WOOL TAKEN IN EXCHANGÉ

ANDERSON & WALKER, - - Merchant Tailors.

CITY AND COUNTRY.

One cannot be expected to have much respect for law at least as it is administered in Carleton County where a man guilty of murder and incest is acquitted on both counts by a jury of his fellow men. It is about time for Socialism or something else when things get to that pitch.

Join the Fredericton Local of the Socialist Party of Canada. Dues only 20c. per month. For information inquire of the editor of this paper who is recording secretary, or the organizer who lives a few doors below.

Crocket and Parlee don't pull together on political lines, but as members of the old parties when it comes to putting a Socialist editor out of business by charging a prohibitory rate for the printing of his paper they are hand and glove.

The truth of the rumor that the President of the Lord's Day Alliance was in consultation with Premier Hazen with the object of taking action against the St. John river for allowing the ice to run out on the Sabbath is denied.

The employers are up in arms against the bill before the house providing for remuneration of workmen in case of accident. Of course they are and they will have things their own way in this as in all other things. Has the workingman ever been looked upon by Premiers and governments as anything but a servant for his employer. When politicians take any more interest in the common working man than trying to pull the wool over his eyes by the promise of remedial legislation they will be very different from what they are now or ever have been. An still the suckers will swallow the bait and vote them into power whenever election time comes round.

Fredericton Socialist League has now 19 members, 10 in the city and 9 in different parts of the Province, all in good standing with dues paid up to headquarters at Vancouver, B. C. New applications are coming in every week. If you want a party in the field of Dominion politics that will look out for the interests of the working man alone throw your influence on its side and maybe we may have a candidate in the field at next Dominion election.

Premier Hazen has very little regard for the unfortunates condemned to a diet of bread and water in the county jail as he did not have the courtesy to reply to a letter from the editor of The Journal to him on the subject.

Gunter, the Spy, presented Wright with a fine bouquet of dog-tooth violets.

The indications are that this will be a dry season in Fredericton.

The churches and the Summer camps have started their annual race with the odds in favor of the Summer camps.

In the fine group of the College Encoenia of 1908 in one of the windows down town, strange to say the girls are all on top.

Timotheus, they say is very much enamored of a pretty little girl in Slabtown and walks all the way every evening from his home on Nigger Hill to pay court to her.

That's right, but after the honeymoon is over, if he is like most husbands he will not go out to the shed to bring her in an armful of wood or hold the baby while she is taking off her shoes to go to bed.

JUST OPERED

**Beautiful Dress Muslins
Mercerized Gingham
Chambrays,
Colored Ducks
English Prints**

A Beautiful Assortment

Parties living out of the city can have a full line of Samples sent by sending us a postal.

E. A. O'BRIEN & CO.
