CONSUMPTION!

Startling Statement by Sir James Grant, of Ottawa.

3000 Die Annually

In Ontario Alone Through the Ravages of the Great White Plague.

Before the Canadian Medical Association held at Ottawa a few days since, Sir James Grant, the noted physician, made the startling statement that 3,000 persons die annually in Ontario from tuberculosis. Truly, consumption is the most terrible disease in the world. It is the result of germs attacking the weak spot

For a quarter of a century Dr. T. A. Slocum, one of the most eminent scientists of the day, has made the cure of coasumption a life study and has succeeded in compounding a system of treatment which positively destroys the germ that produces the disease, at the same time building up the system and creating flesh and blood. There is no humbug about Dr. Slocum, he knows exactly what his treatment will do and affirms emphatically that it cures in ninety per cent of cases. The doctor has such confidence in the Slocum system that he effers treatment POSITIVELY PREE to all who desire a cure. Here is the offer
