

A CHILD'S SUFFERING

Her Mother Feared she Would Not Regain Her Health.

SHE WAS FIRST ATTACKED WITH RHEUMATISM AND THEN WITH ST. VITUS DANCE—SHE WAS UNABLE TO HELP HERSELF AND HAD TO BE CARED FOR ALMOST LIKE AN INFANT.

From the Sun, Orangeville, Ont.

Among the much respected residents of Orangeville is Mrs. Marshall, who lives in a pretty little cottage on First street. For some years her twelve-year-old daughter, Mamie, has been a sufferer from rheumatism combined with that other terrible affliction—St. Vitus' dance. In conversation recently with a reporter of the Sun Mrs. Marshall told the following story of her daughter's suffering and subsequent restoration to health:— "At the age of eight years," says Mrs. Marshall, "Mamie was attacked with rheumatism from which she suffered very much, and although she was treated by a clever doctor her health did not improve. To make her condition worse she was attacked with St. Vitus' dance, and I really gave up hope of ever seeing her enjoy good health again. Her arms and limbs would twitch and jerk spasmodically, and she could scarcely hold a dish in her hand, and had to be looked after almost like an infant. While Mamie was in this condition a neighbor who had used Dr. Williams' Pink Pills with beneficial results in her own family advised me to try them in Mamie's case. I had myself often heard these pills highly spoken of, but it had not occurred to me before that they might cure my little girl, but now I decided to give them to her. Before she had completed the second box I could see a marked change for the better, and by the time she had taken five boxes all traces of both rheumatism and St. Vitus' dance had vanished, and she is now as bright, active and healthy as any child of her age. Some time has elapsed since she discontinued the use of the pills, but not the slightest trace of the trouble has since made itself manifest. I think therefore, that I am safe in saying that I believe Dr. Williams' Pink Pills not only restored my child to health, but have worked a permanent cure."

Rheumatism, St. Vitus' dance and all kindred diseases of the blood and nerves, speedily yield to Dr. Williams' Pink Pills and the cure thus effected are permanent, because this medicine makes rich, red blood, strengthens the nerves and thus reaches the root of the trouble. These pills are sold by all dealers in medicine or will be sent post paid at 50 cents a box or six boxes for \$2.50 by addressing the Dr. Williams Medicine Co., Brockville, Ont.

Charles Grass, employed at the Lincoln boom, met with a painful accident Saturday. An axe which he was using rebounded and the blade cut a deep gash over his left eye.

John Taylor, about 15 years of age, son of Miles Taylor of Moncton was drowned Sunday morning while bathing with a number of companions in Robinson's Creek. Young Taylor was unable to swim and was carried beyond his depth by the incoming tide. Two of his chums could swim a little and one, Jake Wortman, made an unsuccessful effort to save him. Wortman swam to the drowning boy, but was not sufficiently expert to get Taylor out of deep water. Assistance was obtained as soon as possible but the unfortunate boy had been in the water 20 minutes before any one arrived. Taylor was employed as a water boy in the I. C. R. yard.

ADVICE TO WOMEN.

If your little boy or girl comes home with a sore throat, the first thing to do is to rub the throat and chest with Polson's Nervilleine. Don't be afraid to use Nervilleine freely—a whole bottle full wouldn't burn or blister the tenderest skin. Rub it until all taken up by the pores, and just before the child goes to sleep give him a glass of hot water into which 30 drops of Nervilleine has previously been stirred. This is a sure, pleasant and speedy cure. Large bottles 25 cents.

NOVA SCOTIA

At Lockport, on Sunday of last week, Sydney Locks, while temporarily insane shot his three children, Ruby, aged 14; Howard, aged 11; and Ermine, aged 8. A coroner's jury brought in a verdict that the poor man was insane. He has been in a melancholy condition for some time.

At Halifax Wednesday, Gunner B. Smith, of the Royal Artillery, committed suicide by putting the muzzle of a rifle in his mouth and blowing off the top of his head.

Edw. Harris, Collector of Customs at Caning, N. S., has been superannuated, and John Bigelow appointed to succeed him.

The work of putting in sewerage at North Sydney will be commenced in a few days. Employment will be given to about three hundred men.

IT WAS MADE TO CURE

To cure what? Catarrh, Asthma, Hay Fever and Bronchitis. Its name is Catarrhazine. If you breathe it, it cures you. There's lots of satisfaction in using Catarrhazine and after you've used it a little while you'll wonder how you ever lived without it. Two sizes, 25c. and \$1.00, at all druggists, or Polson & Co., Kingston, Ont.

OTHER PROVINCES

The Manitoba government announces that the province this season will need 12,000 men from outside to gather in the bountiful harvest. The largest number ever required before was 10,000 in 1899.

Forest fires have swept over eight townships in Northern Ontario. Sixty settlers' families were burned out, losing everything except the clothing they wore. The destruction of farm buildings and crops was complete. The burned out settlers are homeless and destitute.

At Portage La Prairie, Thursday two little girls aged thirteen and fifteen, daughters of Mrs. Thomas Davidson, were drowned at a picnic.

In the township of Osnabrock, Ont. cattle have died suddenly. The first symptom observed is usually a shrinkage of milk to about half, in some cases the animal seems to be in acute pain, and dies within twenty-four hours. In every case there is trembling of the flank and high fever. There is a discharge of dark colored blood from the mouth and nostrils and the rectum, and the body begins to bloat in a few minutes after death. An officer of the Department of agriculture has investigated and that says the disease is splenic fever, brought on

possibly by the extreme heat of the past week, and the quantity of succulent food the cows had eaten.

FOR OVER FIFTY YEARS.

Fred D. White, son of Andrew D. White, United States ambassador to Germany, committed suicide a few days ago at his home Syracuse, N. Y. Prolonged ill-health and a persistent and exhausting nervous disease is the explanation of his act.

Kansas is suffering from drought. Reports indicate that in no part of the state is the damage to the crops less than 40 per cent. It is generally conceded that is the worst drought since 1869 in the state but it will not entail nearly so much suffering as in past years.

LIMPING, LIMPING

From corns? No necessity for that. Putnam's Painless Corn Extractor removes all corns, large or small, in about twenty-four hours. This is reliable information, your druggists will substantiate it if you ask him. Be sure and get Putnam's, it causes no pain.

BRITISH AND FOREIGN

According to Shanghai advices more than 4,000 persons have been drowned by recent floods in the province of Kiang Si.

The London crop review, says it is doubtful if the recent rains will effect greater "transformation scenes" in the wheat crop of England. It thinks the yield may reach an average of 28 1-4 bushels per acre. French farmers consider the government estimate as being ten per acre, too high. Spain is reaping a magnificent harvest. The Italian harvest promises to reach the full average. The spring wheat in Russia is less promising. In several provinces the winter crop, however, is splendid, according to the moderate standard prevailing. Their rye will make an excellent harvest. The other autumn-sown crops are all above the average, but the spring barley and oats are below par.

The Turkish government has at last paid \$95,000 for damages to American missions in the great massacres of 18-95.

Dowager Empress Frederick is again worse in health.

Two Moscow banks have failed.

The present French ministry has lasted 25 months.

At Sydney, N. S. W., Wednesday department stores consisting of eight story buildings, fronting on three streets, were destroyed by fire. The damage was over £500,000.

Last week great heat extended through Europe. Heat prostrations were reported from many points. They were very numerous in Paris. Violent hailstorms have ruined the crops in the province of Salamanca Spain.

TWO WARNINGS.

Losing flesh is one and a hacking cough is another. If they come together the warning is a loud and hard one. Scott's Emulsion does some of its best work in just these cases. It prevents consumption.

BETTER STOP IT.

Says the Presbyterian Witness: Our United States friends make frequent references to the war of 1812. We wish they would not: for it was a war that cannot well be justified. It was an attack on poor old England which had to fight Napoleon and all Europe for twenty years. The Americans had no grievance that needed to be justified by war; and they pounced down upon Canada and burnt the Government buildings at Toronto and destroyed frontier villages, and did all they could to overwhelm the whole of British America. They destroyed many British men of war, poor old-fashioned vessels. But the British did a good deal of destroying also. To pay up for Toronto they visited Washington and destroyed Government buildings there. The gallant Chesapeake was captured by the Shannon and brought a captive to Halifax. Many American traders were captured. Many defeats were inflicted on the American forces. No good was done on either side.

The Maritime Homestead.

W. W. Hubbard, who has edited the Co-operative Farmer (lately changed to the Maritime Farmer), of Sussex, N. B., since its inception in 1895 will shortly sever his connection with the paper, and will establish a paper devoted to the farm and home field of the Maritime Provinces. This new journalistic enterprise will be called "The Maritime Homestead" and will have offices in both Halifax and St. John. With the editorial department of this paper will be associated some of the leading agricultural workers of eastern Canada. As its name implies, "The Maritime Homestead" will make a specialty of dealing with those matters connected with our maritime agricultural development, including all departments of animal husbandry, agricultural art, horticulture, nature study, domestic economy, entertaining reading and a special compilation of general and local markets and crop prospects.

DRESS MATERIALS.—A valuable feature of the August Delineator is that which illustrates by photographic process the latest dress materials, accompanying the illustrations with a running comment, so as to guide those who wish to have the fullest knowledge of materials before going shopping. This is one of the features of a practical character that makes the Delineator esteemed by women. The same number also goes very fully into the subject of trimmings and other dainty accessories of dress.

THE MORMANS.—The Presbyterian Witness hears that the Mormans are making headway in some parts of Canada. It is less wonderful and less humiliating to learn that they are making progress among the people of the Sandwich Islands (Hawaiians) of whom they have captured over 8000. They cunningly adapt themselves to the weakness and the traditional foibles and superstitions of the poor Hawaiians. They claim the power to perform miracles, especially of healing.

The even quality of Red Rose Tea commends it to purchasers. You can depend on Red Rose.

POLITICAL NEWS.—The Kings Co. election trial has been postponed till Oct. 22nd.

There is talk of an early election in Manitoba.

The Liberals of York Co. held a Convention Tuesday of this week. We go to press before the result is announced, but probably Mr. Gibson was nominated.

Hon. Geo. E. Foster is being urged to accept a nomination for the representation of Addington, Ont., now vacant by the death of Mr. Bell.

INVENTIONS.—The United States grant 25,000 patents per annum, or nearly as many as all the rest of the world. England grants 8,000 per annum, and France and Germany each about 7,000 and such countries as Canada, Australia, Austria, Italy and Russia grant about 4,000.

Efforts are always successes. It is a greater thing to try without succeeding than to succeed without trying.

SONS OF TEMPERANCE.—The National Division of the Sons of Temperance of North America held its annual session in Charlottetown, P. E. I. last week. The membership of the Order is about 75,000. At one time there were about half a million members. The falling off is due chiefly to the springing up of new temperance organizations.

SUNDRIES.—A new name for voting machines has been invented. They are now called votometers. In London the underground railway is familiarly called "tuppenny tube." British India now has one hundred and forty colleges and seventeen thousand students.
