United States. I. D. An inquest was held on the body by Edward Roach, Esq., one of the coroners of the County, and a verdict returned in accordance with the facts. The deceased is said to have been a fine lad, and rendered much assistance to his distressed parents.—Eastern Chronicle.

advantages which are enjoyed by the great majority of young men, and to his own almost unaided exertions was owing the success he achieved. His distinctive characteristic was his perseverance. This quality, aided by a probability to which even inveterate political enemies have done justice, enabled him to surmount all obstacles, to attain wealth and social position, and, besides, to leave his name inscribed in the political annals of his country.

AMERICAN DESIGNS ON CUBA.—The Boston Journal of Wednesday last, contains an abstract of the report of the proceedings of the famous conference of American Ministers which assembled at Ostend, Belgium, in July last, for the purpose of discussing the relations of Spain and Cuba with the United States. After suggestions relative to Cuba, its purchase from Spain &c. the report then goes on to consider what action will become necessary in the event of Spain refusing to sell, and decides that, if Cuba, in the possession of Spain, is deemed to seriously endanger our internal peace and the existence of our cherished Uni-

on then, by every law, human and divine, we shall be justified in wresting it from Spain, if we possess the power. And under such circumstances, we ought neither to count the cost nor regard the odds which Spain might enlist against us. They consider we should be recreant to our duty to permit Cuba to be Africanized and become a second St. Domingo, and fear that events are tending towards such a catastrophe.

Mrs. HANSEN, No. 600 FOURTH STREET, SAYS OF DR. M'LANE'S CELEBRATED VERMIFUGE:— NEW YORK, May 15, 1852. A child of mine showing symptoms of worms, I gave it a bottle of Dr. M'Lane's Celebrated Vermifuge, which brought away a bunch of worms, numbering, I should judge, about thirty. The child was very sick during the operation, but now well and hearty.

Mrs. TWIST, No. 18 Avenue D, writes under date of August 10, 1852, and says she had been troubled with worms for more than a year, and that she took one bottle of Dr. M'Lane's Celebrated Vermifuge, which brought away from her over three hundred worms, big and little. She now believes herself to be entirely free from disease.

Mrs. BUGGINS, a German woman, residing at 204 Rivington street, says, that after using one vial of M'Lane's Celebrated Vermifuge, she passed two large tape worms.

Holloway's Ointment and Pills, certain Remedies for Rheumatism.—Henry Foot, aged 52, of York Port, Hudson's Bay, was a severe sufferer from this complaint, and tried a number of reputed remedies, hoping they would benefit him, but he became so bad at last, as to be entirely confined to his bed, and he was unable to move either hand or foot. While he was in this horrible condition, a friend brought him a quantity of Holloway's Ointment and Pills, which he immediately commenced to use, he soon found himself gradually improved by them, and by persevering with them for eleven weeks, he was entirely cured, and has since enjoyed the best of health.
