."

Religion stands upon two pillars, viz., what Christ did for us in His flesh, and what He performs for us by His Spirit. Most errors arise from an attempt to separate these two.
