CRIMINAL PLUMBING .- The trial of Thomas C. Holland, plumber, of New York city, for criminally negligent work, was held before Special Sessions, November 6, and resulted in the imposition of a fine of \$250. In default of payment Holland was sent to prison. Dummy vent pipes from wash basin traps had been run into partitions and there terminated.

FARM AND GARDEN.

It takes time and patience—and a good deal of both-to kill a Canada thistle. The large amount of nutritive matter stored up in the tap-root enables it to produce fresh growth very soon after the stem and leaves have been cut off. It needs therefore to be cut again and again, until the nutritious substances in the root have been exhausted.

IT IS TRUE!

KIND WORDS. WHAT OTHERS THINK OF BODS AND BLOSSOMS -The following is from The Christian at Work, a first-class religious weekly, published in New York: "In the City of Halifax, Nova Scotia, is published a monthly magazine called Buns AND BLOSSOMS and edited by J. F. Avery. Each number contains forty pages. plentifully and handsomely illustrated, and at 75 cents a year is certainly one of the cheapest publications extant. But better still, it is one of the best. Its pages are full of the gospel spirit, excellent temperance sketches, missionary intelligence, short stories, household hints and suggestions, all entertaining clean and wholesome literature, suitable for the home and family circle, and calculated to promote purity and knowledge among its readers. We do not know what the circulation of this excellent publication may be, but of this we are sure, it ought to be double whatever it is, for it is just the right kind of reading to be put into the hands of young folks; bright, cheery, hopeful and strong, without cant or sickly sentimentality. We hold it as an indisputable truism that when an opportunity offers to promote the circulation of such literature among the young it becomes a religious duty to do so. Send to the publisher for a specimen copy, and you'll find that we have not said one half the good things we might concerning it."

We will send back numbers till the end of 1884 for 50 cents, or for \$100 will take new names from date until end of 1885. So confident are we you will like it, we offer it for 25 cents remainder of the year. Send 6 cents for specimen and opinions of the press.

Prepared for Sacramental and Dietetio By F. WRIGHT, Maunfacturing Chemist

Kensington High Street, London, W. "This WINE is guaranteed to be the uice of the finest grapes of the Cote d'or, Andalusia, and the Medoc. It is perfectly free from Alcohol, and is guaranteed to be Pure Grape Juice. It has stood the test of 22 years' continuous sale in every climate. and is now used in upwards of 1500 Churches of all denominations. The mode of manufacture is a slight modification of a wellknown ancient practice, and effectually preserves the grateful flavor and the rich nutri tious qualities unimpaired. It is therefore admirably adapted in cases of debility and fever, in which the stomach is too weak to digest other food. Children suffering from febrile ailments drink it with avidity, even when all other food has been refused.
