Will Invade Desert Area On Information Supplied By Woman.

Southampton, Eng. — Taking with him a pilot, a geologist, and an aeroplane, Sir Malcolm Campbell sailed for South Africa on his adventurous seach for gold.

His objective is a secret area in the Kalahari desert, where there is said to be a fabulously rich gold reef, a plan of which has been in his possession for some

Although this venture is in the nature of a holiday in between further attempts on the motorcar speed record, which he already holds, it will be no "joy-ride," for the territory is waterless and intensely hot.

Originally he had planned to camp on the site, using his aeroplane as a means of transport between the camp and civilization, but now he may make his base on the coast and fly each day to the place where he is to prospect.

"I am determined to be back in plenty of time to make another attempt on the speed record next July at Salduro Lake, near Salt-Lake City, Utah," Sir Malcolm
