

For Sale.

A set of bob-sleds, a sleigh and robes at a rare bargain. Apply to Michael Shannon, corner Regent and Charlotte street.

Fine line of ladies' and gents' gold watches at very low figures at R. Blackmer's.

"Come Off The Roof!"

Mr. Barney Crossin took the playful notion into his head the other night to chastise his housekeeper, Mrs. Watt, with an axe. "Watt" he did it for no one knows, but it is certain that she would have been foully dealt with, or have perished from exposure on the roof, whither she had fled in her night dress and from which she was rescued by policeman O'Neill and some of the citizens. He was probably following the old darkey minister's advice: "Brudderin, never raise your hand to a woman—take an axe, or club or a revolver but never take your hand."

Go to R. Blackmer's, 220 Queen st. for Xmas presents.

See R. Blackmer's line of Xmas novelties before purchasing elsewhere.

Amongst the wonderful institutions of this country the Family Herald and Weekly Star of Montreal is no doubt really remarkable. Nobody, whoever or wherever he or she may be, can take up the Family Herald and Weekly Star and inspect its one hundred and twenty eight columns every week without exclaiming out of sincerest admiration that the paper is really a marvel. The Family Herald and Weekly Star of Montreal is known far and wide, not only in Canada to its very remotest hamlet, but throughout the United States and Great Britain, and what makes patriotic Canadians so pleased with it is that English people as well as Americans look upon the Family Herald and Weekly Star as a wonder, and that produces and supports it as being one of immense vitality.

See R. Blackmer's fine assortment of ladies' long watch chains.

Mr. Hall has Many New Things coming, worth waiting for

We cannot enumerate the Fancy Goods—enough to say, you will find them

Our Method of Testing the Eyes

For defective vision is up to date, and is recognized by the leading Optical Colleges as the only scientific and accurate method. We have all of the latest and best instruments, and we claim that defective vision can be corrected properly. No old-fashioned, out of date trying. Both eyes are examined separately. Examination free.
