It has been recommended by the Dairy Committee of the St. John Exhibition prize list that the Butter-making Competition which last year evoked so much interest should this year be continued and also that inducements be offered to have cheese made on two or three days in the Dairy Department.

The rule will this year be made imperative that all cattle, sheep, and swine in the pure bred classes of the St. John Exhibition must show their certificates of registration. This rule has not been rigidly enforced in the past but the stockmen themselves are now demanding that it shall. Stockmen will do well to attend to the registering of their animals in proper time.

There will probably be a milking competition at the St. John Exhibition this year. Three prizes will be given for the three cows which give the largest amount of milk in one day. The number of pounds of milk, the amount of butter, fat and the amount of other solids will all be considered and carefully weighed and tested by competent experts.

He may have been struck and stunned and therefore made unable to take hold of surrounding help, but before sinking, as if sensing his fate, and for fear his father would lose his life trying to save him, he cried, "Father go to the shore." They got him out of the water immediately, but too late to resuscitate him. OTHER PROVINCES

Mr. McNicoll, the general manager of the Canadian Pacific, estimates that the Western crops will be 15 per cent. better than those of last year. The area under cultivation is increased, and the late rains have done much good. This is a hopeful report. With the grazing, the wheat-raising, the mining, and the fishing, 1900 should be a record year.

The tragedy at Welmine, near Moosomin, N. W. T., is more terrible than at first reported. Eight members of Alex. McArthur's family were brutally butchered. Mrs. McArthur and two boys were killed outright; Mr. McArthur and Russell McArthur have since died, and three other members of the family lie at the point of death. The eldest daughter, aged 15, escaped. Morrison, the hired man, who committed the crime, will probably die from his self-inflicted wound. He says he is not crazy and never had been, but gives no reason for committing the terrible deed.

Avila Bourassa was found guilty at Montreal on Friday of the murder of his wife on April 1st, and sentenced to be hanged on August 24th. The jury accompanied their verdict with a recommendation to mercy. Bourassa

The sister-in-law investigated, and found the body lying on the bed, with candles burning and branches of palm trees surrounding it. Bourassa had been drinking, and the evidence showed that while under the influence of liquor he was half insane.

Fifty constables, armed with rifles and swords, left St. John's at midnight by the colonial cruiser Elena for Belle Island, where the strike situation is critical. The strikers are in complete control and have provisions for a month. Last night they drove off the steamer Glanton, which tried to secure a load of hematite, and they have completely terrorized the mining staff who endeavored to assist the Glanton. Only two constables remain in St. John's, and pickets from the British warship Carybdis are doing street duty. If necessary the Carybdis will proceed to Belle Island.

The amendment was rejected. The house went into supply on supplementary estimates. On the item of quarantine, Mr. Fisher explained that extra expense had been incurred by danger of bubonic plague and smallpox. On the Paris exposition, Mr. Fisher explained that Canada would pay \$115,000 for space and building. He admitted that it was not usual to pay for space. Answering further questions Mr. Fisher said Tarte was at the head of the organization. D. Sproul asked what was the total expenditure to date. Mr. Fisher said it was \$175,000. He said that when Tarte got to Paris he found the Canadian building unsatisfactory, and had spent several thousand more in decorations, and that the \$30,000 additional now asked was called for by Tarte. Canada has 26 officials at Paris.

Dr. Montague said the waste of money at this show was getting to be a scandal. We had already far exceeded the estimate and new demands came every day. He thought the government should have withdrawn from the fair when it was learned that space was charged for, and the whole affair was a money making game.

Mr. Fisher stated that Mr. Tarte is keeping a house in Paris at the expense of the country.

Mr. Fisher hoped the Paris exhibition would not cost more than three hundred thousand dollars.

TUESDAY.—The minister of militia presented certain papers respecting the emergency ration. Others giving the analysis of the two foods would be brought later.

The house adjourned at one o'clock, after passing a large part of the votes for the Indian affairs department.

WEDNESDAY.—Mr. Monk rose to make a statement and charges respecting the emergency rations bought for the troops.

The premier said Mr. Monk had failed to give him the customary notice.

Mr. Monk said he had yesterday told the house that his statement would be made to-day. The government had promised a committee.

The premier insisted that he ought to have notice.

Mr. Foster said he had privately told Sir Wilfrid Laurier that the motion would be made today. Sir Wilfrid had no objection, and they had talked over the personnel of the committee.

The premier still asked for notice.

Replying to the question the minister of agriculture stated that the department had purchased for the imperial government 1,450 tons of hay from Mr. McCain, M. P., of Carleton county, New Brunswick, paying him at Florenceville and other points on the railway nine dollars per ton, or \$13,050. From D. J. Purdy, M. MONDAY.—Sir Wilfrid Laurier read a statement rejecting the suggestions made by Sir Charles Tupper, respecting the scope of the election frauds commission. These suggestions asked for the payment of witnesses, and for their indemnification from punishment if their evidence criminated themselves; that one of the two lawyers engaged should be chosen by the conservatives; that electors should be allowed to testify how they voted; and that the evidence already taken by the committee might be used by the commission.

Sir Charles said he could not understand the refusal if the government did not intend to hamper the commission.

Sir Charles spoke of the rifle clubs now under organization in Canada. He asked that free ammunition be given them. He also proposed that the government should ask for an appropriation for the Indian famine fund.

No answer was made to these suggestions.

JOHNSON'S ANODYNE LINIMENT

An old lady called at a store and a bottle of Johnson's Anodyne Liniment the clerk said "they were out, but I'll give you another just as good as the one you want."
