Jos. McLeod,

The first artificial butter was "margarine," made in Poissy, France, in 1869. It was made from fat of the loins and kidneys of cattle, which, when melted, is sometimes called "oleo oil." This oil, tallow, lard, olive and cottonseed oil are used, combined with dairy butter, in making the various butterines. Cocoanut butter is largely used in Northern Europe.

SLEEP—At Upper Haynsville, York Co., William W. Sleep. Bro. Sleep's sickness was of short duration. It was evident from the first that the end was near. He gradually sank into unconsciousness and peacefully passed from earth to heaven at 430 a. m. on the 7th inst. His was a practical, industrious life. He was active to the last. Though 80 years old he had been unusually active of late, as seen in his preparation for his summer's work. He selected and laid off an acre of ground this spring, which he intended to cultivate himself as a garden, though his son endeavored to dissuade him from doing so. Fifty-six years ago he came to Haynsville and took up a large farm. Industry and thrift tollowed in his path. His busy, active earth-life is over and he has entered into the saints' everlasting rest. His familiar form and voice will be seen and heard no more about the old homestead. None will miss him more than his three grandchildren; they were much attached to him and he to them. Very few of the pioneers of Haynsville are left; the old landmarks are falling out of the ranks, Bro. Sleep was a good man and an obliging neighbor. He will long linger in the memory of the people among whom he was deservedly respected. He leaves a sorrowing widow, children, grandchildren and great-grand-children, with a large circle of friends to mourn their loss. The funeral was largely attended. The services were conducted by the writer, in the Haynsville Free Baptist Church. His remains were laid to rest in the old Haynsville burying ground.
