The work is a keen postical satire on New York society, and is announced to be by one of the best known of living writers.

MARION WARRINGTON: A sequel to Marion Elliott. By May F. McKean. Illustrated. Philadelphia : American Baptist Publication Society. Price \$1.00

Those who have been interested in tracing the development of the Christian life in Marion Elliot, will feel no less interest in following the heroine as she enters on a new and wider sphere of service as a pastor's wife. The characters are such as may be found in and about many a rural church in our land, and the scenes in which they bear their part may realily find the'r courterpart everywhere. The time has gone by when impossible scenes can command the attention of readers such as those for whom our Sunday-school books are prepared. This work might be termed. Ten Years of the Life of a Pastors' Wife. Pastors wives will probably learn some useful lessous from the history of Marion Warrington ; and every one who has a heart for Christian effort, in the church and the Sundayschool, may find valuable suggestions in the work that Marion and her husband performed.

News of the World.

The London press does not regard the Trades Union demonstration of last week as having any political importance. The Telegraph said it was the most remarkable and imposing that has been witnessed during Queen Victoria's reign. Over 100,000 men marched in procession with decorum rising to dignity. The loss by the fire at the Crane wharf, Wapping, London, it is now believed will reach \$2,000,000. Among the merchandize consumed were 9,000 bales of wool, valued at \$800,000; 2,000 tons of coffee, valued at \$350,-000, and 1,000 tons of pepper, a third of the entire stock in London, valued at \$325,000. Besides this 1350 tons of gum, tapioca, sugar, shellac, seeds and other produce were destroyed. Orders have been issued at the Chatham dockyard to send all available steam pinnaces to Egypt. The annual report of the Northern Spinners' Association has just been made public. It states that the cotion trade has not been prosperous during the past year. The Egyptian Conference met on Tuesday at the toreign office, Earl Granville presiding. The financial advisers of the several ambassadors were also in attendance. The conference continued in session only one hour, when it adjourned SINE DIE. It is considered doubtful whether it will meet again for a long time. The Spanish steamer Gijou, which collided with the English steamer Laxham when not far from Corunna, had one hundred and thirteen passengers on board and a crew of seventyseven. Twenty-three of the passengers and twenty-two of the crew have been landed at Corunna. It is believed the Laxham's crew went on board the Gijou, which foundered after the Laxham had gone down. There were filteen deaths at Toulon from Cholera on Thursday night. S.x. hundred people have left Toulon within the last two days for the Pyrenees. Deaths up to Saturday 593. The num ber of deaths in Marseilles on Thursday was sixteen.

municipal authorities have thanked the Sisters of Charity for their devotion. The negotiations between Minister Ferry and Li Tong Poo, the Chinese Minister, in regard to the indemnity demanded by France has been suspended, the Chinese representative ad-

hering to the last offer of 20,000,000 france. M Ferry has conceded China eight days delay. If, in the meantime, an agreement is not reached the French squadron will seize Foo Chow.

In the House of Commons on Thurs day Mr. Gladstone stated that the conference would re-assemble on Monday, after which he would state whether Parliament would be asked to sanction any financial arrangement.

As the Bairum feasts, which mark the close of the feast of Ramadan, begin at Suakim July 24, it was expected that a formidable attack upon the city would be made by the rebels. They maintained a heavy fire on Suakim Thursday night. Two Egyptian soldiers were wounded.

The Mudir of Dungola telegraphs that he has defeated five thousand of the followers of the Mahdi near Debbah, July 23, and captured three hundred Remington Rifles. The rebel losses were very heavy.

A gunpowder mill in Warsaw was blown up last week by Nibilists. Many buildings were badly shaken, and nearly every pane of glass in the place was broken. Two soldiers were killed out right and many others injured. Henceforth at Toulon all night soil, garbage and other offensive matter will and emptied there.

The Dartmouth Railway works are making progress. Grading is going on from Tufts' Cove down to near Black Rock. The Bridge across the Narrows is being pushed on vigorously. It has probably about 200 feet of pile driving done. The stone pier on which the iron portion of the bridge is to swing is up to within five or six feet below the surface of the water. The upper part is to be of large blocks of cut granite, which are all ready. The arms of the swinging, or turnstile, bridge are to be 85 feet in length on either side of the pivot on which it revolves. The piles are also driven for about 60 feet from the Western side of where the iron arm rests. There is perhaps 200 or 250 feet of pile driving yet to fill in between this and the curve on the shore end coming out from Richmond.

One of our evening city papers says: "It is necessary often to amputate a man's leg or arm to save his life."

It is doubtless a most painful operation to endure the amputation of a leg or an arm once, but to have such operation performed "often" must be sad indeed. It seems a little difficult to understand how this can be done unless the man's leg or arm should grow again after each amputation.
