The Rev. gentleman had seven cows, and to his parishioners have sold the milk to them at fourpence a quart. But the police requested him to register, and he declined, saying a clergyman must not carry on a trade. The case was explained to the clerk of police, and to the Privy Council; and the latter declared that " in the circumstances detailed," he was not a purveyor, and need not register. But the magistrates took a different view of the law from the Privy Council, and accordingly inflicted a nominal fine. The case will be appealed, and it is understood the decision will affect several other clergymen who act in a precisely similar way.
