Resolution, by Thomas Carlyle; the great Szegedin was the first industrial town of fire of St. John, destroyed the larger part of Hungary, and its eighty thousand inhabitants were considered the worthiest representatives the MSS of "the History of Acadia." It is of that real Hungarian type which is fast gratifying to know that Mr. Hannay showed disappearing in the other parts of the country. pluck equal to that evinced by his great proto Patriotic and hospitable to the extreme. the type Carlyle and instead of cursing his fate people of Szegedin are renowned for their industry and intelligence. In less than fifteen and succumbing to the blow, sat down and years this town, which was a little more than re-wrote the matter which the burnt pages a large village, became the first provincial contained. The History comprises a period town of Hungary, and a prosperous future of 160 years, from the settlement of the de seems to be in store for it. Alas! all this belongs now to the past. Of its 8000 houses only about 300 remain standing; its flourishing manufactories and warehouses, its excellently-organised schools, are entirely destroyed and many highly-respectable citizens, renowned for their probity as well as for their findefatigable perseverance, have become waifs and strays, dependent on the charity of their French adventurers who discovered and setcountrymen, and many of them even broken in health and spirits. Through a terrible

fatality, the catastrophe came with such unexampled quickness that the 70.000 persons (about 10,000 had left the town at the first sign of danger) who had remained, could save nothing but their lives, leaving behind their fortunes and their property. One speaks of several hundreds who have lost their lives. but as yet the statistics of the victims are in- make up the history of Acadia. Mr. Hancomplets, the swampy flood, which is but slowly falling, covering as yet those it has buried under its cruel waves.

Guiard the Minister of Commerce, in Bradlaugh has been shielded by the Dean's the facts, as the cost of the building is included in the latter and the receipts from the doctrine :--

"To benefit largely from the advantages of exportation we must resolve to open our ports. It is on this condition only that we can expect foreigners to allow us to send them our products. Let us, therefore, leave the way open, so that exchanges may take place between France and other nations by the double the Secretary for Agriculture. The books on play of imports and exports. Is not this and three men, an ong whom was a detective cattle were not distributed at the will of the liberty closely allied to the progress of all secretary for Agriculture, but under direction great modern invention? When railways and three men, an ong whom was a detective Secretary for Agriculture, but under direction great modern invention? When railways ox or steer shall weigh alive 1,200 pounds, to the members of the Legislature and the init for mone to raise herriors which genus lead to modifications in it, which would not strengthen it in the house or the country learson intimated to the commander of the column, that the enemy was concentrating part of the ornamental fence on Phrenix the report was prepared.

portant native industry by the manufacture that, in that city a Refinery might be carried of black tea ; this, it is stated, is of the greatest importance to Japan in view of the strong competition that exists between teas procan, the effect of which has been to reduce prices and consequently to impose a limit upon production. Several hundred piculs packages of sugar might be imported in bond. via New York, if arrangements could be of imitation Congou were shipped to London made to that effect. Could the Sugar Re- from Hiogo in the course of last year, and finery project mooted in Toronto, have any are said to have been favorable received in connection with the bill introduced by Mr. of a high order; the only question remaining Marshall in the House of Assembly last week, to be solved as to the success of these teas is low enough to enable them to compete favourably in foreign markets with China and Assam teas."

In a hotel in Moscow known as the Nobel'sscheu Gasthaus, a young man engaged the rooms numbered 60 and 61, ostensibly for a to allow the title of his bill to be changed to family. He immediately took possession, alone or with a companion is not known. although several resident of the hotel saw two men in the corridor, who entered the into the chambers. In No. 60 a pidjak was

found hanging. In No. 61 was lying the corps of a man, face downwards, and the feet directed towards the door of the chamber. The head was partially covered with a pilow, beneath which was a pool of congealed blood. On the back of the murdered man dirt covered frozen snow allowed to rest was pinned a paper upon which was written by us, the Russian Socialist and Revolutionist. Death to the Judas, death to the traitors." The murderers are still at large.

It is freely stated in London society that Dean Stanley, who recently visited this country, is about to join the Church of Rome His sister, who was converted many years ago, has, since the death of his wife, assumed The Paris correspondent of the Edinburgh great sway over his mind, and has turned it towards the study of Roman Catholicicism. specially as enuciated in the works of

Fenelon. The Dean has frequently refused a quantity of the wheat remaining unsold, there wise determination to renew the Commercia) bishopric, and has set himself up as the were only about 73 bags, all of which were Treaty with England. In connection with supporter, if not the actual champion,, of all this subject, he mentioned that the French who have proclaimed themselves opponents Chambers of Commerce presented an address Dr. Voysey, and John Stuart Mill. Even which was laid down very sound Commercial specious reasoning on his right to assert his

> A stone in British measure, implies weight according to the article measured. Thus a stone of oats is 14 pounds weight, one of barley 16 pounds weight; when a jockey is said to ride ten stone he weighs 140 pounds : while a stone of dressed meat is only pounds weight-just as 100 pounds of meat in the United States of America represents
