A Female Fiend.

The Louisville Courier-Journal special from Lexington, Ky., dated March 6, says a gentleman arrived there bringing intelligence of a horrible murder which was committed near Manchester, Ky., about two weeks ago.
A little girl, aged 10 years, daughter of a
Rev. Thomas Hartin, Mr. Philip Mansfield laborer named Deaten, was taken to an outhouse by her stepmother, and there dealt a blow on the head which fractured her skull.

To finish the deed the female fiend placed the same, Mr. Bobert Grant to Miss Sarah one end of a rope around the girl's neck and the other she tied to a beam above and then weighted the body sufficient to break the neck. After finishing her dastardly deed she took the body down and placed it in a field near by, in which a vicious horse was kept, and sent word to her husband that his daughter had been killed by the horse. The suspicions of the neighbors were aroused, and a coroner's jury was empaneled to hold an inquest on the body of the girl. Numerous scars upon the body showed how badly the Emma Staples, in the 21st year of his age. girl had been treated during her stay with her stepmother, and the broken neck showed

A pamphlett is in circulation entitled loss " Memorial to the Dominion Government on revenue of the Province, composed chiefly of years and 8 months. Her end was peace. the Dominion subsidy, is insufficient to me the requirements of the public service. He naints out that since 1870, although the Province received special grants of various kinds from Canada, the income has fallen far short of the expenditure, the over-expenditure in that time amounting to \$390,000. He estimates the needful expenditure of the Province at from \$545,000 to \$600,000 a Insolvent Act of 1875, year, and the reverue for the future under present arrangements at only \$450,000 to \$500,000. He urges a re-adjustment of the pro rata payment of the several Provinces, or of there be insurmountable difficulties to this method, he suggested that the consideration of the large amount received by Canada from the fishery award, the sum of \$100,000 a year be paid to Nova Scotia, inasmuch as to receive statements of his affairs, and to receive statements of his affairs o in the maritime territory of Nova Scotia.

Bortel Tobago is an island in the South Seas which has lately been visited by a party of United States naval officers. They were surveying a rock east of the south Cape of Formosa, and called this island. They found a curious race of Malay stock. These abortgines did not know what money was good for, nor had they ever used tobacco or rum. They gave the officers goats and pigs for tin pots and brass buttons, and hung around the vessel all day in their canoes waiting for a chance to dive for something which might be thrown overboard. They wore clouts only, ate tare and yams, and had axes, spears, and knives made of common iron. Their canoes were made without nails, and were ornamented with geoMetrical lines. They wore the beards of goats and small shells for orna-

The "date mark" is a mysterious malady which affects everybody at Bagdad, in Asiatic Turkey, It is a dry, eating sore, which comes generally upon the face, lasts for a year, and then goes away forever, leaving an indeliable mark about the size and shape of a date as evidence of the visitation. The cicatrix is just skin deep; the spot appears as if the surface had been seared away with caustic or a hot iron, and it by no means enhances the beauty of the victim. The sore generally comes in childhood, and then it commonly settles upon the face. The cheek of nearly every man or woman brought up in Bagdad shows the unmistakable mark.

This is the way which a Louisville girl disposes of a young man, according to the Courier-Journal. She says: "You have asked me pointedly if I can marry you, and I have answered you pointedly that I can. I can marry a man who makes love to a different girl every month. I can marry a man whose main occupation seems to be to join in gauntlet in front of churches and theatres. and comment audibly on the people who are compelled to pass through it. I can marry a man whose only means of support is an aged father. I can marry a man who boasts that any girl can be won with the help of a good tailor and an expert tongue. I can marry such a man, but I w-o-n-t!

Some interesting statistics of the recruiting for the Russian army during the past year have just been published at St Petersburg. The number of recruits inscribed on the lists was 218,000, but only 214,940 actually joined the ranks. Of the 3060 who did not present themselves 1666 were Jews. It is still found very difficult to compel Jews to serve in the army, though owing to the rigorous measures taken by the Government, the number of Jewish absentees was 1729 less in 1878 than in 1877. The total number of recruits, which in previous years was never above 700,000, last year rose to 750,000.

A party of men of the rougher set in Dayton, Ohio, went out to see two bears fight, but when the animals were brought together they recognized oach other as old friends, and no amount of prodding could prevent their embracing each other in their playful way, much to the disgust of the party assem-

The Death-rate of

Our country is getting to be fearfully alarming, the average of life being lessoned every year, without any reasonable cause. death resembling cause, death resulting generally from the most insignificent origin.
At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it and often find too late, that a Fever or Lung trouble has already set in. Thousands lose their lives in this way every winter, while had Boschee;s German Syrnp been taken, a cure would have resulted and a large bill from a Doctor been avoided. For all diseases of the Throat and Lungs, Bosehee's German Syrup has proven itself to be the greate st discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 650,-000 bottles sold last year without a single failure known,

A Child's Opinion --- A Fact. STANLEY-had recovered from a very serious illness, brought on by too close application to his books, in his earnest endeavors

His little brother, Percy, a youth of three summers, as was quite natural, held a very high opinion of the medicine (Robinson's Phosphorized Emulsion of Cod Liver Oil. with Lacto-Phosphate of Lime) that had produced such gratifying results,—but, at the same time had a very warm affection for the same time had a very warm affection for it on his own private account. After having enjoyed sundry "refreshers," from the nearly empty bottle which by common consent had descended to him, he critically holds it up between his eyes and the light, and with the air of a Chief Justice, remarks: -" Mamm I like that better'n lobster."

Little Percy's just appreciation is a very general one among the children who have taken the Emulsion, and mothers would have less cause for anxiety on account of the ceaseless drains upon the too frail constitutions of their fast growing little ones did 360 00 they but fully estimate the marvellous 10,000 00 strengthening and vivifying properties of 200 00 this medicine and its adaptibility to the wants of GROWING STRUCTURES. Try it ! Prepared solely by J. H. Robinson, Chemist, St. John, N. B. For sale by Druggists and General Dealers. Price \$1 per bottle; six bottles for \$5.
