NOTES AND GLEANINGS

A one-cent restaurant has been pened in New York, where for a cent one can buy enough food adequately to nourish the body.

it was stated recently by the Chairman of the London Road Car. Co., that the whole of the hay consumed by their horses came from Canada.

Canada has the largest forest in the world. It is the Labrador and Hudson Bay district, and is, roughly, one thousand by one thousand seven hundred miles:

There is a remarkable fruit tree n Pike County, Kan. The body of the tree, with a few of its branches, is apricot, while branches of peach and plum trees have been grafted thereon. The three different kinds of fruit were gathered from it last year.

The German military authorities are endeavouring to stop the excessive drinking of intoxicating liquors in the army. The sale of brandy has been soldiers' homes and similar institutions for sail rs no alcoholic drinks are served. .

THE NORTHWEST SQUARE.

Rev. John McDougall, of the Methodist Church, has spent many years in the Northwest and knows the country thoroughly. In a r cent sermon in the Metropolitan Church, Toronto, he "shocked his hearers" into a sense f the extent and the possibilities of Canada's west, and their responsibili-

ties. The following is the Globe's report of his ta'k : Mr. McDougall took as an llust a-

tion of the greatness of that country a block of land 1,000 miles square (640, 000,000 acres,) abutting the fortyninth parallel, and lying between the Rockies and the western boundary of Ontario. This great stretch of territory contained, in his estimation, more acres capable of agriculture and of responding to the thrift and mechanical operation of industrious men than any other stretch of like dimensions on the face of the globe. He called it the very acme of God's work in this

respect.

Of this great block of land he took 100,000,000 acres, less than one-sixth of it, and placed a conservative estimate of a yie'd, when cultivated, of who are dependent on him for tood bury, Bear Island, Southampton, prohibited in all the canteens in Lorain fifteen bushels an acre. It looked to Mr. McDougall as if some great race had lived there centuries ago, so splendid were the terraced forests and natural beauties.

The preacher called upon his hearers to go in and possess this great country. to evangelize it in keeping with the p.ogress that is being made there.

MODERN FAWNING BEFORE WEALTH.

The chief evil nowadays, lies in the DEAR SISTER : well-nigh universal fawning and cowering before wealth, in the blind scramble for fortune or favor. We are aught to act a part, when we should embody a principle. We stoop over and walk on all fours, when we should stand the Frechren and sisters did not think erect. remembering the stars above it best to do so, but I collected what

> A Scotch minister from a large town once visited and preached in a rural parish, and was asked to pray for rain. He did so, and the rain came in floods and destroyed some of the crops, whereupon one elder remarked to another, "This comes o' entrusting sic a request to a meenister who isna acquentit wi' agriculture."

it is calculated that the scholarships to be founded under the Will of the late Mr. Cecil Rhodes number 175 in all, and are of the total yearly value of £51,750. It is estimated that the capital sum required for all the benefactions is £2,098,000, which according to some authorities, represents just a third of Mr. Rhodes' fortune.

The Cape to Cairo telegraph line is now completed to Ujiji, on Lake Tanganyika, a distance of 2,500 miles. Half as many more miles will bring it to Fashoda, where it will connect with he Egyptian system to form the complete north and south line through Africa. A lateral branch will be built from Ujiji east to the coast of Zanzibar.

MEAT AND DAIRY PRODUCTS.

But Mr. McDougall did not confine his estimates to wheat alone. He supposed that in time live stock would be raised in that part of the country. He had waited twenty-three years for a railway, and come to know the virtue of patience. The country was rich in pasture land and grasses of rich butter and cheese producing qualities, so that it promised great possibilities. Mr. McDougall allowed one fat bullock a year for shipping purposes to every forty acres of the block 1,000 miles square. That meant 16,000 head of cattle a year. At 20 head to a car it meant 40,000 trains of 20 cars each, or a little more than 100 trainloads of cattle moving out of Winnipeg every

day for a year. To every ten acres he followed one fat sheep and one marketable hog That meant 64,000,000 of each, which, loaded 200 to a car,

TORONTO CONVENTION REPORT

The Report of the Student Volunteer Convention, held recently at Toronto, is being edited by Rev. H A. Beach, M. A., the Educational addresses and condensed reports of the various section meetings. Other features are as follows : A bibliography, not a classified list of incidents and ilusmay be used in addresses; and a sug gested outline for missionary meetings, complete index will make the contents of the volume easily accessible.

Although the price of the book bound in clo h is \$1.50 postpaid, orders sent in immediately will be re-

with 12 members; one Victoria C rner with 8 members; one at Somer ville with 8 members and one at Waterville with 17 members. Brethren Clements Wilson and A. W. Currie helped us much in the work. I had the privilege of visiting the Band at Woodstock ; there was a good attendance, and the meeting was deeply interesting. Sister Slipp is doing well and ecomony." with the Band. I also visited the

children of the Band at Lower Queensbury, at the day school. Miss Annie Claydin is Superintendent, and she informed me the Band is doing well. The Superintendent at Bear Island, Miss Laura Gunter, informed me that the Band then had increased in num bers and the interest is good. The Douglas Band has doubled its members; it now has over 30, and is working well. Sister J. J. Barnes stated to me that the Band at Southampton is a live Band; they have quite an increase, also. I expect to meet with them on the first Sabbath in June. 1 received a letter a few days ago from Miss Whitehead, supt., giving a very interesting account of the Band at Staples Settlement. Thus the good

work is moving on among the children. God bless the faithful sisters who have the care of those children. I hope and trust they will have the prayers and cooperation of the other members of the churches.

Summary of work in the month isits, 82, families prayed with, 35 sick visited, 6; sermons preached, 7 other meetings, 11; unconverted conversed with, 17; conversions, 1; mis sion societies organized, 3 ; children' Bands organized, 3; miles travelled, 355; cash collected \$20.10.

PARLIAMENT

MONDAY.-The house held its first morning session. A number of private bills were passed.

The house went into committee on Mr. Fielding's bill giving the government power to borrow fifteen million dollars.

The house went into supply taking up the supplementaries for the current year.

In the afternoon session the house in committee discussed the Yukon telegraph lines.

On the item for the St. John immigrants building, \$12,000 Mr. Tarte said the total cost of this building would be \$33,596. TUESDAY. -- The house was in supply covering militia supplementaries, canals and miscellaneous. There was a discussion over the Kitchen contracts on the P. E. Island railways. Kitchen has been given thirty miles without ender.

Replying to Mr. Haggart, Mr Blair said it was not true that the re tirement of Manager E. G. Russell of the I. C. R. had been decided upon, or was contemplated.

On the item for the colonial conference, some discussion took place. The premier stated that he had not changed his mind respecting the question of colonial defence.

On the vote for the coronation com tingent Dr. Borden explained that the collected as an Easter offering, and the

ing. For nearly two years he has been in poor health, having been confined to his home the greater part of the time. The paralysis has made his condition very serious, and it is thought he cannot long survive. He is Fredericton's foremost citizen, and his death will be mourned by all his fellow eitizens.

MISSIONARY NEWS AND NOTES.

-Africa still deserves the name o the "Dark Continent" with 150,000,-000 people who have never heard of

-The more than twenty German foreign missionary societies are supporting about 850 missionaries and 4000 native teachers.

-An able missionary of the London Society in China cays that it is estimated that China spends annually on ancestral worship one hundred and fifty millions of dollars.

-- In nine out of the twenty-seven provinces of India, the census taken last year shows that the number of native Chaistians is 162,152. Ten years ago the number was 66,281, so that the rate of increase is 70 per cent.

-The first Protestant convert in Japan was baptized thirty.six years ago, and the first church of nine members was organized twenty-nine years ago. Now there are 42,450 Protestant converts. Protestants number one to every 900 of the population.

-The wonderful progress of Christianity in India is not to be solely measured by the number of enrolled Christians. Christanity is leavening a mass of Hinduism, and thousands who havo not been classed as Christian disciples are increased greatly by the Christian faith.

-The Protestant Episcopal Church in the United States the children of the Sanday Schools gave nearly one quarter of the whole sum centributed for foreign missions. Their gift is
