THE CENTURY.

In 1885. A GREAT ENTERPRISE.

Papers on the Civil War. The important feature of THE CENTURY MAGAZINE for the coming year-indeed, perhaps the most important ever undertaken by the magazine—will be a series of separate papers on the great battles of the War for the Union, written by general officers high in command upon both the Federal and the Confederate sides, — General Grant (who writes of Vicksburg, Shiloh, and other battles), Generals Longstreet, McClellan, Beauregard, Rosecrans, Hill, Admiral Porter, and others. The series opens
in the November Century with a graphically illustrated article on

The Battle of Bull Run. written by the Confederate general, G. T. Beauregard. Brief sketches, entitled "Recollections of a Private," papers chronicling special events, descriptions of various auxiliary branches of the service, etc, will supplement the more important series by the various generals.

A strict regard for accuracy will guide the preparation of the illustrations, for which THE CENTURY has at its disposal a very large quantity of photographs, drawings, portraits, maps, plans, etc, hitherto unused. The aim is to present in this series, not official reports, but commanding officers' accounts of their plans and operations,—interesting personal experiences which will record leading events of the war, and possess, at the same time, a historical value not easily to be calculated.

FICTION.

In this line THE CENTURY will maintain its prestige, and furnish the best stories by American writers that can be procured. In November begins

A New Novel by W. D. Howells, Author of "Venetian Days," "A Modern Instance," etc. This story deals with the rise of an American business man. A novel by Henry James, a novelette by Grace Denio Litchfield, and short stories by "Uncle Remus," Frank R. Stockton, H. H. Boyesen, T. A. Janiver, H. H. Julian Hawthorne, and other equally well-known writers will appear at various times.

Miscellaneous Features.

Under this heading may be included a series of papers on the Cities of Italy by W. D. Howells, the illustrations being reproductions of etchings and drawings by Joseph Pennell; a series on

The New North-West.

being an interesting group of papers by E. V. Smalley, Lieut. Schwatka, Principal Grant (of Kingston, Ontario), and others, descriptive of little-known regions; papers on French and American art,-sculpture and painting, with some exquisite illustrations; papers on

Astronomy, Architecture, and

History, the first being by Professor Langley and others. Under Architecture are included more of Mrs. Van Rensselaer's articles on Churches, City and Country Houses, etc. Colonel George E. Waring, Jr., will

Progress in Sanitary Draining: E. C. Stedman, Edmund Gosse, and others will furnish literary essays; George W. Cable will contribute in various ways; several papers on sport and adventure will soon be published and

John Burroughs

will write from time to time on outdoor

Readers of THE CENTURY may feel sure of keeping abreast of the times on leading subjects that may properly come within the province of a monthly magazine. Its circulation is now about 140,000 monthly, the November number exceeding that figure. Subscriptions should date from this number, beginning the War Series and Mr. Howells's novel. Price \$4.00 a year, 35 cents a number. All booksellers and news-dealers sell it and take subscriptions, or remittance may be made to the publishers.

A free specimen copy of THE CENTURY will be sent on request. Mention this

Ane plate paper, and will be issued monthly to our subscribers, free of charge.

In these sketches an effort is made to In these sketches an effort is made to hit off not only the facial expression, but the general figure as well, each subject being given in some characteristic pose. Wherever possible the drawing will be made from life, so as to ensure accuracy in these respects. At the same time a staid matter-of-fact portrait is not aimed at, but that far more attractive and unique thing—a Caricature embracing a Life-Ness. Each portrait is accompanied by a NESS. Each portrait is accompanied by a brief biographical notice written in a spirit to correspond with the picture.

When we call upon Canadians to EN-COURAGE this enterprise we are after all not asking them to Do anything vast. They already have in GRIP abundant value for \$2 per annum, and as has been already stated the GALLERY, WHICH ALONE IS WORTH MORETHAN THE AMOUNT ALONE IS WORTH MORETHAN THE AMOUNT OF SUBSCRIPTION, is a free gift. All we request therefore is that those who are not already upon our list shall subscribe for Grip. We decline to argue as to whether \$2 per year can be spent in any better way intellectually. There is no question to argue. The intelligent citizen of Canada who has that amount per year to invest for his montal place. to invest for his mental pleasure may safely take our word on this point, he will certainly find nothing to buy for the money which will be so satisfactory as a receipt for a subscription to GRIP.

obtained for Inventors, in the United States, Canada, and Europe, at reduced rates. With our principal Office located in Washington, directly opposite the United States Patent Office, we are able to attend to all Patent Business with greater promptness and despatch and less cost, than other patent attorneys, who are at a distance from Washington, and who have, therefore, to employ "associate attorneys." We make preliminary examinations and furnish opinions as to patentability, free of charge, and all who are interested in new inventions and Patents are invived to send for a copy of our "Guide for obtaining Patents," which is sent free to any address, and contains complete instructions how to obtain Patents, and other valuable matter.
