ST. LOUIS CARDINALS WIN THE WORLD SERIES FROM DETROIT

St. Louis Cardinals are the top-notch baseball players of the world by virtue of them winning four games out of seven from the Detroit Tigers. The last game of the series, played on Tuesday was won by the shut-out route with the score standing 11 to 0. The Dean brothers had been bally-hooped as the great marks in baseball and their performances in the World Series gave this particular series its chief glamor.

Fans all over the world followed the radio broadcasts of the games and it was estimated that at least 10,000,000 listened in on the games. All over the country little groups and large groups were assembled around radio sets. Newspaper offices, too, were the centres of interest for fans, and crowds everywhere, cheered their favorite plays and players.

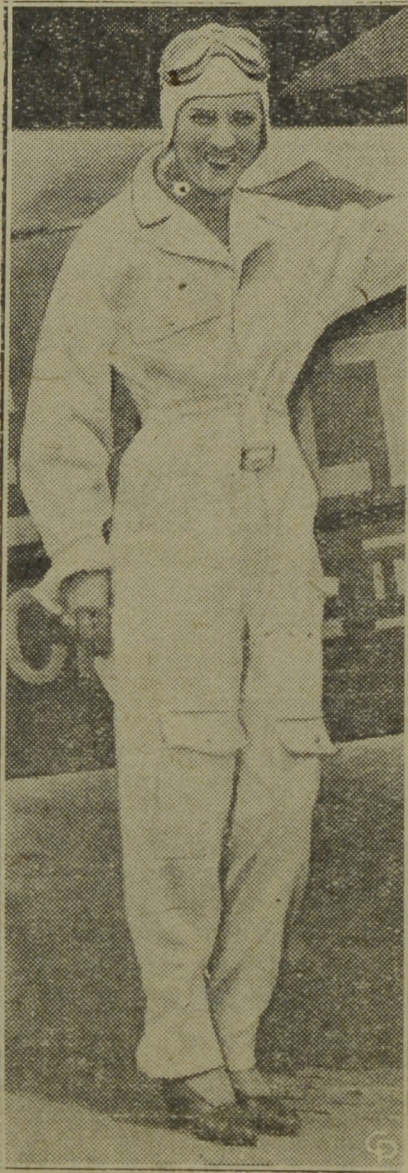

The games are over for this year and the fans will review the plays day by day until a new sea-

comes round and new baseball interests are created. The Columbus team won the little world series from Toronto.

Rothesay Takes Opener In Rugby

The New Brunswick Interscholastic Rugby League opened its season of 1934 at Rothesay on Tuesday, when Rothesay Collegiate School defeated Saint John High School 3 to 0. The Rothesay boys showed a superior style of play, but High School played well on the defensive while their scrummage did good heeling. A heavy wind made kicking a hazard and the players on both sides confined their work mostly to close plays where the wind could not count.

In Air Marathon

At least one American woman, JACQUELINE COCHRANE (above), of New York, will be an entry in the England-Australia air derby. She will, however, carry a man as a navigator.

SPOTS of Sport

MUCH INTEREST IS BEING MANIFESTED in a great international walking race to be held in Hamilton, Ont., on Saturday, Oct. 20, when the cream of Canadian heel-and-toe artists will vie for world honors against an invading contingent of international stars. England, Germany, Italy and the United States will be represented. At the time of writing there were 116 entries. The distance is 50 kilometers, or 31 miles, 221 yards. Dr. Giulio di Petra, holder of the world's record for 30,000 meters will represent Italy; Morris Davis and T. J. Johnson are the Englishmen entered; Charles Eschenback, Richard Koehler and J. Loshin will do the honors for Germany, while Phil Jachelski of Baltimore, winner of the 50 kilometer title last year, along with Bill Chisholm of Los Angeles, will lead a contingent of fifteen from the States. Hank Cleman, veteran walker, will head the Canadian forces. There was a time when heel-and-toe walking was quite popular in these parts, but the sport has died out.

ACCORDING TO THE RESULTS OF A POLL CONDUCTED by the "Sporting News," "Dizzy" Dean, ace of the Cardinals' pitching staff, and Lou Gehrig of the Yankees, were adjudged the most valuable players in the National and American Leagues. The former received 57 votes and the latter 51 out of a possible 64. Mickey Cochrane was third in the American League list with 29. It will be recalled that Dean last year only received 13 votes. Gehrig lost out by two votes last season, but was out in front in 1927 and 1931. The selection in both instances seems to be warranted, for who is there who can deny their outstanding worth to their respective teams during the entire season.

NOW THAT THE WORLD SERIES IS HISTORY AND THE king of all sports—baseball—is over for the season interest throughout the Maritime Provinces will be centered in hockey and the doings of the "Big Four." On all sides fans are talking about the visit of the Montreal Canadiens, who are to train at the Saint John Forum. Now that Joe Lamb has become the property of the great Montreal team local fans are even more interested, for the former Sussex boy is both well known and popular. As far as the local team is concerned it has become a case of watchful waiting. Fans are confident we have one of the greatest organizations ever assembled in these parts, the Moncton Hawks not excepted, and they are eagerly waiting for the day when they will have an opportunity of seeing them in action.

WE STILL HEAR ECHOES OF THE GREAT YACHTING classic between the Rainbow, defender of the famous trophy, and the Endeavour, the British challenger. T. O. M. Sopwith's latest charge is that the American boat did not comply with the specifications. It would be far better if he refused interviews and allowed the matter to drop. It is quite apparent to all that specifications of the Rainbow did not enter into the pleasure at any stage of the races. The Endeavour proved beyond the shadow of a doubt to be a faster and better boat. Her defeat could be attributed to miserable handling on the part of her amateur crew and poor or faulty judgment and knowledge of sailing on the part of those in charge. Whether the Rainbow's interior fittings were according to Hoyle or not had nothing to do with the case. There are times when the old saying, "a poor excuse is better than none," may apply, but not in this instance. The Endeavour was defeated by a slower boat more expertly handled. That is all the excuse necessary.

ALTHOUGH THE FOOTBALL SEASON IS ONLY STARTING one death has already been reported and numerous players are in hospitals recovering from injuries sustained either in practice or exhibition games. Yearly the death toll in this sport is appalling and yet there seems to be little or no effort to lessen the hazards to life and limb. Time after time the cry has gone out to eliminate rough, or, in fact, brutal, tactics permissible under the rules, but to no avail. Those in charge have always come back with an answer that it is a man's game and let it go at that. Bucking the line and interference are responsible for the many fatalities. Father, who have boys going to schools and colleges, are placed in a very trying position. They want them to be as manly as the best and to participate in sport of all kinds, but they must live in horror of the fall when football gets under way. This is not as it should be, but there seems very little likelihood of any drastic changes in the rules governing this sport until public resentment forces the hands of those in charge. Accidents are prone to happen in any sport, but they are the exception and not the rule as maintains in football.

FANNING FOR THE FANS

By LLOYD M. YOUNG

ONE OF THE MOST INTERESTING and entertaining World Series is over with the St. Louis Cardinals winning the championship, putting the Detroit Tigers out after playing the full seven games, games filled with thrills and last minute scoring to win or lose, the radio broadcasts by the Commission were much appreciated by those fortunate enough to be able to listen in to them. Dizzy Dean and his brother Daffy Dean made baseball history while Schoolboy Rowe, a new sensation this year, won one game and lost one, not forgetting Bridges, Hallahan, Walker and the other pitchers that made the game interesting. The last game with Detroit seemed to put the finishing touch on, when Medwick and Owen mixed it up at third base and Medwick was ruled out of the game after the Detroit fans refused to let him play his position in left field. The game ended with the score reading 11-0 for the Cardinals and with it went the championship. The share of the St. Louis Cardinals ball players for the series was \$5,941.19, while the Detroit Tigers share was \$4,313.90.

FOOTBALL IS IN THE AIR again with the college teams getting in trim. Mount Allison football team, which last year won both the Maritime Intercollegiate title and the New Brunswick Senior championship have left only eight of the old squad and will have to build practically a new team to defend their titles. In their first game they turned back the

Fredericton City outfit by a score of 12-5.

ACADIA UNIVERSITY WON their first game of the season in the Halifax City League when they turned back the Wanderers by a score of 8-0.

ROTHESAY COLLEGIATE School opened the Big Three Football League with a win over Saint John High by a score of 3-0.

SAINT JOHN TROJANS AND University of New Brunswick are slated to meet on the 13th for their initial game of the season to be played at the Allison field.

THE DALHOUSIE TIGERS defeated the United Services team in the first meeting of this season in the Halifax City League by a score of 18-0.

JACK DEMPSEY, FORMER heavyweight boxing champion, will not accept a \$100,000 offer from South American promoters to meet Louis Firpo in a four-round bout. Dempsey said he would not fight again.

HOCKEY IS ONCE AGAIN IN the air with the Moncton Hawks Club starting to train for the coming season. They have most of last year's players with the exception of McManus and possibly Webster and Connolly. However, it is understood that they have several new players on their lineup.

DADDY BUBAR, NEW GLASGOW hockeyist, and last season sub-goalie with the Moncton Hawks, will this year be with the Halifax Wolverines.

HOCKEY FANS HAVE HOPES REVIVED IN COOL BREEZES

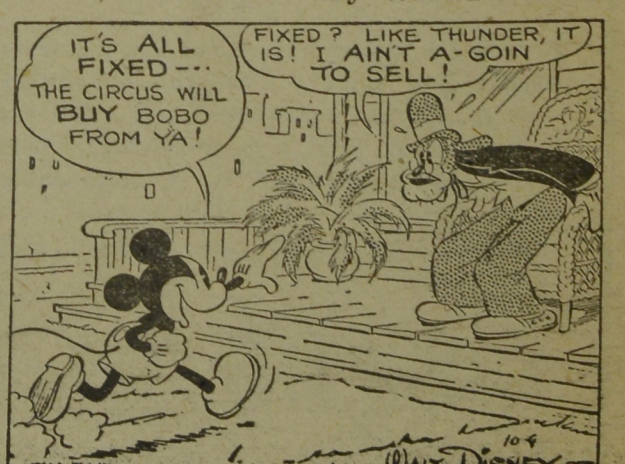

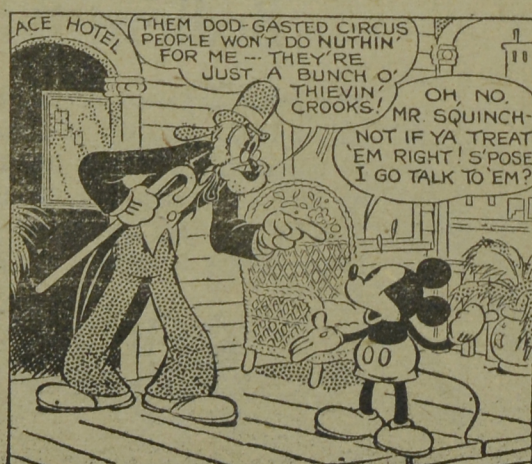

The chilly breezes and cold mornings of the last few days have brought new hope to the hockey fans of this district. There almost seems to be ice in the air. In Saint John the people are looking forward to the opening of the training season. The Beavers are said to have a lot of high grade material, which will be used to advantage in the coming winter against Halifax, Moncton and Charlottetown, and it is hoped that the Saint John boys will be able to go much further than that. It has been predicted that the world's best amateur hockey will be played right here in the Maritimes.

Moncton is likely to be shy a couple of last year's players, but there is enough material in the Hub to make up for any losses and the Hawks are being backed to the limit by their supporters.

Halifax and Charlottetown are not far behind in material and who knows how the season will end. Certainly all the cities in the Maritime circuit are hoping for champions, and three of them must be disappointed. It would be nice if all of them could have champions.
