**Thursday.**—The G. T. P. bill got its first reading.

**N. B. LEGISLATURE.**

**Monday.**—The committee to which was referred Mr. Flemming's resolution to prohibit the exportation of crown land logs, reported against it.  
Bills were agreed to as follows: To change the name of the Lunatic Asylum, to confirm the increase of stumpage rates, to establish a Labor Bureau, to increase the indemnity of members of the Legislature, to change the name of Kingston, Kent Co., to Rexton, to regulate the inspection of dairies.  
**Tuesday.**—The following bills were agreed to: To provide for a secret ballot in Provincial elections, to incorporate Bath for water and fire purposes. A resolution in favor of the Federal Government acquiring the Grand Southern Railway was negatived. Mr. Hazen moved to amend the Highway Act by providing that the money raised by taxation in the different counties for the maintenance of public roads, be expended by the county council, and that the superintendents in each district should be appointed by the county council.  
The amendment was lost.  
**Wednesday.**—The odds and ends of business were attended to, and the House was prorogued at 3 p. m.

**NOT MERE CHANCE.**—Is it merely an accident that in the no-license city of Pasadena, Cal., with a population of 16,000, there were last year only thirty-eight arrests, while Stockton, a saloon city of 17,000 people, had 1,074 arrests?

**A CRISIS IN WOMAN'S LIFE.**

**There are Backaches and Headaches and days when life seems scarcely Living.**

There comes a time in the life of all women when they are face to face with a grave crisis; when there are distressing backaches, headaches, dizziness; when even some women are threatened with the loss of their reason; when they suffer because they are women. The happiness of women for the rest of their lives depends upon being safely tided over this crisis. Dr. Williams' Pink Pills have proved a blessing to women at all ages, and are particularly valuable at two critical periods—when girlhood is merging into womanhood and when women are approaching the turn of life. These pills make the rich, red blood that stimulates all the organs of the body, expels disease and makes the weary sufferer bright, active, and strong. Mrs. A. Jones, Cypress River, Man., says:—"Out of gratefulness I feel that I must let you know the good Dr. Williams' Pink Pills have done me. For years I suffered from Inflammation of the womb and kindred troubles. Only those who have been similarly afflicted can tell how much I suffered, or how dreary life seemed. I tried many medicines but none of them helped me. Then I was advised to try Dr. Williams' Pink Pills. I am grateful now for that advice, for after using about a dozen boxes every symptom of the trouble disappeared and life again seemed worth living. It is now several years since I took the pills, and as there has been no sign of the trouble since, I feel safe in saying the cure is permanent."

What these pills have done for Mrs. Jones they will do for all suffering women if given a fair trial. But you must get the genuine with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around every box. Sold by all medicine dealers or sent by mail post paid at 50 cents a box or six boxes for \$2.50, by writing The Dr. Williams Medicine Co., Brockville, Ont.

**THE MAGAZINES.**

The frontispiece of the May *St Nicholas* is a charming May picture. The first article, too, carries out the May spirit, being an interesting account of "Magdalen Tower and May Morning." "The Coming and Going of Pete" is a good dog story. Especially for boys is "Tom's Sunshine Engine." "A Comedy in Wax" goes on jollily. Bright verse and attractive pictures are features. Last, but by no means least, come the departments, Nature and Science for Young Folks, The Riddle-Box and the Stamp Page, etc.

A new portrait of President Roosevelt, from a photograph taken at the White House in January, is the frontispiece of the *May Century*. It is accompanied by a short article. "The Mother of Parliaments," throws a flashlight upon the inner workings of the great legislative body of Great Britain. Portraits of nine members of the House are given. Of special interest to photographers, professional and amateur, is "The Lost Art of the Daguerreotype." In the same field is a paper entitled "History by Camera." Of the fiction, the regular reader will doubtless turn at once to the conclusion of "Four Roads to Paradise." There are editorial articles and some nonsense verses.

—The King will soon lay the foundation stone of the largest cathedral in Britain. It is to be built on St. James Mount, Liverpool, 155 feet above the river Mersey. It will accommodate 8,000 persons and will cost about £500,000.
