

EPILEPSY CUREABLE

A Disease That Has Long Defied Medical Skill.

MR. M. A. GAUTHIER, OF DUCKINGHAM, GIVES EXPERIENCE FOR THE BENEFIT OF OTHER SUFFERERS FROM THIS TERRIBLE MALADY.

From the Post, Buckingham, Que.

We venture to say that in our town of 3,000 inhabitants few business men are better known than Mr. M. A. Gauthier, the young and hustling butcher of Main street. He wasn't however, as energetic or as hustling a couple of years ago as he is today, and for a good reason—he wasn't well. Having gone into business ere reaching his majority his desire to succeed was such that no heed was paid to keeping the body in the state of health necessary to stand a strain, and in consequence of the extra demands upon the system it became run down to such an extent that epilepsy or falling sickness resulted, and these lapses into unconsciousness becoming alarmingly frequent he consulted physicians and took some remedies, but without beneficial results. Finally seeing Dr. Williams' Pink Pills advertised as a cure for falling sickness he decided to give them a trial. As to the result the Post cannot do better than give Mr. Gauthier's story in his own words: "Yes," said Mr. Gauthier, "for nearly four years I suffered from epilepsy or falling fits, which took me without warning and usually in most inconvenient places. I am just twenty-four years of age, and I think I started business too young and the fear of falling spurred me to greater efforts perhaps than was good for my constitution, and the consequence was that I became subject to those attacks which came without any warning whatsoever, leaving me terribly sick and weak after they had passed. I got to dread their recurrence very much. I consulted doctors and took their remedies to no purpose, the fits still troubled me. I saw Dr. Williams' Pink Pills advertised and determined to try them. I did so, and the medicine helped me so much that I got more and kept on taking them, until to-day I am as well, yes better than I ever was, and am not troubled at all by epilepsy or the fear of the fits seizing me again. Thinking there may be others similarly afflicted, I gave my story to the Post: it may perhaps lead them to give this great medicine a trial."

Dr. Williams' Pink Pills are a positive cure for all diseases arising from impoverished blood, or a weak or shattered condition of the nervous system. Every dose makes new, rich, red blood and gives tone to the nerves, thus curing such diseases as epilepsy, St. Vitus dance, paralysis, rheumatism, sciatica, heart troubles, anaemia, etc. These pills are also a cure for the ailments that make the lives of so many women a constant misery. They are sold in boxes, the wrapper around which bears the full name—Dr. Williams' Pink Pills for Pale People. Can be procured from druggists or will be sent by mail, post paid, at 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

A BIG BEAVER DAM.—Says the Houlton Times: The biggest beaver dam ever seen in Maine is now attracting hundreds of people to Caribou, on the Aroostock river. Two miles from the village the beavers have built a dam of logs and mud 250 feet long, turning the river back upon the lowlands for a distance of three miles and thus creating a great lake. Trees a foot in diameter have been cut down by the beavers, the branches trimmed off and the trunks in some mysterious manner brought to the dam and submerged. The dam is better than many on the river that have been built by men, and the Caribou people are rather proud of it. Over 1,000 beavers have worked hard on this job for several months and they will be allowed to remain in possession all winter.

The decline in Sunday-school attendance, which is being deplored in England, is causing anxiety in the United States, where last year there was a falling off of 10,032 in the schools. will generally correct this difficulty. If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

"I was very much run down in health and employed our local physician who attended me three months; finally my leg broke out in running sores with fearful burning.
