NEW BRUNSWICK

Mr. B. F. Pearson, who has been frequently spoken of as one of the promoters of the company to establish a steel shipbuilding plant at St. John and Halifax, talking with a Sun reporter, said: "I know of no company of the kind being formed. Possibly something may be done in the future, but at present the affair is decidedly in embryo and really nothing has been done of a conclusive nature."

In the person of Mr. James Ross, of St. Martins, New Brunswick has an old man, who has lived in three centuries. Mr. Ross is now well on to 111 years old having been born at Port Mahalack, Farbesch, Ross-shire Scotland, on June 18, 1790. He was a blue-jacket in the English navy when the battle of Waterloo was fought and has resided for more than eighty years in this province. Mr. Ross is in good health and retains his faculties.

The house of Ralph Steeves at Elgin Alberta county was burned to the ground on December 17th. Mr. Steeves' friends have since presented him with bedding, clothing, grain and flour; also cash to the value of about \$30.

The Merchant's Bank of Halifax has become the Royal Bank of Canada, an act of incorporation under that name having been obtained from the Dominion parliament last session. The change went into effect Wednesday. The head office has been moved from Halifax to Montreal.

Mrs. John Trites, of Coverdale, whose son was drowned at Matangas, Cuba, in the Spanish-American war has been allowed a pension of \$12 per month.

The train on Salisbury-Harvey Railroad broke down there Saturday near Daniel's Station. The tender was derailed and damaged considerably.

The survey of the proposed Shediac and Cape Tormentine railway has reached a distance of about twenty miles.

The annual meeting of the Farmers' and Dirymen's Association of New Brunswick will be held at Fredericton on Wednesday, Thursday and Friday the 23rd, 24 and 25th of January. Hon. Sydney Fisher, Dominion Minister of Agriculture; Prof. Jas. W. Robertson, Commissioner of Agriculture and Dairying, and F. W. Five more cases of smallpox are reported in Northumberland two at D. B. two at Newcastle and one at a point below Rose Bank. Proper precautions are being taken to prevent the spread of the disease, but a fear now exists that it will break out in other parts of Northumberland.

There appears to be an impression in some quarters that some cases of smallpox exists at Shediac. This is an erroneous impression. There is no smallpox within fourteen miles of Shediac, and the place is as much insulated from the infected districts as any other place. About eight miles down the Cape Bauld road a barrier has been placed across the road and men are kept on guard night and day to prevent communication with the eastern end of the county.

Michael Collins, who was sentenced the other day to two years in the penitentiary for assaulting Police Sergeant Hipwell, was taken to that institution Saturday.

MERIT AND WORTH

Are Ever Recognized by an Intelligent Public.

Deceptions and Frauds Find the Fate They Deserve.

Paine's Celery Compound

Still on the Highest Round of the Ladder of Fame.

Genuine merit and worth must be the strong and leading characteristics of a medicine in order to make it a chosen home friend.

Speculators and imitators may, for a brief time, create a demand for their deceptive pills and liquid preparations by freely using newspaper space, but unerring human experience soon pronounces the judgment—"tried and found wanting." The year just closed has marked the death of many worthless and deceptive medicines which, for a time, robbed the sick afflicted ones of money and aggravated their burden of misery.

Paine's Celery Compound, has, in the past year added thousands of victories to its established record as a disease-banisher and health-giver.

Many of the cures effected by Paine's Celery Compound have been so marvellous and striking that able and prominent physicians have, without hesitation, openly praised and recommended the life saver.

No other medicine in the world has ever been accorded such glowing praise by medical men, people of affluence and the toilers of our country. Paine's Celery Compound has never yet disappointed sick and suffering men and women. In every case where fairly used, it has accomplished its work of banishing sickness and giving a new lease of life.

If disease is wasting your system, if you are weak or nerve tired, unfitted, for business or the daily work of life, be assured Paine's Celery Compound will bestow nerve energy, strength and health—the blessings you are now longing for. Test the virtues of one bottle and be convinced.

NOVA SCOTIA.

The audit and accounting department of the Plant Steamship Line, which has heretofore been at Savannah was last week removed to Halifax.

A young man, Warden Bremner, of Halifax, was in the woods on St. Margarets' Bay road a few days ago shooting, and in putting his gun down a twig caught the trigger and the gun went off, the contents entering the boy's side and arm. His recovery is doubtful.

The capital stock of the Dominion Iron and Steel Company has been increased by five million dollars, making the total twenty million dollars.

The iron ore at Bell Island has been proved to be practically inexhaustible, the coke produced from Cape Breton coal has proved superior to any in the market while the lime secured from Manola Mountain has been all that is desired.

Steel plates will be manufactured within a year, while the first iron furnace will be in full blast by the middle of January.

Within a radius of seven miles in Gays' River, Halifax Co., nine stream mills are in full operation cutting logs into merchantable lumber. The army of workers this year is unusually large.

The Northrup Block Halifax, N. S. was damaged by fire at an early hour Tuesday morning.

SEA-SICKNESS, NAUSEA,

and maladies of this type yield quickly to the almost magical power of Norviline, and if you suffer periodically from any of these troubles, just keep Norviline at hand. A few drops in sweetened water will give almost instant relief and in the course of half an hour the cure is completed. Your money back if you do not find it so.

OTHER PROVINCES.

The Toronto Street Railway Company's earnings for 1900 were \$1,484,679, an increase of \$173,770 over the previous year.

The C. P. R. land department closed Monday night the most prosperous year in the history of the company. The increase over the preceding year was about \$50,000. For the past five years a steady increase in sales has been going on, about four times as many acres being sold last year as in 1892.

A miner named A. Morrison, aged forty years, and a native of Nova Scotia, was blown to pieces on Tuesday in the power thawing house of the Sunset mine, at White Walter, B. C., by a premature explosion of dynamite.

Customs collections in Montreal during 1900 amounted to \$8,954,592.92 as against \$8,988,698 for the previous year.

The militia department has received from Lieut. Col. Benson, acting D. O. C. in British Columbia the following:

Vancouver, B. C. Jan. 4, 1901. Major Bennett, of the 6th R. R. is appointed for a commission in Bateau Powell's police; is willing to raise 100 men. I strongly recommend him. (Sgd.) LIEUT. COL. BENSON.

It is understood that the militia department is now on communication with the war office in regard to this matter.

UNITED STATES.

Mrs. Margaret Burke, aged forty-five, was burned to death at Boston on Monday night through her clothing taking fire while standing in front of the kitchen stove.

The governor and council of Maine last week granted pardons to David L. Stain and Oliver Crowwell, who were convicted in 1888 for the murder of J. Wilson Baron, cashier of the savings bank of Dexter, and were serving life sentences.

Two freight trains on the Yazoo and Mississippi Valley railroad collided Tuesday night and seven men of the eight in the crews were killed.

While Mrs. Herbert Shaw and Mrs. Jonas Miller, sisters, were returning to Hudson, N. Y., from a visit to Athens on Wednesday across the ice in a sleigh, the ice broke and both ladies were drowned.

Fire was discovered Sunday afternoon about 4 o'clock in the two story frame building owned by D. W. Hobart at Skowhegan, and occupied on the street floor by A. H. Lang's meat market and on the second floor by H. C. Bassett, photographer, and before it was subdued it had caused a damage, largely by smoke and water, of \$1,600. The insurance is \$2,600. The fire originated from a defective flue.

CATARRH NOW SURELY CURED.

"Catarrhczone has worked marvels in the case of my little girl." Mrs. Lore 23 Orchard, Toronto Ont.

"There is no remedy equal to Catarrhczone for Catarrh." Wm. J. Runnit, Morrisburg, Ont.

"Catarrhczone for Catarrh of the head, throat and Bronchitis—has given me perfect satisfaction." Miss Dinsmore, Shubenacadie, N.S.

"It has done more good for me in one week than other remedies have in years." E. P. Taylor, Smith's Falls, Ont. Thousands more like this are asking: Druggists sell Catarrhczone, or we will send full treatment for \$1.00 or trial treatment 10 cents. N. C. Polson & Co., Kingston, Ont., Hartford, Conn.

BRITISH AND FOREIGN.

Recent heavy snow storms, deluging rains and furious gales have created havoc in many parts of England. Disastrous floods, land slips and washouts and much stock has been drowned. The railroads and highways were blocked, buildings and bridges have been carried off and the overflowing stream have inundated miles of country. At Coventry the devastation was greater than at any time during the last thirty years. A number of factories have been flooded and hundreds of the inhabitants were imprisoned in their homes.

According to mail advices terrific heat waves have swept across the inland districts of New South Wales, starting bush fires of vast extent. Sheep, cattle, farms and settlements, miles in extent, have been swept by the flames and many lives are reported lost. The fires are pronounced to be the worst experienced for thirty years. Disastrous cyclones and dust storms have followed the fires in many districts. The loss is very heavy.

At Pekin on Tuesday there was a review of the British troops in honor of Queen Victoria and Australian federation, to which all the nations were invited to send representatives. The French were conspicuous by their absence.

New Zealand stopped the penny postage on New Year's day, and letters from Canada to New Zealand will be two cents per half ounce.

There were four deaths Tuesday from the beer poisoning disease at Manchester, making a total of twenty-five deaths. Ten more brewers have been summoned charged with the use of arsenic in beer.

WARTS ARE UNSIGHTLY

That is the reason no one is complaining for a few more warts—make them fashionable and a remedy to grow warts would quickly be made a financial success. Yes, Putnam's Corn and Wart Extractor removes them, works quickly and without pain—my druggist will tell you more about this remedy.

WORLD WIDE.

A WEEKLY REPRINT OF ARTICLES FROM LEADING JOURNALS AND REVIEWS

REPECTING THE CURRENT THOUGHT OF BOTH HEMISPHERES.

As many of the ablest writers are now engaged in journalism, much writing of and highest quality in matter and style is fugitive, seen only by the readers of each particular newspaper, and by them often lost before it is read. Much of such writing is only of local and very transient import, but much is of more permanent and world wide interest. It is proposed to fill the pages of WORLD WIDE with articles and extracts of this latter class, with occasional selections from notable books and scenes with striking stories. An effort will be made to select the articles each week so that due proportion will be given to the various fields of human interest—the shifting scenes of the world's great drama, to letters and science and beautiful things.

It was at first intended to publish WORLD WIDE upon fine paper at a higher cost, but recalling the long list of elegant publications which in the past have been started in Canada, only to fail, and reflecting that good taste in literature does not always imply the means to pay for costly journals and that people of taste can be relied upon to appreciate literary excellence on the plainest sheet, it has been decided to offer WORLD WIDE at the lowest possible price, in order to give all who desire good reading an equal opportunity.

Published weekly sixteen pages. Two cents. In Canada or U.S. 75c per annum, postpaid to any address in Canada or U.S.

25c additional for delivery in Montreal or to foreign countries.

ENGLAND IN CHINA.

THE LARGE HOLD THAT THE BRITISH HAVE GAINED AT IMPORTANT POINTS IN THE CELESTIAL EMPIRE.

Great Britain is farther in China already than any other power. The facts are sensational when taken together. The British have most of the trade in strong ports where they have put up handsome buildings, and they have most of the concessions. It is the expectation that British capital will play the largest part in the modernization of China. Frank G. Carpenter, who has been in that part of the world for some time contributes to last week's issue of The Saturday Evening Post an article giving the most recent facts of the situation. He says:

"The English are doing the most of the foreign banking for China. They get the percentage on the greater part of the quarter of a billion dollars used in its foreign trade. They have made the Chinese government loans up to the last four or five years; the first two loans at the close of the Chinese-Japanese war, each amounting to \$80,000,000, having been placed with the English and Germans. There is one English bank in China which has deposits of \$80,000,000. It pays six per cent. on deposits, and notwithstanding this, declares big dividends. In a recent transaction it made a clear profit of \$2,000,000, and its stock is now two hundred per cent. above par."

"There are, in round numbers, about 13,421 foreigners in China. I do not include the soldiers called in by the present war. Of these foreigners more than 5000 are English 2000 Americans, 1000 Germans, 900 French, 160 Danes, 400 Spanish, 150 Italians, 1000 Portugues and 1700 Japanese. More than two-thirds of the Americans are missionaries.

A look at what the English are doing at the different ports will show whether they are profitable or unprofitable servants. They surely have not wrapped their talent in a napkin and buried it in the sand. They have made the open ports modern European cities. They are everywhere the leaders in society, education and business.

—The Indian Witness is authority for the statement that in India there is coming to be more frequent communication between converts and the idolaters, and therefore there are fewer secret Christians. Fathers and even mothers are beginning, in Bengal at least, to say to their sons who insist on being baptized, "If you must be a Christian, go and be a genuine one, and live the pure life that Christ enjoins."

Mother and Doctor Too

Until the doctor comes, and for minor ills and accidents, the mother must doctor her family. Tens of thousands of mothers have relied upon JOHNSON'S ANODYNE LINIMENT, and have found it always reliable. It is used both externally and internally and it is the remedy for inflammation from any cause. Used continually for 90 years as a household remedy, its sustained popularity and increasing use every year are the best possible testimonials to its curative powers.

Johnson's ANODYNE LINIMENT

is of greatest value in treating colic, cramps, diarrhoea, cholera morbus, bites, bruises, burns, stings, chafing, colds, coughs, croup, catarrh, bronchitis, la grippe, lameness, muscle soreness and pain and inflammation in any part of the body. Sold in two size bottles, 5c. and 10c. The larger size is more economical. If your dealer hasn't it send us. Ask first.

A WOMAN WITHOUT HEAD-ACHES.

There are, probably, few other women in this country as busy as Mrs. S. T. Rorer, the famous cook, or few who earn as much money. Besides her editorial work for The Ladies' Home Journal, which involves answering several thousand letters each year, she conducts a big cooking school in Philadelphia, and lectures almost constantly during the season, traveling through all sections of the country. Mrs. Rorer has never had a headache, she is never ill, and, in her appearance, is certainly the best example one could have of her theories as to the right way to live.

SIBERIA—Siberia takes on a new aspect in the popular mind as its resources are made known. The great Trans-Siberian Railway is only a little to the northward of the Canadian Pacific, and the country resembles that through which the latter passes. There is no strip of virgin soil 350 miles wide and over 2,000 miles long, with a climate favorable to fertility and maturing of crops. In seven years 19,000,000 acres of public land on this route are changed into farms and of these nearly two-thirds are cultivated. Lumber is being put in. A little less than 62,000 men in 1893; in 1899 234,000; and now we are told that an English company has obtained a concession of 370,000 acres in the Amur territory, and has been organizing \$5,000,000 capital, to develop the gold fields there. In silver, platinum, iron, lead, coal, naphtha and precious stones its resources are impossible to estimate. Siberia exports more than \$25,000,000 in gold.

SUNDRIES—There are 7,400,000 men in Prussia earning less than \$21 per year. . . . The Queen of Portugal took up the study of medicines as a hobby. She has succeeded so well that she has won her diploma, and is now the chief physician of her family. . . . Russian railways are the most dangerous in the world. Thirty persons in every million passengers are either killed or hurt.

This picture is the trade mark of SCOTT'S EMULSION, and is on every bottle of SCOTT'S EMULSION in the World, which now amounts to many millions yearly. This great business has grown to such vast proportions,

First—Because the proprietors have always been most careful in selecting the various ingredients used in its composition, namely; the finest Cod Liver Oil, and the purest Hypophosphites.

Second—Because they have so skillfully combined the various ingredients that the best possible results are obtained by its use.

Third—Because it has made so many sickly, delicate children strong and healthy, given health and rosy cheeks to so many pale, anaemic girls, and healed the lungs and restored to full health, so many thousands in the first stages of Consumption.

If you have not tried it, send for free sample, its agreeable taste will surprise you. SCOTT & BOWNE, Chemists, Toronto.

A Terrible Cough

If people would only treat coughs and colds in time with Dr. Wood's Pine Syrup, there would be fewer deaths.

The severest coughs and colds, bronchitis and croup, and the first stages of consumption yield readily to this powerful, healing remedy. Read what Mrs. Thos. Carter, Northampton, Ont., says: "I caught a severe cold, with sore throat and lungs, so that I could scarcely speak above a whisper. I also had a terrible cough which my friends thought would send me to my grave. I tried different remedies but all failed. I mean my good until I took Dr. Wood's Pine Syrup and the contents of the bottle completely cured me."
