Throughout Canada there are the sands of girls who owe the bloom of health shown in their cheeks, the the preacher. brightness of eye and elasticity of step to Dr. Williams' Pink Pils for Pale People. There are few girls in the first years of womanhood w o do not suffer more or less from agaemia. We see them everywhere, and they are easily recogn zed by a sallowness pallor, they are subject to headaches dizzine s, palpitation of the heart, nd exertion. To those who suffer in thi speedy and certain relief. Proof o this may be had in our own town. Miss Lizzie Smith, daughter of Mr. Wm. Smith, is today the embodiment of health and activity, yet not so long ago her friends feared that consumption had fastened its fange upon her. A representative of the Star recently interviewed Mrs. Smith as to the means employed to restore her daughter's health. Mrs. Smirh's uuhesitating r. p y was that Dr. Williams Pink Pills were entitled to the credit. Mrs. Smith said; "My daughter is nineteen years of age. For some years she has not been very strong and was subject to sick headaches. L st sum mer she went to work in an establishment in Paris, and had not been there long when her health grew much worse. She consulted a doctor there who said that her blood was in such a bad state that the trouble was likely to develope into consumption, and on hearing this L zzie returned home When we saw her we feared she wain a decline. She suffered very much from headaches; was as white as chalk. with dark circles under her eyes and the eyes shrunken Her appetite was very fickle and she ate very little. She was very despondent and at times said she did not care whether she lived or not. I decided to give Dr. Williams' Pink Pills, which I heard were so highly recommended in cases like hers, a trial. She had only taken the pills for a couple of weekwhen we could see an improvement. By the time she had used a couple of boxes her appetite was much improved, her headaches less frequent, and the spirit of depression passed and as active as though she had never had a day's illness. I really think Dr. Williams' Pink Pills saved her life and believe they are worth their weight in gold to girls suffering as she did.'
