Comparative Strength of Men and Women.

I think the first study ever made on the comparative strength of the sexes was by Dr. Janes, who has written so well for this journal up to the present time. This study was published in the Herald of Health some twenty-five years ago. Since then numerous others have been made. The following is one of the most recent: Testing certain feats of strength

etween the members of a young woman's and von g man's colleges at New York has resulted In the following comparison: The athletic And fear. Reverential awe in feats of the college woman equal those of boys of fourteen or fifteen, and are far below those of college mer, or even of Eye Glasses to select from. high-school boys. The young women run fifty per cent more slowly than men; they jump sixtytwo per cent. as far-the average of three events in each care-and hrow a baseball only torty five per cent. as far. But mu t be r membered that these figures are from a single woman's college, as against the men s records for all colleges. The latter are the supreme achievements of years of selection and training, and of inseparated from the rest of the herited traditions of form. Where people, not by local and physical women have been trained for acrobats as carefully as men, much less all wance need be made for sex. common They were members of Professional women gymnasts are little less efficient than men in skill mon just as members of a family and agility, and sometimes even in do. Everything was for the good trength. The s ftness of their of all. And sold their possessions muscles is favorable to rapid and (real estate) and goods (personal dexterous motion. Some trainers property) in order to be able to imhave even held thaat there is pracpart them to all men, as every man ticably no difference in possible muscular ability of men and women everything they bad. But everyof the same size, but that women are subjectively less athletic; that were alike. There was need of they are not so much the weaker as this, for there were many stangers the gentler sex. They make good away from home, and they needed scores at tennis and golf, and their to remain awhile where they could long distance achievements on the earn nothing, in order to be trained bicycle have shown them possessed and educated and filled with the of marvelous endurance.—Dr. M. new spirit, so that they could be Holbrook, in the Phrenological prepared to witness to the gospel in their distant homes. Ripans Tabulan A good prescript

Ripans Tabules are a common sense, effectual cure for dyspepsia, biliousness, heartburn, headache, constipation, dizziness and all disorders of the stomach liver and bowels. They are intended for the use of men, women and children everywhere, and have proved beneficial in the majority of cases. It is not claimed that they will perform miracles, but some of the cures which they have effected amount almost to that. Easy to take and prompt in action, they have no rival as the best remedy for the every-day ills of humanity.

A MEDICINE WHICH PROLONGS LIFE. I have used Ripune Tabules for a number of years and would not be without the I was troubled with indignation and constipation, and have noticed since I have been using the fast I am getting rid of these terribis bilious spells which confined me to bed on account of distincts. Of late I have not had any. I had just got over a bad spell of bilious fever and; sitting on the step, when a neighbor came to me and semarked how bad I looked. I told his had just got over the fever and that I was afraid to eat anything on account of indignations which I had suffered since I was quite young. He advised me to take Ripana Tabu I said I would try them, and from them I haven't been without them. I can eat anything providing I finish with a Tabule instead of descent. I feel very thanking that I have to something that will prealeng my life."

GASTRIC TROUBLES.

I had suffered three years at least from gastric troubles. I could not sleep ut all the head ached and my feet would be cold as ice. My bowels were not regular and I would such eramps from gases forming on my stomach that I would faint away. I was is such that I would have sooner died than live. About three months ago I was suffering and self my body was tied up inwardly. My brother recommended Ripans Tabules to me. My head obtained some for me from the searest drug store and I would not now be without than relieved me of all the foul gases that formed in my stomach and they move my bowels regulated to which I had been taking physics all the time. I have no more gases, my bowels move regulated to make no more headaches and can sleep well; in fact, I feel as light as the air which I breathed that is saying a good deal for a woman who weighs soo pounds. I am sorry that I did not commend the Tabules a year age, for they would have saved me a great deal of pain and suffacts.

One gives

Ripans Tabule, now and them, will canent the wisest men.
And if dyspepsia is their woe, continued, R.I.P.A.N.S make it go.
