> THERE is just as much difference be tween the eggs of fowls allowed to roam and forage for themselves, and those which are fed regularly on good, nutritious food, as there is between a leg of Southdown mutton and that of a common, half-starved sheep.

> The practice of running hay through a hay cutter and reducing it to as short pieces as possible, and then mixing with corn and sending it to an ordinary grist mill to be ground into provender for poultry, has been followed for several years by certain breeders with good results .- Poultry Yard.

The sunflower is the best egg-producing food known for poultry, keeping them in a thriving condition, and largely increasing the production of eggs. Every poultry raiser who tries it will find that this is the best food known for glossing the plumage of fowls, and is to fit their birds for exhibition to the best advantage. The Russian sunflower is easily raised, requires very little care, and can be grown in fence corners and other places difficult to cultivate. Its production of seed is immense, yielding often at the rate of one chalk; this takes up two or three hundred bushels to the acre. It should be planted in hills four feet apart, any ine, without becoming pasty, and time from the 10th of May to the 1st of July. Three quarts of seed will plant an acre.-lowa Homestead.

indescribable horrors, and even is tremendous. death itself, not unfrequently result from bad cooking.

to instruct them in all the mysteries of housekeeping. So shall you put and happy homes.

KNIVES WITH IVORY HANDLES, which have become loosened or have fallen out entirely, can be cemented at home, and with small expense, by using this cement :- Take four parts of rosin, one part of beeswax and one part of plaster of Paris; fill the hole in the handle with the cement, then heat the steel of the handle and press it firmly into the cement.

### SCIENCE.

PAPER SOAP.-A man in a hurry, who slipped on a muddy crossing on upper sixth avenue, and soiled his hands in saving himself from sprawling full length on the roadway, hands.

"Got any spare soap ?" he asked.

his hands.

A small piece of resin dipped in Mothers, whatever else you may the water which is placed in a vessel teach your daughters, do not neglect on a stove, says one who knows, will add a peculiar property to the atmosphere of the room, which will them in the way of good husbands give great relief to persons troubled with a cough. The heat of the water is sufficient to throw off the aroma of the resin, and gives the

same relief that is afforded by a combustion of the resin. It is preferable to combustion, because the evaporation is more durable. The same resin may be used for weeks.

Dry paint is removed by dipping a swab with a handle in a strong solution of oxalic acid. It softens it at once.

A little saltpetre or carbonate of soda mixed with the water in which flowers are placed will keep them fresh for two weeks.

FARM AND GARDEN.

went into a drug store to wash his of the garden for a few aromatic herbs. They thrive nicely along the sunny side of the garden fence, and The druggist drew a tiny book they will require a deep and fairly

## VARIETIES.

Said Stiggins to his wife one day, 'We've nothing left to eat ;

If things go on in this queer way, We shan't make both ends meet.'

The dame replied, in words discreet, "We're not so badly fed If we can make but one end meat And make the other bread.'

A placard adorns the door of the house occupied by the late Thomas Carlyle, bearing the legend :- 'No questions about Mr. Carlyle answered here. Please do not ring."

There is no use in sweeping a chamber if all the dust comes out of the broom. - Whately.

A health journal says that you ought to take three-quarters of an hour for your dinner. It is well also to add a few vegetables and a piece of mest.

Probably the longest lovers' quarrel on record came to an end the other day in Branford, Conn., when Miss Jennie Durand and James O. Smith were married. They quarreled in 1825, and did not meet again for fifty-eight years. The groom is eighty and the bride seventy-seven.

A QUEER PARROT .- Parrots are queer creatures, and, like monkeys, SwEET HERBS .- Save a corner of sometimes seem like a very burlesque upon humanity. One South American bird had unfortunately learned on shipboard the habit of profane language. The mate, a little ashamed of the creafrom his coat pocket. and, tearing rich soil. Thyme, summer savory, dousing it with a bucket of water at each ture's profanity, undertook a cure by and sage are great additions to many offense. Polly evidently imbibed the soups and stews. Cut them just reproof, for during a gale, when a before they bloom on a bright sun- heavy sea broke over a hen coop, and ny day. Tie them in bunches, and deluged hens and cocks pretty thoroughly, she marched up to the dripping fowls and screamed out, ' Been swearing again hain't ye?'-Harper's Magazine for April. A writer in a juvenile magazine lately gathered a number of dictionary words as defined by certain small peoly genuine :- ' Dust-Mud, with the juice squeezed out. Fan-A thing to brush warmth off with. Ice-Water that stayed out in the cold and went to or no expense. Pile on a floor sleep. Monkey-A very small boy with a tail. Salt-What makes your time coming unbuttoned.

all the impurities and foul humors of the secretions ; at the same time Correcting Acidity of the Stomach, curing Bili-ousness, Dyspepsis, Headaches, Diz-ziness, Heartburn, Constipation, Dryness of the Skin, Dropsy, Dim-ness of Vision, Jaundice, Salt Rheum, Erysipelas, Scrofula, Fluttering of the Heart the Heart, Nervousness and General Debility ; all these and many other similar Complaints yield to the happy influence of BURDOCK BLOOD BITTERS. Sample Bottles 10c; Regular size \$1.

For sale by all dealers. T. TILDUDY & CO., Proprietors, Torente Oct. 4. year

The Rev. Z. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows:

"78 E. 54th St., New York, May 16, 1882. MESSRS. J. C. AYER & Co., Gentlemen: Last winter I was troubled with a most uncomfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intense-ly, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough: my severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of AVER'S SARSAPARILLA, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite im-proved almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also eured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of the SARSAPARILLA, which I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good. Yours respectfully, Z. P. WILDS." severe catarrh and catarrhal cough; my

Yours respectfully, Z. P. WILDS." The above instance is but one of the many constantly coming to our notice, which prove the perfect adaptability of AVER'S SARSA-PARILLA to the cure of all diseases arising from impure or impoverished blood, and a weakened vitality.

Ayer's Sarsaparilla

cleanses, enriches, and strengthens the blood, stimulates the action of the stomach and bowels, and thereby enables the system to resist and overcome the attacks of all Scrofulous Diseases, Eruptions of the Skin, Rheumatism, Catarrh, General Debility, and all disorders resulting from poor or corrupted blood and a low state of the system.

There is nothing like it when taken internally for Cramps. Colic, Croup, Colds, Coughs, Pleurisy, Hoarseness, and Sore Throat. It is perfectly harmless, and can

cure or help of the following Diseases: Diptheria and Rheumatism' Scalds, Chil-blains, Galls, Boils, Sprains, Lumbago, Bronchitis, Burns, Toothache, Broken Breasts, Sore Nipples, Felons, Stings, Frost Bites, Bruises, old Søres, Wounds, Earache, Pain in the Side or Back, Con-traction of the Muscles traction of the Muscles
