The negroes of the United States are not all on one side politically, though, perhaps, the majority are Republicans because a Republican President (Lincoln) gave them emancipation. In the present Presidential campaign, Bishop Turner, of the African Methodist Church, takes the works for McKinley.

The Cordition of Those Af fiicted with Indigestion.

FLATULENCY, SICK HEADACHE, OFFEN-SIVE BREATH AND ERUCTATIONS, IR-RITABILITY, AND A FEELING OF WEIGHT ON THE STOMACH ARE AMONG THE SYMPTOMS.

Dyspepsia, or indigestion, as it is also frequently called, is one of the most serious ailments that afflicts mankind. When the stomach loses its craving for food, and the power to digest it, the person so afflicted is both mentally and physically in a condition of wretchedness. The symptoms of the disorder are manifold, and among them may be noted, a feeling of weight in the region of the stomach, sick headache, offensive breath, heartburn, a disagreeable taste in the mouth, irritability of temper, disturbed sleep, etc. The condition is in fact one of slow starvation of the blood, nerves treatment through the use of Dr. Williams' Pink Pills should be sought. suffered for years, and relates his exferers. Mr. Birt says: - "For many Point, New Brunswick. years I was a victim of indigestion, accompanied by nervousness, palpita tion of the heart and other distressing lar, and what I ate felt like a weight on the way. in my stomach; this was accompanied by a feeling of stupor or sleepiness, and yet I rarely enjoyed a night's sound sleep. When I would retire a creeping sensation would come over me, with pains and flattering around the heart, and then when I arose in the morning, I would feel as tired St. John. Building and stock insured. and fatigued as I did before I went to bed It is needless to say that I was continually taking medicine, and tried, I think, almost everything recommended as a cure for the trouble. Ocasionally I got temporary relief, but the trouble always came back, usually in a still more aggravated form. All this, of course, cost a great deal of money, and as the expenditure seemed useles: I was very much discouraged. One day one of my neighbors, who had used Dr. Williams' Pink Pills Peterboro, Ont. with much benefit, advised me to try them, and I decided to do so, thinking nevertheless, that it would be but an. other hopeless experiment. To my great gratification, however, I had only been using the pills a few weeks, when I felt decidedly better, and things began to look brighter. I continued taking the pills for several months, with the result that my health was as good and my digestion better than it had ever been. One of the most flattering results of the treatment was my increase in weight from 125 | the breaking of a valve. pounds to 155 pounds. It is more than a year now since I 'discontinued the use of the pills and in that time I have not had the slightest return of with the same gratifying results."

Comparisons -The Christian O server makes the following interesting comparisons:

The English army in South Africa numbers upwards of 200 000 men; the number of railway employes in the United Sa'es is 227,547 The total of kill d and wounded in the English army in Africa from October 1899 to July 1900 is estimated at 15 000; the number of railro.d employes killed or wounded in the United States during the year ending June 30, 1899, was 37,133 (killed 2,210; wounded, 34 923). The ratio of death or injury in the railroad service is more than twice as great as in the army in active warfare. A comparison with the United States army in the Philippines gives similar results. We have had 63,000 soldiers there, and the casualties have been 1,640. The railroad employes are four and a half times as numerous, the casualties in railroad service are twenty-three times as many. This is the price which we are paying for being always in a hurry.
