We observed in a late number of the Old Quebec Gazette, a paragraph having reference to the Libel case recently tried here; in which the Editor seems to consider some great principle of English liberty was involved; and that the Luxy in this instance. Jarwed another hulthe Jury in this instance, formed another bul-wark against oppression. Mr. Neilson must have forgotten in what the trial originated; and we beg leave to bring the subject under his notice; as however varied may have been his pub lic career, we believe he never lent himself to

The prosecution of the Printer of the Chronicle, was instituted at the request of the Legislature, for a gross and slanderous attack upon the private character of His Excellency JOHN HARVEY; whose high and honorable standing as an individual, must be known to Mr. NEILSON; and was proceeded with, owing to his refusing to give up the author of the calumny. And if that gentleman has perused the report of the trial which we published, he must have seen, that no attempt was made to justify the attack, nor was any thing offered in extenuation of the offence. There was therefore no great question of public liberty involved; and the Jury performed no beneficial pub-

lic duty.
Mr. Neilson upon reflection, will perceive the improper tendency of his remarks in the pre-sent instance; which we can only attribute to the position in which he finds himself, as respects the government of the country; and of which the disaffected here have gladly availed themselves. They have been copied into the Chronicle, and also into the Miramichie Glean.

Pounds Sterling, on the branches of the Provinciwhich the disaffected here have gladly availed Chronicle, and also into the Miramichie Gleaner, which is fostered by the same faction that called into being its "unwholesome brother." Dublin,

And were it not that an attempt has thus been made, to give an improper colouring to the affair, by stamping the conduct of the Jury with Mr. Nellson's approval upon general principles; we should not again have referred to a decision, which it were better for the judicial and moral character of the Province, should be buried in oblivion.

We have inserted in another part of this number, an extract of a letter received from Athlone, an American gentleman, with reference to the present posture of affairs relative to the Boundary question; with the tenor of which we perfectly coincide. An article from one of the Bangor papers on our last page, headed the Aroostook Vote; will show that our American neighbours have been sedulously employed in appropriating to themselves, that which does not belong to them, for a longer period than is generally supposed. In our last Quebec papers, we observe that a company of the 56th Regiment had marched for the River de Loup, and they have subsefor the River de Loup, and they have subsequently been quartered at Madawaska.

We understand that the presence of the Detachment of the 56th Regiment in the Madawaska settlement, is connected with the delphia Superfine FLOUR, of an excellent qualiusjustifiable proceedings and coarse threats of the individual in charge of the Armed ty, which he will dispose of on reasonable terms.
