"heart failure." "His heart was weak. It was fate for him to meet this end." But if we went behind the "weak" heart we should find a "weak" stomach, probably, and back of the weak stomach is careless eating at irregular hours.

When the stomach is diseased the organs depending on the stomach for nutrition are starved. Starvation means weakness of the body and its organs.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. When these organs are cured, diseases of heart, liver, lungs and kidneys, caused by the diseased stomach, are cured also.
