MODERN HEAT FOR YOUR MOTOR CAR

HEATERS

EMPLOYING an entirely new and exclusive principle of heat distribution, Harrison Twinflow Hot Water Heaters deliver heat both downward to the floor and outward toward passenger and driver. This dual heat delivery is accomplished by means of a built-in distributor chamber, with two sets of Deflectors to direct heat downward and outward in any ratio desired . . . Harrison Twinflow Heaters mean "balanced" heating . . . warm feet and ankles . . . greater comfort in cold weather.
