curred to me as a means of bettering my condition, but in view of the difficulty of carrying them out under my present circumstances. I have abandoned them at least for the time being.

I might go to McAdam or St. George, or somewhere in the State of Maine, or better still, to Newfoundland, where there are several towns of from 2,000 to 4,000 population not represented by a country weekly or even a job office, and after getting established, do well, but these projects are easier thought of than carried out. In the first place, I have but a small capital and the removal of even my small plant would entail a heavy cost. I would have to hire a foreman and pay him big wages for some time before I could expect much and in the meantime my family would have to be supported. Then my age and the ill health of my wife is against it. If, like the time we were married, she could have taken care of herself and I was 20 years younger and had a man cheap, if I had had even the capital I have today I would have attempted it. But, now while with the job I have if my health continues as good as it is for a few years longer I shall yet be able to live and keep my family. By the time I am "all in" I may not have any family to keep, and while I have not done much for Fredericton, if I need it, it will not refuse me a home for my few remaining days.

### SLIGHT SUGGESTIONS

We believe it was more for the sake of showing authority than a fear of German spies that made the Government admit people by ticket to the opening at the Legislature here. It was too fine a damfoolery for the common herd to share.

Read our Checkerboard Avenue correspondent's letter in this issue.

When the police stoop so low as to come up the trap door to arrest people suspected of keeping disorderly houses, they put themselves as low in the estimation of the public as the ones they are after.

## As The Result Of a Neglected Cold He Contracted SEVERE BRONCHIAL TROUBLE.

Mr. W. T. Allen, Halifax, N.S., writes: "I feel that I would be doing you and your great remedy, Dr. Wood's Norway Pine Syrup, a gross injustice if I did not write and let you know the wonderful results that I have obtained from its use.

"Last spring I happened to contract a cold. Of course, this is a common occurrence, and I did not take any particular notice of it at the time. However, it did not break up as quickly as colds generally did with me, so after two weeks, and no sign of improvement, I began to get alarmed, and went to my local physician who informed me that I had contracted severe bronchial trouble as a result of neglecting my cold. He prescribed some medicine for me, which I took for about two weeks without any sign of improvement. I was getting pretty much discouraged by then, but one day a friend happened to be in to whom I was relating my trouble, and he advised me to try Dr. Wood's Norway Pine Syrup, saying that he had obtained very beneficial results from its use in a similar case. I took his advice and procured several bottles from my druggist. After taking it, according to directions, for about two days, I noticed a decided improvement, and from that day on I began to get better, and in ten days I was in my usual health. I consider this an excellent showing for your remedy, and can highly recommend it to anyone afflicted as I was. I shall always put in a good word for it whenever the opportunity offers itself."

You can procure Dr. Wood's Norway Pine Syrup from any druggist or dealer. Price, 25c and 50c. The genuine is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

best she can under the protecting care of the alms-house, they are not Christians, no matter how often they go to church.

We publish Edward Inglis' Open Letter in the place of an editorial in this issue. It contains a good many good points of our rotten civilization, but it is rather impractical as, while war is murder, when the enemy starts murdering us, we must murder back if we don't wish to be destroyed. When it comes to the time spoken of when "the lion and the lamb shall lie down together, and the swords shall be changed into reaping-hooks," then there will be no further use for British dreadnaughts or German cruisers, but no one nation can work out this great reform alone.

A dollar bill received from our friend Eugene Savage, sent by our old friend and subscriber R. W. Orchard, of St. Flavie Station, Que., carries us back to the day when we met that gentleman as conductor of a train running from St. Flavie to Campbellton, when he removed a cinder from our eye, shared his lunch with us and cheered us a-
