How Dollars Are Made!

By Stopping the Little Leaks

And losses great fortunes are accumulated. A loss of a few dollars on a suit of clothing may seem a small thing to some men, but it is losses such as these that make many men poor. The man who, instead of dealing with us, goes elsewhere and gets poor, shabby goods and slipshod, careless work in the making-up of these goods, is likely to look poor and feel poor, too, before many years. Gentlemen, stop these little leaks by dealing only with our firm, and you will then be sure of having clothing that will look well, wear well and fit well.

Bishop the Tailor

171 Main St. Moncton N. B.

It is time you were thinking about a **Spring Suit.**

LEAVE your order with us. We have a great variety of New Goods. We can make you a suit to Order from \$11.95 up to \$18.50; Pants from \$3.00 to \$4.75; Spring Overcoats from \$10.50 up to \$15.25.

GIVE US A CALL. TRY A PAIR OF \$3.00 PANTS.

Circulars and full information mailed free, or can be had on application at the Galleries of the Co'y, 60 and 62 Prince Wm. St., St. John, N. B.
Agents wanted everywhere.

Some of The Best Dressed People

You see on the street are wearing suits and overcoats that have been cleaned, dyed and pressed at J. G. Francis' Steam Dye Works, and made to look as good as new. You cannot tell whether the people are wearing new suits or those that have been done over at the Steam Dye Works.
The cost? Why it is only a mere trifle: You will be surprised how cheaply the work can be done.

J. G. FRANCIS.

CELERY

Celery is one of the neglected vegetables that should find place in every garden great or small. It comes so late that it may be grown as an after crop where early potatoes or sweet corn has been grown. The seeds should be sown in a seed bed, that has been made perfectly fine and the seeds must be very lightly covered. The best way to sow them is to make very shallow furrows in the bed and cover the seeds after they have been drilled in the furrow, by sifting fine soil over them. When the plants have grown to be an inch high it is a pretty good plan to clip the tops off as this makes the plants stocky and vigorous. Celery delights in a moist soil and to do well it must be watered if the weather is at all dry. The common custom is to set the plants in trenches six or eight inches deep. These trenches should be dug and thoroughly filled in the bottom and made very rich with fertilizers of some kind, as it is a rank feeder and must be furnished abundant plant food within a short distance from the roots are short. Set the plants during damp weather if possible and as they grow, draw the earth into the trenches gradually filling them as the plants grow higher, taking care to keep the soil from getting into the centre of the bunch. This can be prevented by holding the tops with one hand and drawing the soil around them with a hoe, or preferably, with the other hand. When the trenches are filled the banking up begins and at every working the soil should be banked a little higher until the plants stand in a ridge reaching as high as the stem of the plants. This makes them white and crisp. At the last working the ridges should be patted into firmness with a spade so they will retain their shape.

A new plan that has been tried with some success is to set the plants only a foot apart each way and let them grow in this shape, they will be so thick that they will half blanch themselves, and when they are fully grown, they can be taken up and put in a dark cellar in boxes with a little soil around the roots to finish the blanching process, or reset in trenches and left there to blanch.
The old plan we think is best for beginners, and we should have a lot of them in this country for there is nothing that is better for nervousness than to eat liberally of celery.

Albert Co.
David Leighton, of Lower Cape, returned yesterday from Uncle Sam's domain. He reports very hard times in the States.

Our enterprising fish dealer received a supply of salmon from St. John on Friday, which sold at 15 cents per lb.

Solomon Tingley, 50 years of age, a well-known resident of Caledonia, Albert Co., died at his home at that place on Friday night, after a few weeks' illness. The deceased was a son of Samuel Tingley, of Harvey, and leaves a widow and three children. Two brothers, Joseph and Miles Tingley, are residents of Caledonia.

Captain Eli Robinson, lately of the ship Equator, has secured passage in the ss. Massasoit, now loading at Grindstone Island and will leave for his home in Liverpool, Eng., as soon as the steamer has finished loading. The Massasoit has over half of her cargo aboard. The deals are carried rapidly to the vessel, four lighters discharging at once, and this week will probably see the cargo all on.

The worst blood diseases are cured with Ayer's Sarsaparilla. Its effect are felt at once.

ELECTION OF OFFICERS.

At the last regular meeting of Moncton Division, No. 193, S. of T., the following officers were elected for the ensuing quarter—R. T. Colpitts, W. P.; Miss Maggie McDonald, W. A.; J. W. Duke, R. S.; Miss Ella Forbes, A. R. S.; G. H. Forbes, F. S.; E. B. Hicks, Treasurer; A. J. Blake, Chaplain; J. S. Foran, Con.; Miss Maud Mitchell, A. Con.; Jas. Lutz, I. S.; Edmund Forbes, O. S.; A. Y. Clarke, P. W. P.

CUNARD COMPANY'S TROUBLE

LONDON, June 26.—Truth declares that the Cunard steamship company ought not to be allowed to carry the mails any longer if it be true, as alleged, that Methodist Bishop Fraser was refused a first class ticket by the New York office of that company on account of his color.

A tall, thin doctor in the town had an office, out of which a door led into a small laboratory. One day, while working there an Italian fruit seller entered the office. Finding the room deserted, he turned to leave, but by mistake opened the door of the doctor's closet, in which was a human skeleton, in all its awfulness. The sight was too much for the poor Italian. Dropping his basket of fruit, he made his escape in a panic. The doctor heard the commotion, and came from his laboratory to see what the matter was. The open closet door and the fruit scattered on the floor instantly explained the situation. He went to the window and saw the frightened Italian standing on the sidewalk below, looking up at the window. "Come up," said the doctor, at the same time beckoning with his long finger. "No you don't," exclaimed the fellow, shaking his head. "I know you, if you have got your clothes on!"

Sick Headache
CURED PERMANENTLY
BY TAKING
Ayer's Pills
"I was troubled a long time with sick headache. I tried a good many remedies, but they did me no good. I am now a well man."
-C. H. HUTCHINGS, East Auburn, Me.
Awarded Medal at World's Fair
Ayer's Sarsaparilla is the Best.

A couple of months ago a rather noticeable wedding ceremony took place at the Park street church, attention being attracted to it by the license being forgotten and the bride being forgotten. However, the ceremony was finally completed and the coronal and his bride drove off as one. About two weeks later the wife was missing, and since that time her husband has not seen her, though he has anxiously watched and searched. A gentleman, who happened along the Windsor road above Bedford last Sunday, says he met the woman on the road and she said she was going to Truro to bury her mother. He told her she was on the wrong road and advised her to go back, but she didn't do so. She admitted being the missing wife and said she had stayed at a hotel.

McSWEENEY'S FRIDAY BARGAINS, JUNE 28.

Merchants all over Moncton are trying to figure out where we get goods to sell so cheap. Sometimes they swear the goods are not as represented. Sometimes they send and buy goods here to sell again. We're flattered with so much attention. Glad to have their trade, and if at any time goods are not as advertised bring them back and get your money.

PETER McSWEENEY.

A tall, thin doctor in the town had an office, out of which a door led into a small laboratory. One day, while working there an Italian fruit seller entered the office. Finding the room deserted, he turned to leave, but by mistake opened the door of the doctor's closet, in which was a human skeleton, in all its awfulness. The sight was too much for the poor Italian. Dropping his basket of fruit, he made his escape in a panic. The doctor heard the commotion, and came from his laboratory to see what the matter was. The open closet door and the fruit scattered on the floor instantly explained the situation. He went to the window and saw the frightened Italian standing on the sidewalk below, looking up at the window. "Come up," said the doctor, at the same time beckoning with his long finger. "No you don't," exclaimed the fellow, shaking his head. "I know you, if you have got your clothes on!"

FIRE AT GRANVILLE FERRY.

Fire was discovered last night, near midnight, in the store owned by Capt. Joseph Hall and Sons of Temperance hall at Granville Ferry, known as the Caribou house, which was totally destroyed, together with some stock owned by H. J. and Hatelyway, dealers in general merchandise, who occupied the building up to within a few days ago, when they removed the most of their goods. The origin of the fire is unknown. No surveillance.

Telegrams.

REMEDY PROPOSED.

IN THE MANITOBA SCHOOLS DISPUTE.

TORONTO, June 28.—An Ottawa special to the World (tory) says: There is some talk of a Conservative member from the Maritime Provinces introducing a remedial law for Manitoba. He proposes, under the law providing for remedying the grievances of the minority, that parliament has the power to pass a law which shall declare that portions of Manitoba School Act of 1890, which deprived the Roman Catholics of rights they had prior to that time, be declared inoperative, but it is also expressly declared that said remedial law shall not interfere to deprive the provincial legislature of Manitoba of the right to prescribe text books, examine teachers, and provide inspection of all schools, or any other powers that the federal legislature may reserve to it. The effect of this would be practically to use remedial provision as a veto on such portions of the school law as are objectionable to Roman Catholics, and which the federal power here think ought not to be ratified.

BAY OF FUNDY SERVICE.

DIGBY, June 26.—The Dominion Atlantic railway's magnificent steamship Prince Rupert arrived here this morning. The Prince Rupert is 3,000 horse power and is the most perfect and the fastest passenger steamer on the eastern seaboard. Under the most severe trials her tested speed has proved to be 18½ knots. This steamer has passed every test and examination of Lloyds and the imperial board of trade, the passenger certificate granted by which authority allows her to carry 850 passengers.

The Prince Rupert will be placed on the route between St. John and Digby in a double daily service, and will run in close connection with the "Flying Bluenose" expresses, made up of Pullman parlor cars and saloon coaches, of the Evangeline route. The service will commence early in July, the steamer leaving St. John for Digby at 7 a. m., and 2 p. m., returning arrive in St. John at 1 p. m., and 7 p. m.

It is said this boat is to run in connection with the C. P. R., and will, by the Land of Evangeline line, land passengers two hours ahead of the fastest train on the I. C. R.

ARRESTED FOR SHOOTING.

WINNIPEG, June 25.—Last Sunday afternoon three members of the Royal Dragoons went bathing in the Assiniboine river close to the residence of Mr. Fred Stobart, a prominent wholesale merchant and an ex-president of the Winnipeg board of trade. The men wore nothing in the way of clothing and Mr. Stobart indignantly ordered them away. The order was not obeyed and Mr. Stobart, losing his temper, went for his shotgun. He fired four or five times at the men, wounding two of them. The affair naturally created much talk, but when all the newspapers suppressed the matter, the authorities made no move to prosecute, and the wounded men for some reason declined to lay an information. The talk developed into a public outcry about one law for the poor. This outcry forced the chief of police to take proceedings today, and Mr. Stobart was arrested. He was committed for trial, bail being accepted.

A CYCLONE'S WORK.

QUINCY, Ill., June 27.—A cyclone accompanied by rain, thunder and lightning, swept over the city Tuesday evening and did great damage. Trees were torn up by the roots, telegraph, telephone and electric light wires were prostrated and windows were broken in parts of the town. Several buildings were struck by lightning and burned.

KILLED THE PASTOR.

HEAVY STORMS DEMOLISHES A BAPTIST CHURCH.

MILWAUKEE, Wis., June 27.—An electric storm of unusual severity passed over this country Tuesday night. Several houses were struck by lightning and caught fire. In the Menomonee valley, 60 feet of roadbed of the Chicago, Milwaukee and St. Paul railroad was washed out.

CRUSHED THE PARSONAGE.

BAIRD, Texas, June 27.—At 8.30 o'clock Tuesday night a heavy storm from the North struck this place, completely demolishing portions of the town. The Baptist church is a total wreck. It fell upon the Baptist parsonage, crushing it and instantly killing Mr. Mitchell Mayes, the pastor. His mother, the only other occupant of the house at the time, escaped uninjured.

A YOUNG WIFE MISSING.

A couple of months ago a rather noticeable wedding ceremony took place at the Park street church, attention being attracted to it by the license being forgotten and the bride being forgotten. However, the ceremony was finally completed and the coronal and his bride drove off as one. About two weeks later the wife was missing, and since that time her husband has not seen her, though he has anxiously watched and searched. A gentleman, who happened along the Windsor road above Bedford last Sunday, says he met the woman on the road and she said she was going to Truro to bury her mother. He told her she was on the wrong road and advised her to go back, but she didn't do so. She admitted being the missing wife and said she had stayed at a hotel.
