

Good Teeth Are Necessary For Healthy Bodies

Educational Work To Be Carried On in New Brunswick This Month.

The Canadian Dental Hygiene Council in co-operation with the Provincial Department of Health and the New Brunswick Dental Association is commencing a month's program of educational work in preventive dentistry to be carried on throughout the province.

Summarizing the points which will be stressed in the campaign, a bulletin states: "The most important time in the development of human teeth is before birth and during the first seven years of the child's life. Almost one hundred per cent. of the children and adults of today have decayed teeth and these are often the primary causes of most of the serious diseases. In fact, we have given our teeth too little concern. "Preventive dentistry," the bulletin continues, "does not mean visits to the dentist's office. It means correct habits of living, balanced diet and proper attention to mouth cleanliness and oral hygiene."

Sentence To Jail Separates A Pet Rat From Owner

Prisoner Thanks Court Which Assures Good Care of His Pet.

London.—From the dock at the Sessions a homeless man bade farewell to Peter, his pet rat and only friend, whom he will not see again until the summer.

Peter, a timid white creature, frisked about in a cage on the barristers' table while his owner, William Watson Nodes, a 27-year-old wanderer, was sentenced to six months' hard labor for being an incorrigible rogue and for begging.

Whatever his failings as a law-abiding fellow, Nodes' affection for Peter is as deep as any human feeling.

Just before Christmas, when he appeared at Lambeth police court and was remanded in custody, his only concern was for Peter's welfare during his absence. And so sympathetic was Magistrate Harold McKenna, that he ordered 1s. a week to be taken from the poor box to maintain Peter until the case was settled. For the past three weeks Peter has been well cared for and Nodes' delight was evident when his pink-eyed pet was brought into court.

He leaned over the dock rails to see him better, and throughout the hearing gazed steadily at him. Not even as he was sentenced did he raise his eyes.

Gratefully, Nodes said "Thank you" to Walter Hedley, K.C., the deputy-chairman, who assured him that Peter would go to a good home until his release.

A few hours later Peter was sleeping peacefully at G. Franks' pet store in East Street., Walworth, S.E.

RADIOS INCREASE

London—Radio licenses in force in England at the end of December numbered 5,997,700, a net increase of 102,000 over the previous month.

WEST INDIES TRADE

Canada can sell more of its products in the West Indies, if the business firms would give the necessary attention to introducing their goods there. Under present conditions the United States and Great Britain are selling the products of their factories to the people of the British West Indies, while Canada is buying great quantities of the islands' products.

Right here in Saint John we have many things which could be sold to advantage in the West Indies, but our merchants are said to be depending too much upon letter and not enough upon personal contacts. British and United States firms have their representatives tour the islands once or twice each year and by this means they have secured business.

It is believed that if Saint John firms would give more attention to the trade they would benefit accordingly.

Under present conditions Halifax has a better trade with the West Indies than Saint John. The trade agreement has been arranged and facilities in the way of steamship services have been provided. The opportunity appears to be open for Saint John merchants to get a share in this business. It is something that might be well worth looking into.

Ethel Bartlett And Rae Robertson To Play In Saint John

Community Concert Association To Hear These Artists.

The Saint John Community Concert Association will hold the third concert of the series on Tuesday evening, February 13.

On this occasion the members will have an opportunity of hearing Ethel Bartlett and Rae Robertson, representing England and Scotland respectively, in a two piano recital.

A concert for two pianos is a rare thing. To Miss Bartlett and Mr. Robertson, generally, is given credit for the development of this concert form, and it will no doubt be proved beyond question that music for two pianos has a definite place on the musical menu of the world. Saint John is to be congratulated for having secured for this occasion two such outstanding artists.

ELKS' VACATION DRAWING

The lucky holder of ticket No. 24 in the first Elks' Vacation drawing will receive two return tickets to Toronto, one compartment to Toronto and one compartment from Montreal to Saint John on the special trains of the Second Annual Stone Club Deluxe Excursion in August.

WED IN HUNT TOGS

London, Eng.—Edward Tinley, of The Parks, Southwell, a follower of the Rufford and South Nottinghamshire Hounds, and Miss H. E. Williams, daughter of the late Mr. and Mrs. A. G. Williams, of Dorking, Surrey, wore hunting kit when they were married at Southwell.

- DORT—Mrs. Joseph Dort, at Canso, N.S.
- O'NEILL—Rita G. O'Neill, at Saint John, N.B.

A CAMERA SPORTSMAN IS KILLED BY WILD ELEPHANT

Nairobi.—When Captain Godfrey Crookshanks, R.N., set out on safari with his camera here it was his express wish that no shot should be fired to kill any animal. Two months passed, and no shot was fired.

Today the rule was broken—but too late. An elephant seized Captain Crookshanks in its trunk and hurled him to the ground. Death was instantaneous.

At the same moment his companion dropped the elephant with a bullet through its brain.

The captain had approached the beast, at close quarters, in order to secure a good photograph. The tragedy took place near Moshi, in Tanganyika.

MASONIC CALENDAR

- ALBION, No. 1—First Friday. Next meeting, March 2. K. R. Nelson, W.M.

THE NEWS ON REVIEW

(Continued from Page 1)

money" is going back home. Shipped to France for speculation or "safe-keeping" during the hectic days which followed abandonment of the gold standard in the United States, it is being repatriated as speedily as possible.

Earnings of the Canadian Pacific Railway Company for the week ended January 31 were: 1934, \$3,102,000; 1933, \$2,605,000; increase \$497,000.

As a by-product of the \$2,000,000,000 Stabilization Fund, the United States Government looks for an expansion of credit sufficiently extensive to offset the inevitable drain upon the money market resulting from the huge treasury borrowings of the next few months.

Canada's exports to the United States largely increased in December over the same month last year, partly owing to liquor sales. Uncle Sam's bill to Canada has jumped from \$11,500,000 for 1932, to \$20,915,000 for last December. Exports to Canada increased in lesser degree, the sums for the two months being \$13,436,000 and \$18,511,000.

Continuing secret efforts to encircle an extensive counterfeiting ring, police last week arrested Gordon Elton and charged him with complicity in the forgery of Newfoundland's air mail stamps. Arrest of the middle-aged garage proprietor brought the number in police custody to four, only one of whom has been committed for trial.

Providing for provincial control of milk and forecasting operations in the construction and maintenance of highways to provide employment, the Speech from the Throne was read at the formal opening of the Ontario Legislature by the Lieutenant-Governor. There was no indication in the Speech as to the Government's policy with regard to the sale of beer and wine by the glass.

Taking over of gold mining as a "public work for the general advantage of Canada," and government monopoly of nickel to prevent exports for war munitions in Europe, were suggestions thrown out in the House of Commons at Ottawa. They came from J. S. Woodsworth (Lab. Winnipeg North Centre). He pointed out Roosevelt was taking over all gold in the United States and questioned why Canada should pay a premium for gold mined in Canada. If it was so valuable it should be taken over by the government, instead of profits accruing to United States corporations as at present.

Busy Session Is Predicted For New Brunswick Legislature

(Continued from Page 1)

carried on in different parts of the province, so that the money spent will be distributed over a wider area.

It is likely that the government will be questioned by the opposition in regard to the claims of this province under the Confederation agreement. There is some dissatisfaction over the manner in which the brief presented by certain organizations was handled and there may be some pointed remarks in this connection.

All members of the legislature will be seeking material to be used in the election campaign and it is predicted that the session will not be an easy one for the members of the government and their followers.

In regard to the election matter, it is said that a federal election is likely to be held some time in the late fall and that the provincial election in New Brunswick will be staged before that time.

Whether the elections are held this year or next, the parties already are getting their forces in training and collecting their ammunition for the campaigns, no matter when they come.

Under any circumstance it is believed that Premier Tilley and his followers will make a real attempt to do something that will benefit the whole province.
