

Rich Red Blood.

In Spring Time get Pure Blood by using B.B.B.

No other remedy possesses such perfect cleansing, healing and purifying properties as Burdock Blood Bitters. It not only cleanses internally, but it heals, when applied externally, all sores, ulcers, abscesses, scrofulous sores, blotches, eruptions, etc., leaving the skin clean and pure as a babe's. Taken internally it removes all morbid effete or waste matter from the system, and thoroughly regulates all the organs of the body, restoring the stomach, liver, bowels and blood to healthy action. In this way the sick become well, the weak strong, and those who have that tired, worn out feeling receive new vigor, and buoyant health and spirits, so that they feel like work. If your appetite is poor, your energy gone, your ambition lost, B.B.B. will restore you to the full enjoyment of happy vigorous life.

"Welcome the Coming, Speed the Parting Guest."

We had the exquisite pleasure of a two days' visit from our old friend of The Patriot, T. B. Warren of Montreal, who, strange as it may seem, has made the trip all the way from Montreal to Fredericton during the past four summers for the express object of seeing our unworthy self.

We have not words to express our appreciation of such friendship and devotion, particularly as that gentleman has nothing whatever to gain by it and has put himself to considerable expense. While here he was a guest of mine host Edwards at the Queen and was the life of the party of tourists and the natives of that splendid establishment. There is a magnetism about the man that is irresistible and no man can feel blue or in the dumps under the genial sunshine of his smile. His great big heart beats alike for all classes and conditions of men, and he is as welcome in the house of the Governor or legislator as he is in the cabin of the poor. He is very plain and outspoken when railing at abuses in church or state, but as tender and careful of hurting one's feelings as the most pronounced connoisseur. He is still fighting the battle of Independence for Canada in his little paper, and when riled can make it so uncomfortably warm for the more pretentious journals that they are glad to let him severely alone. He started back in the David Weston on Monday morning, 27th ult. We wish him "bon voyage" and trust we may have the pleasure of his visits for many years yet.

Desirable Improvements.

One of our old advertisers has made important changes and additions to his place of business lately, and we take pleasure in calling our reader's attention to them as they may benefit thereby. Dr. Barbour has added another room to the four he already had, besides recarpeting and refurnishing the others. The new extracting room is commodious with a toilet sink, lounge and separate entrance. Probably the young lady attendant will be as much appreciated as anything else, experience having shown that patients are much more pleased and comfortable under those circumstances. All

kinds of dental work done at this office especially painless extraction and crown and bridge work. An important statement regarding the latter is that of the many gold bridges inserted by Dr. Barbour, every one of them is now in use.

Upper Keswick.

This place is becoming quite a summer resort and people are seen here from all over the country. Our friend Charles H. is very glad that a certain person is here to enjoy the fine moonlight evenings with him.

The hay crop is poor and the farmers say their heaviest work is mowing as there is none to haul in. Mr. Tom Allen of Jones' Forks has to buy hay to find his horses while they are running the mowing machines.

The Mud Brook schooner has been placed on the route here this summer, but as she is only a third rate freight boat she does not do much. She runs her regular trips, however.

Some sports from the Celestial with a few friends from this place paid a visit to the Keswick lakes a few days ago, their object being to catch fish, but they only succeeded in catching a good wetting, being themselves caught in a genuine old double and twisted thunder shower. However, they had a good time as all fishermen do.

It takes five men, three guns, two axes and a dog to kill a porcupine. A porcupine under some circumstances is said to look as large as a bear and sometimes when a man is frightened or drunk he sees queer things.

Amasa Brewer shot a fine loon or northern diver the other day. He is having it mounted by Avery Morehouse.

Deer are very plentiful here. They are seen almost daily in the fields or on the highway roads. It is strange, but they really seem to know that the law protects them at this time of year. When the close season is over they will leave and even take their tracks with them so a person would never suspect there had been a deer in the country.

Leaves seem light, useless, idle, wavering, and changeable—they even dance; yet God has made them part of the oak.
