Department of Lands and Mines Determined To Enforce Law.

Fredericton, N.B. — The determination of the New Brunswick Department of Lands and Mines to enforce the Game Act as provided for this Province is reflected in a conviction recently gained in a magistrate's court.

Jack Walsh, of McAdam Junction, was convicted before Magistrate C. F. Craig of a charge of killing pheasant and sentenced to 15 days confinement in the York County jail at Fredericton. Information against Walsh was laid by Constable E. Randall, Royal Canadian Mounted Police.

Pheasants are protected by law in the Province of New Brunswick and the present violation is the first to come to the attention of the Department of Lands and Mines, it was stated by Lieut.-Col. H. H. Ritchie, Chief Game Warden. Considerable numbers of both the English ring-neck and the Mongolian varieties have been imported and liberated experimentally by various branches of the New Brunswick Fish and Game Protective Association and other interested groups. Both varieties seem to have become adapted to climatic and feeding conditions prevalent in New Brunswick.

## Now Science Explains Why So Many People Past 40

Feel That They're Slipping Losing Their "Grip" on Things

Many people 'round 40 think they're "growing old." They feel tired a lot . . . "weak." Have headaches, dizziness, stomach upsets.

Well, scientists say the cause of all this, in a great many cases, is simply an acid condition of the stomach. Nothing more.

All you have to do is to neutralize the excess stomach-acidity.

When you have one of these acid stomach upsets, take Phillips' Milk of Magnesia after meals and before going to bed. That's all!

Try this. Soon you'll feel like another person! Take either the familiar liquid "PHILLIPS'" or the convenient new Phillips' Milk of Magnesia Tablets. Made in Canada.

### ALSO IN TABLET FORM:

Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

A revival of housing construction is looked forward to both as a means of checking business depression and as an indication that business has improved.

One thing obviously stands in the way of building, and that is the weight of taxation on real estate, not only taxation already imposed, but taxation that is threatened when municipalities face the task of balancing budgets that have been unbalanced by the extravagant spending of the past and also by the weight of relief expenditures. People hesitate to put money into houses, because of the additional tax payments they may thereby incur. They also find it difficult to build because they have seen capital values melt away under the weight of taxes. For taxes do more than impound a portion of the wealth on which they are imposed; they also tend to destroy that upon which they feed.

Authorities should realize that it is possible for taxes to become so onerous as to defeat their end of providing public revenue. That can be true of taxation as a whole as well as of any individual type of tax.

## More Houses And Better Houses Are Much Needed Here

Revival of House Buildings Would Greatly Help All Industries.

The Dominion needs more houses and better houses. There is general agreement on that point. There is also general agreement that the fact that houses are not being built is the main factor in the stagnation, not only of the construction industry, but of many related lines.

## Italy's War Secrets

Are No Secret to Ethiopia's Clever Woman Spy

ITALIANS are much puzzled by the daring exploits of a dark-skinned Ethiopian noblewoman who fearlessly serves Emperor Haile Selassie. This plucky woman is credited with many heroic deeds in the one-sided Italian military campaign now being waged in the rugged Ethiopian territory. She also leads a corps of Amazon fighters.

No fiction was ever so thrilling as the true and fascinating story about the valiant feats of Ethiopia's brave woman spy. Look for it!
