

Quality

It is the high quality of Royal Baking Powder that has established its great and world-wide reputation.

Every housewife knows she can rely upon it; that it makes the bread and biscuit more delicious and wholesome—always the finest that can be baked.

It is economy and every way better to use the Royal, whose work is always certain, never experimental.

There are many imitation baking powders, made from alum. They may cost less per pound, but their use is at the cost of health.

Rev. Hy. Carter, Midcock, Springfield P. E. I. wrote the following under date June 1895.—It is impossible for my wife to find words to praise your K D C for what it has done for her. She suffered with water brash and awful distress, in fact, she was in misery all last winter, so much so, that she could not bear to have her clothes on, so I thought I would get her some K D C. Each dose seemed to tell, and long before she took two bottles she was cured, and can now eat anything.

This letter shows the great merit of K D C and the following shows that its effects are lasting. Mr. Carter writes us July 31st 1896, more than a year later. Some time ago I sent you a letter testifying to the value of your wonderful K D C to my wife. She is still enjoying good health, with no signs of her old trouble. Try it, sufferers K D C Pills are splendid for the liver and bowels.

HOW TO GET WINTER EGGS.

BEGIN THE PROPER TREATMENT OF MOULTING HENS NOW FOR LARGE PROFITS

Would you like to have three or four times the usual quantity of egg to sell when egg prices go away up? When eggs bring half a dollar a dozen the troubles of poultry keeping seem worth while—if you are not in the usual predicament of having no eggs just when you want them most.

If you really want to make the most of the mid-winter egg harvest the time to make ready is right now. In August and September when hens are moulting feed them once a day, in the morning mash, Sheridan's Condition Powder. It has a remarkable tonic effect. It is not a food, but makes all the food more nourishing, makes plumage quickly, aids digestion and stimulates the ovaries so that eggs are produced rapidly when their price is high.

Experts who have made the largest know profits on eggs endorse this as the result of all their experience. A hen produces, they say about 600 eggs. The profitable way to handle her is to get all of these eggs possible in two years, then kill the hen. Two or three years only and useless feeding of the hen are saved, and by the judicious use of Sheridan's Condition Powder the yield of eggs is greatest in the cold weather when they are worth most.

Those who neglect this advance will let their hens recover from moulting slowly and it will be late winter or early spring, when prices have fallen, before their egg yield picks up again. The record of Sheridan's Condition Powder, for over 30 years among skillful poultrymen shows its value better than words. It is not a food, but should be given in the food, and if used as directed cannot fail to give profitable satisfaction. To any person interested, I. S. Johnson & Co., Boston, Mass., the only makers of Sheridan's Condition Powder, will send for 50 cents, two 25 cent packages, five packages for one \$1.00; or for \$1.20 one large two pound can of Powder post paid; six cans for \$5.00, express prepaid. Simple copy of the best poultry magazine free. Our new book "Winter Eggs and How to Get them," 25 cents; or sent free with orders amounting to \$1.00 or more.

Baron Von Welz was so mastered by the missionary idea that, after pleading pathetically, but in vain, with the State church to give the Gospel to the heathen, he renounced his title and his estate, and gave himself, going at his own charges to Dutch Guinea, where he soon filled a lonely missionary grave. He vindicates his renunciation of his title thus: "What to me is the title 'well-born,' when I am born again in Christ? What to me is the title 'lord,' when I desire to be a servant of Christ? What to me to be called 'your grace,' when I have need of God's grace, help, and succor? All these vanities I will lay with, and everything besides I will lay at the feet of Jesus, my dearest Lord, that I may have no hindrance in serving him aright."

The weak man may be readily known by his always being vociferously strong and eloquent on questions to which there can be but one side.—Telegraph.
