A circular widely distributed in the Russian army despite the strictest control, contains the following: "No one going to the war returns. It is better to defend our rights than to shed blood unnecessarily. We workmen cannot look on with indifference while our comrades perish." As a result of these circulars further riots are reported at Ka-

PROVERBS

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.
