LOCAL NEWS.

Mr. H. J. McGrath, of Dorchester, was in town last evening.

Dr. Borden and party of Sackville, who have been making a tour through Europe, are expected home in a few days.

Mr. Fred Blair, late organist of the Presbyterian church, was in town yesterday.

The Homestead is the name of a new weekly paper to be issued in Milltown, Maine, by Chas. M. Hutchenson.

The place for whiskey in the erection of great public works, is shown by Carey Toole's bill against Powell, which can be seen if desired. Will the city pay for the swipes for Powell to-day?

Two hundred dollars paid for swipes in Powell's last election, paid by draft on Powell & Bennett. Evidently if any temperance legislation is wanted, Powell is the man!

Powell's dishonesty or incapacity cost H. T. Stevens, a friend of his, MANY THOUSANDS OF DOLLARS for the benefit of THIEVES! Don't be his friend to-day! He may fleece you!

The electors have assumed a debt of \$750, paid for swipes in Powell's interest in the election of 1892, and charged to Water Works construction.

A young lady resident of Lewisville, while proceeding alone to her home Wednesday evening when nearing the railway bridge was seized by an unknown man. Her screams frightened the scoundrel off and she ran to a house in that vicinity thoroughly frightened.

The ever popular Zera Sermon will open a season in the Mechanics' Institute in St. John on Monday next. Zera Semon gives a first class show at popular prices, and no doubt he will receive the same large patronage as bestowed on former occasions.

A report around town that Powell had resigned is not correct. He has decided to run, notwithstanding the tremendous odds against him. The report was started by the town office crew for a purpose. Let no person be deceived by anything that comes from that source. Let every man do his duty to himself, his family and his country by every honest effort in their power till the last vote is polled.

All property holders in Moncton should remember that recent property sales here show a decline in value, of about 50 per cent in about three or four years. The owner of ten thousand dollars worth of real estate five years ago is now, having the same property, worth only five thousand dollars. He has lost five thousand dollars! How? Why? Think it over. Perhaps we had better change our policy a little by voting for Killam!

Corporal Lichfield, a non commissioned officer of the Royal Artillery at Halifax, and an escort of three men passed through here yesterday on the C. P. R. on their way from St. John to Halifax. They went to St. John to secure two men, Thompson and Rey, who had deserted from their battery two weeks ago. Both were smart looking young fellows. Corporal Lichfield, in conversation with a LEADER reporter said that both men had been in the service about five years, and had heretofore borne good records in their batteries; and that in all probability their sentence would not exceed six months in Rockhead, the Halifax military prison.

WORKINGMEN!

If you elect Killam to-day you will start an idea rolling in Canada to-day that WILL NOT STOP UNTIL LABOR HAS ITS RIGHTS and monopolists are crushed!

Think it over! Think of the dependent ones, and as God has given you intelligence, use it for them to-day.

PERSONAL.

Mr. Ora. P. King, of Sussex, is in the city, and registered at the Brunswick.

James Robertson, the Montreal commercial traveller is in the city.

W. B. Lindsay, of River Du Loup is in the city on business.

Conductor E. Watts of the Dalhousie Branch is at the Brunswick.

Mr. C. P. Harris swore that the Water Company put \$750.00 in Powell's last election fund. This seven hundred and fifty dollars was allowed as a part of the value of the water, when it was taken over by the city. And so the city is being taxed, and forever will be taxed, to pay interest on money used to corrupt the electorate and promote Powell's political interests. Voter, think it over! To-day, money will probably be used, to be added to the city debt, as this was, if Powell succeeds. Keep him out. Vote him down.

THE MEETINGS LAST NIGHT.

We have found it impossible to publish a report of the speeches last night, but happily the evening was fine, and all interested electors would have had opportunity to hear them, and all such would find any report rather dull read on polling day.

At the Liberal meeting in the Opera House, Peter McSweeney, Esq., occupied the chair, and the speakers occupied the time in the order fixed, closing at half-past ten.

The usual arguments on the trade question were advanced and the claim made that for establishing industries the National Policy had been a signal failure. The way to restore prosperity was to have a change of rulers, Mr. Laurier being the man who could bring order out of chaos.

The Liberal-Conservative meeting was addressed by Hon. G. E. Foster, Senator Ferguson of P. E. Island and H. A. Powell. It would scarcely be useful to attempt a report of the speeches, the public being already familiar with the arguments advanced.

Like those of the opposition camp, the attendants gave some attention to committee work at the close of the meeting, and probably both parties are in good trim for the fray to-day.

PROCESS OF THE NEGRO.

SOME ASTONISHING FACTS RELATED BY REV. W. P. THIRKIELD D. D.

Ashbury—Thousands of persons visited the grove yesterday to listen to the words of Rev. W. P. Thirkield, D. D., president of Gammon University, Atlanta, Ga. In the afternoon he preached an eloquent sermon upon the "Love of God, Self and Neighbor."

His talk in the evening was upon the negro in the South. "The question of the hour is the elevation and Christianization of the colored man. Slavery has taken away half the man, and he must be elevated. The negro shows his capability of manhood in his crude fidelity to trust, and a monument memorializing this trust, as exemplified during the war, is being erected in Tennessee.

"As an example of his fidelity the fact that no Union man was ever betrayed by the colored man in the South is sufficient, and the negro of today must be about the same, for one generation would not make very much change in his nature very much.

"His moral courage is as strong as his infidelity, and his religion, for its genuineness, strength and fervency, is not to be gainsaid, since he is a religious nature.

"The negro in the South has built 23,000 churches and paid in \$25,000,000 to the church and charity. He is giving annually for these purposes \$5,000,000. There are 20,000,000 colored children in the public and private schools and in one generation the negro has \$264,000,000 worth of property to his credit according to the late census.

Dr. W. T. Harris, commissioner of education of the United States, states that during the past 13 years, during which time the statistics of the white and colored pupils of the South have been kept separate, the colored scholars have shown a greater progress than the white. The white scholars show an increase of 75 per cent, while the increase in population is 34 per cent; but the negro shows 113 per cent in scholars and 35 per cent in population—nearly twice that of the white; 2,000,000 negroes can read and write, and not a dozen could during slavery days in the South. This great progress of the negro is what is causing the hard feelings of the white against the black in the South.

AN APOLOGY.

We owe an apology, or rather an explanation, to our readers for any noticeable defects in THE LEADER. The prostration of the manager, resulting from continuous day and night work, supplemented by unfaithfulness of those of whom we shall speak more particularly, hereafter have compelled us to issue a sheet far below the standard we had fixed, but the observer will not find it difficult to discover herein many facts and truths that will command his earnest consideration.

Vote for Killam to-day. Sure!

AYER'S Hair VIGOR

Restores natural color to the hair, and also prevents it falling out. Mrs. E. W. Fenwick, of Digby, N. S., says: "A little more than two years ago my hair began to turn gray and fall out. After the use of one bottle of Ayer's Hair Vigor my hair was restored to its original color and ceased falling out. An occasional application has since kept the hair in good condition."—Mrs. H. F. FENWICK, Digby, N. S.
