BAPTIST BOOK AND TRACT SOCIETY.—New Year, 1884.—We have much pleasure in thanking our brethren and friends who have so nobly assisted us with their money toward Capital and Colportage Funds, and have favored us with their valued orders during the year 1883. We solicit still further your support and hearty cooperation. Our aim shall be to fill all orders entrusted to us with promptness and despatch, always selling at the lowest figures for CASH, allowing discounts where possible, and giving good value for your money. It will be gratifying to ministers and superintendents to know that the BAPTIST BOOK ROOM, Halifax, can supply their wants. In ordering Lesson Helps, Periodicals, Libraries, &c. for and during the year please remember your own Society before sending to Philadelphia; the price and quality are exactly the same. We are pleased to know that many Sabbath Schools, hitherto closed during the winter season, are being kept open for the first time and we heartily wish them success, and will send any poor schools thus making the effort, (upon receipt of stamps to pay postage), a few tracts, papers, cards, &c. free. We wish you all A HAPPY NEW YEAR.

TRURO.—We spent our first Christmas in this town, and so far are pleased with place and people; they seem active and industrious. Old King Frost held sway on the 23rd and 24th, at 20° below zero, but to day the merry jingle, jingle, and swift moving teams betoken a rise. The young as well as old seem to enjoy it.—W. J. G.

OUTLOOK FOR LUNenburg Co.—Lunenburg, Bridgewater, and Mahone Bay are now really active, rapidly growing towns. There are large numbers of vessels in course of building in each place, and also on the Lohave River. The wealth of the sea pours in on the county, and the proceeds are expended in enlarging their fleet and building up the towns. The new railroad, now well on to completion, will be an important auxiliary. Large quantities of the excellent iron ore of Nictaux Falls has been contracted for, and will be shipped over the railroad to the Atlantic coast, for shipment to the States.—Com.

NEWFOUNDLAND has had some fatal riots during the past week.

At Harbor Grace on Wednesday last there was a procession of Orangemen with regalia and flags, for some purpose. It appears by the telegrams to our morning papers, that the disturbance originated on Monday evening the 24th by threats of Roman Catholics to obstruct the procession of Orangemen on the following Wednesday. A good deal of street brawling occurred during Monday, but by the efforts of the police authorities the mob was quietly dispersed. Tuesday passed peacefully. On Wednesday the Orangemen met at the British hall, arranged their programme and put on their uniforms, badges and customary symbols, and marched from the hall to the Wesleyan church. After service the procession proceeded to Bear's Cove, thence up Harvey street, and when about to return home through Water street were attacked by an armed mob with guns, batons and pickaxes. When confronted with the mob the Orange procession halted, whereupon seven sealing guns loaded with heavy shot were discharged into their ranks. Four men, Jeanes, Darnody, Callahan and French fell to the ground and expired almost instantly. Eighteen were wounded, five supposed mortally.

The police force at Harbor Grace, is being reinforced from all the country. Thousands of men are armed and arming all around Conception Bay.

A telegram on Friday said six arrests had been made by the police at the river-head of Harbor Grace. The names of those arrested are Quirk, Shanahan, Duggan, Coady, McCarty, Sullivan. Harper, the man who shot and killed James and wounded Lilly, also shot Callahan, one of his own party by mistake.

It appears that the constabulary of the island is regulated similar to H. M. Forces and is altogether under Government supervision and pay. The two principal places, besides St. John's are Carbonar and Harbor Grace, the latter of which is now a city. In Carbonar they have (or had less than two years ago) six men and a sergeant; in Harbor Grace fourteen police, two sergeants and a head constable. In St. John's there are sixty five rank and file and six sergeants besides chiefs. All these are infantry and beside there are twelve of a horse police in St. John's. All the force live in barracks, are uniformed similar to the rifle regiments, and armed with rifle and bayonet, etc., when necessary being drilled as regular soldiers. The horse-police are in effect a cavalry squad, armed with cutlans, etc.

Throughout the Island the feeling is very strong between Roman Catholics and Protestants, and the latter are nearly all Orangemen. Harbor Grace is sixty-two miles from St. John's by road boat or rail—easy communication either way. From the reported style of com-

mencement of the riots, the informant considered prospects most serious. The fishermen are now all home, with plenty of time on their hands, and in any question involving religion blows follow words without much consideration of consequences.

Ayer's Cherry Pectoral is recommended by physicians of the greatest eminence on both sides of the Atlantic as the most reliable remedy for colds and coughs, and all pulmonary disorders. It affords prompt relief in every case. No family should ever be without it.

I certify that I obtained immediate relief during a severe case of bronchitis, when in Camp Sussex this year, by the application of Minard's Liniment.

C. CARW-READ, Lieut.-Col.

Dr. I. S. Johnson & Co., Boston, Mass., will send by mail, postage paid, a quarter of a pound sample pack of Sheridan's horse and cattle powders on receipt of 25 cents. A telegram to the Chronicle from Toronto says: At the Trades and Labor Council meeting the Legislative Committee presented a report on immigration. It dealt with the importance of restricting immigration, and recommended that the matter be brought before the Dominion Government. It states that Canada has at present more people on her shores than employment could be found for at living wages, or, in fact, any wages at all, and that she is not at all anxious to be saddled with poor rates for paupers of other countries.

Sir Richard Cartwright was elected by acclamation for South Huron on Friday last.

It is probable that during the next session of Parliament that the Government will introduce a bill, placing all Canadian mutual benefit associations under the control of a superintendent of insurance. It is probable all United States institutions of similar character will be entirely excluded from transacting business in the Dominion.

It is not likely that France will consent to any mediation England might offer between that country and China. France is resolved to carry out alone, as the honor of the country may dictate, the task she had undertaken in Tonquin, and will only consider her task finished when Annam understands that it is impossible to evade the fulfilment of her treaty obligations.

Many were in this way injured. Nineteen charred bodies have so far been recovered. 23 persons altogether are missing. The directress of the school, seized with fright, threw herself from a window, and was killed on the spot.

In Cairo, Egypt it is reported that El Mahdi and his forces are advancing from El Obeid and are expected to reach Khartoum, and that the Governor of the Soudan believes that 50,000 Egyptians or 20,000 Indian troops would be required to open the road to Berber. Colonel Sartorius however, says he could do the work with one black brigade.

A telegram from Cairo on Thursday says: Thirteen hundred Egyptian troops have arrived at Khartoum from Fashoda. They met with no resistance on the way. These troops raise the garrison at Khartoum to 4,000 men. A female slave who was captured by El Mahdi after the slaying of the Kababish chief, her master, and who recently escaped from El Obeid, reports that El Mahdi is in great fear and has sent his family to a place of safety, and that the neighboring tribes have refused to help him.

An emissary of El Mahdi has been arrested at Mechieh, which is about 140 miles above Cairo on the Nile. He declared that it was his intention to proceed to Cairo and Mecca.

Storms of great severity have visited Pennsylvania. Pittsburg was visited by one of the worst for many years on Sunday 23rd. The streets were in a terrible condition, and as many cellars were flooded, the damage to goods of various kinds is heavy. Trains were delayed and telegraphs wires prostrated in every direction, owing to the heavy snow.

Institution of Savings, proves to have embezzled funds of the bank to the amount of \$2,713,655, being \$1,572,030 more than the amount recoverable from the bondsmen. The robberies cover a period of eight years: Upon complaint of officers of the institution a warrant was recently issued for Blodgett's arrest. The loss does not affect the institution, which has a surplus of nearly \$1,000,000.

The Mormon tabernacle, a correspondent writes, is the most wonderful whispering gallery in the world. When everybody in it is quiet the faintest whisper may be heard in the remotest part of the house. It will seat 20,000 persons.
