

sensible man's kindness and gentleness which exerted such a power over those spoiled horses as to soon win to him their confidence, obedience and ready service.

The course which this man pursued was in wide contrast with that which many men pursue towards those whom they regard as occupying a wrong attitude on certain questions and practices. Some prominent Prohibitionists, instead of kindly appealing to temperance men who do not agree with them as to methods, and seeking to persuade them to take a different view, will rabidly accuse them of being in league with the liquor traffic, and, of course, of aiding intemperance.

But abuse of an opponent or of a disagreeing one will not win him from his position. Many reformers are in need of being reformed in temper and conduct.

BITS OF LETTERS.

Asking for change of address from name of the father, deceased, to that of the son, a Nova Scotia pastor writes: "The family of this brother cannot do without the INTELLIGENCER. One generation passes away and another comes, and yet the grain of mustard seed planted by your sainted father is growing and branching."

The INTELLIGENCER has on its lists considerable number of families such as this. We hope the good custom of continuing the paper by the children as they set up new homes may continue and extend.

A Canadian preacher at present resident in the United States, in a recent letter, expresses his feelings thus: "I must live where my spirit can be free and express itself freely. My knowledge of this country has only led me to more revere the laws of my own country. The institutions which our Empire keeps intact, I do not think would now be made operative here. Liberty here is license. Freedom (so-called) has honey-combed society, and smothered the foundation from under the church. The country is more French than English, more continental than Anglo-Saxon. I cannot understand men like Dr. — and other Canadians living here, can call this our country." A big salary, though, works marvellous changes sometimes.

As we have said in other cases, Come home, brother, come home.

Rev. David Patterson, Kemptonville, N. S., writes: "We all miss bro. Currie. One year near to me has been called home. Just a few weeks ago I stood with him at the pulpit; now he is home, and I am left to labour on. His work at Bradford, was, indeed, in the Master's name and of the Master's spirit. Piety, humility and thankfulness pervaded the people of his charge here. Speaking to them the last evening I was with bro. Currie, reference was made to the fact that pastor and people were on holy ground—where angels had helped and blessed them. Little did any of us think then that our dear brother was so near the river where angels feet have trod." The great Shepherd lead, guard and provide for Mrs. Currie and the three little girls.

On Saturday last, the Rev. B. H. Nobles, who has been a brother, and dear friend to me ever since I came upon this field, (God bless him for his faithfulness to his Master's service and his love to younger brothers), kindly came and baptized seven converts in the stream at the foot of Snider Mt., and gave them the hand of fellowship to the church. Trusting in God who has been blessing me thus far in leading souls into his kingdom, I am praying that I may be ever kept humble at His feet. My desire is that while there is so much to do, and so few to do it, His Holy Spirit may kindle our hearts to greater activity in the future. H. H. FERGUSON.

Rev. C. T. Phillips spent Thursday and Friday of last week with Licen. R. Ferguson at Graves Settlement, W. Co., and Portage, K. Co.; at Graves Settlement he baptized nine converts, and at Portage he baptized five—the fruit of the revival meetings held by bro. Ferguson.

A NERVOUS WRECK

Was The Condition Of Miss Gillis For Eight Years.

THE BEST DOCTORS' AND HOSPITAL TREATMENT FAILED TO HELP HER, AND SHE HAD ALMOST LOST HOPE OF EVER BEING WELL AGAIN—HER EARNEST ADVICE TO OTHER SUFFERERS.

One of the most common, at the same time one of the most to be dreaded, ailments which afflicts the people of this country is nervous debility. The causes leading to the trouble are various, overwork or worry being among the most prominent. But whatever the cause, the affliction is one that makes life a burden. Such a sufferer for years was Miss Margaret Gillis, of Whim Road Cross, P. E. I. Her life was one of almost incessant misery, and she had come to look upon her condition as incurable, when Dr. Williams' Pink Pills were brought to her notice, and to this life-giving, nerve restoring medicine, she now owes her health and happiness. Miss Gillis tells of her illness and cure as follows: "For the past eight years my life has been one of constant misery. My nervous system was shattered, and I was reduced to a mere physical wreck. My troubles began in one of the ailments that so frequently afflict my sex. I was irritable and discouraged all the time, and life did not seem worth living. For seven years I was under treatment by doctors. I even went to Boston and entered a hospital where I remained for some time. While there the treatment temporarily benefited me, but soon my condition was worse than ever. Finally my nervous trouble took the form of spasms which caused more suffering than words can tell. When thus attacked I felt as though I was literally being torn apart. I would frequently become unconscious and sometimes would remain in that condition for half an hour. I have sometimes had as many as six of these spasms in a week, and no one who has not similarly suffered can imagine the tired, worn-out, depressed feeling which followed. Doctors seemed utterly unable to do anything for me and those years of misery can never be forgotten. Then I began taking Dr. Williams' Pink Pills, and in a short while found them helping me. Then another doctor told me he could cure me. I stopped taking the pills and like the dog in the fable, while grasping at the shadow I lost the substance. I was sown in as wretched condition as ever. The pills were the only thing that had ever helped me and I determined to begin them again. I continued to take them for nearly nine months, the troubles

gradually but surely leaving me, until I am now in almost perfect health and fully released from what I at one time thought would prove a life of constant misery. I cannot praise Dr. Williams' Pink Pills to highly, nor can I too strongly urge those who are ailing to test their wonderful health restoring virtues.

In thousands and thousands of cases it has been proved that Dr. Williams' Pink Pills are the greatest blood builder and nerve restorer medical science has yet discovered. The pills act speedily and directly upon the blood and the nerves and thus reach the root of the trouble, effecting thorough and permanent cures. Other medicines merely act upon the symptoms and when the patient ceases using them they soon relapse into a condition as bad as before. There is no trouble due to poor blood or weak nerves which these pills will not cure. Those who are sick or ailing are urged to give this medicine a fair trial, and are cautioned against the numerous imitations which some dealers offer. The genuine pills always bear the full name, "Dr. Williams' Pink Pills for Pale People" on the wrapper around every box.
