

BLOOD TROUBLES

Manifest Themselves in Many Disagreeable Ways.

SUCH AS SCROFULA, ECZEMA, BOILS AND PIMPLES—THE BLOOD SHOULD BE PURIFIED DURING THE SPRING MONTHS

The Spring season is the time for blood cleansing and blood renewing. Blood troubles are many—and dangerous—and manifest themselves in a score of painful and offensive ways, such as scrofula, eczema, boils and pimples. The impurities that get into the blood pursue their poisonous way all over the body and are responsible for a large portion of all diseases, various in their nature but dangerous in their extreme. To have pure blood and plenty of it, you need a tonic and blood builder, and for this purpose there is nothing so equal as Dr. Williams' Pink Pills for Pale People. These pills cure all diseases due to impurities in the blood by promptly cleansing and freeing the blood from all poisonous and offensive matter. If your blood is thin or insufficient; if you suffer from exhaustion at the least exertion; if you are pale, easily get out of breath, and feel constantly languid and fagged out, Dr. Williams' Pink Pills will cure you by filling your veins with new, rich, red blood. Mr. Robt. Lee, New Westminster, B. C., says:—"Before I began using Dr. Williams' Pink Pills my blood was in a very impure state, and as a result, pimples, which were very itchy broke out all over my body. My appetite was fickle and I was easily tired. I tried several medicines, but they did not help me. Then my wife urged me to try Dr. Williams' Pink Pills. I got a half a dozen boxes and by the time I had used them I was completely restored of health, and my skin was smooth and clear. I shall always speak a good word for these pills when opportunity offers."

It is because these pills make rich, red blood that they cure such troubles as anaemia, shortness of breath, headache, palpitation of the heart, rheumatism, erysipelas, St. Vitus' dance, and the functional ailments that make the lives of so many women a source of constant misery. The genuine pills always bear the full name, "Dr. Williams' Pink Pills for Pale People," on the wrapper on every box, or six boxes for \$2.50, by addressing the Dr. Williams Medicine Co., Brockville, Ont.

Repairing Neatly Done

Never thought of such a sign for a medicine did you? Well, it's a good sign for Scott's Emulsion. The body has to be repaired like other things and Scott's Emulsion is the medicine that does it.

These poor bodies wear out from worry, from over-work, from disease. They get thin and weak. Some of the new ones are not well made—and all of the old ones are racked from long usage.

Scott's Emulsion fixes all kinds. It does the work both inside and out. It makes soft bones hard, thin blood red, weak lungs strong, hollow places full. Only the best materials are used in the patching and the patches don't show through the new glow of health. No one has to wait his turn. You can do it yourself—you and the bottle.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle.

A GOOD CORN REMOVER.

A marvel of cheapness, of efficacy, and of promptitude, is contained in a bottle of that famous remedy, Putnam's Painless Corn Extractor. It goes to the root of the trouble, there acts quickly but so painlessly that nothing is known of its operation until the corn is shelled. Beware of substitutes offered for Putnam's Painless Corn Extractor—safe, sure and painless. Sold at druggists.

LITERARY NOTES.

"Some Remarkable Russian Engineering Project" is the title of a paper by R. E. C. Long, in the March Forum, which gives a striking picture of the enterprise of the Russian Government in undertaking works of public utility on a vast scale. It shows there is good ground for the prediction that the present Emperor will go down to history as "the Tsar Engineer."

Dr. Thomas J. Barnado of London tells in the Missionary Review of the World for March, the story of his work for the Waifs of Great Britain. In the same number there is a graphic description of "Politics and Missions in Korea," "Types of Korean Character" furnishes concrete example of the transforming process which is going on through the power of the Gospel. Well worth reading also are "Religious Forces in Mexico and Central America" and "The New Reformation in France" Published monthly by Funk & Wagnell Company, 30 Lafayette Place, New York. \$2.50 a year.

There is plenty of food for thought and entertainment in the March Canadian Magazine. The famous Indian Juggernaut is described and some of the popular fallacies concerning this festival are explained away. The making of Pamlico, or sun-dried meat is described and illustrated. Professor John Cox, of McGill, writes on Commercial Education from a new point of view, while three writers give their views and much information concerning the movement for Territorial Autonomy. There are the usual bright stories and carefully edited departments.
