The wheel. Records were broken at the Hartford, Conn., bicycle races on Tuesday last. In the mile, safety 2.40 class, G. M. Warder, Manhattan Athletic Club, made the last quarter in 29 4-5, equalling Zimmerman's time yesterday, when he broke the record.

The mile tandem safety world's record for a mile in competition was broken in a handsome handicap race by Banker and Brinker, Buffalo Scratchmen; time, 2.30 4-5. The race was won by Herman and Fuller, Hartford, in 2.28, with 150 yards start.

A. B. Rich, New York Athletic club, made the new American record for two mile race safety bicycle; he was scratch man in a handicap, time 5.11 1-5 lowering the previous record about 12 seconds. He came in second, the race was won by Fred C. Graves, Springfield, with 60 yards start.

Tom Eak, of Minneapolis, who has been a promoter or projector of six-day bicycle races for many years, is in New York City for the purpose of making arrangements for a big six-day bicycle race to be held at Madison Square Garden during the latter part of October. He has been maturing the plan for three or four months, and has received many entries. Out of these he has selected the twelve riders with the best records. Several are foreigners, and the idea is to make an international contest out of it. Short distance races will enliven the evenings.

Base Ball. Mike Kelly has returned to the League. He has but done that which others have done before him, and for which they were patted on the back. He was faithful when others made their raid on the doodle and got away with it. Now he is simply getting in out of the wet, even while the capitalistic lion and lamb are lying down together in order to do the "greedy" players. Kelly is wise in his day and generation, and is profiting by the examples set all around him of looking out for No. 1.

Who Can Blame Him? The size of Kelly's salary from the Boston League Club is undoubtedly grossly exaggerated. Twelve or fifteen thousand dollars would be much nearer the mark than \$22,500. Kelly claimed to have signed for the latter amount.

Radburn will pitch no more this season. He left Cincinnati for his home in Bloomington, Ill., with a new breech-loader, a fifty dollar speckled pointer and a trunk full of cartridges. He will put in his spare time hunting, of which he is passionately fond.

John Morrill, in speaking of Kelly's jump, says: "I don't think that Kelly's leaving the Association will have any effect upon the attendance at the Congress street grounds. It surely will not hurt it any, and won't help the League much in Boston. Away from home, however, he will be a big drawing card, and with his assistance the Bostonians have a much better chance of winning the League pennant."

All Sorts. The entries for the St. John A. A. A. close on the 17th. The sports promise to be the biggest thing of the season.

The "depopulation" of France and the means of checking the progress of the evil are subjects that have for some time engaged the attention of the Academie de Medicine, and the deliberations of that body have not yet led to the discovery of the effectual remedy.

In the meantime M. Ternier, the president of the Academie, has offered a bounty of 100 francs to every married couple in his native commune who shall enrich the French Republic with an additional citizen during the year 1892.

An uncommon breach of promise case is under way at Toronto. The plaintiff is a man, and the wife of Dr. A. H. Hill, of Norwich, is the defendant. The suit is for \$10,000. The plaintiff, John Innis, is a Woodstock contractor. They fell in love, he says, in 1887, and became engaged. The girl had plenty of money and was able to go into society freely. She met Dr. Hill, fell in love with him and they were married. A photograph of Mrs. Hill was in court, showing the engagement ring John gave her. Some amusing evidence by the plaintiff described their courtship. Once they sat together on a lumber pile and courted each other.

Harriet Murray, the colored Florida outlaw, who has killed seven men, defied the authorities for nearly a year, and terrorized a wide section of the country, was killed Friday morning of last week by Hardy Early, a colored lad of seventeen. Murray ordered Early to go with him to Archer, where he said he was going to "kill some men" and then leave Alachua county. Early did not want to go and said he had no gun, but Murray made the boy get a double-barrel shotgun at his brother's house. On the way Early fell behind and poured the contents of both gun barrels into the back of Murray's head, killing him instantly. Early then notified the people of Archer and a crowd then went to the spot, brought the corpse to town and afterward sent it to Gainesville. The excitement there was intense, as several lynchings of Murray's confederates have occurred in that vicinity. Early was the hero of the hour. He was mounted on a box and made a speech, describing the affair. He will get \$1,500 in reward.

Two Women Fight a Duel. A special from Paris says: An exciting scene occurred Monday at Entry, in the Avenue Des Termes, when two young women, Laure Sirons and Anna Gervais, both under twenty years, after quarrelling, suddenly determined to settle their differences in the manner which is approved among French journalists. They armed themselves with long knives instead of the recognized duelling swords and adjourned to a conveniently secluded spot where they started in with vigor. The police, however, arrived on the scene, but not soon enough to prevent both girls being so seriously wounded that they were obliged to be conveyed to the Barton Hospital, where they are now both lying in great danger.

Shot Himself. A member of No. 1. Company, 74th Battalion, Moncton, named Alex. C. FRED. CHESTNUT, APOTHECARY. Dutcher's Fly Paper, Sticky Fly Paper, Wilson's Fly Pads, Daisy Fly Pads. Two Doors Above Barker House, Queen Street, Fredericton, N. B.

James D. Fowler, OPTICIAN, JEWELLER. Queen Street, (Opp. Post Office) Fredericton, N. B. Proposed Meeting of Farmers and Dairy men, etc., at Canada's International Exhibition. BROTHER FARMERS: Your earnest and thoughtful attention please. Do you realize that the Province of New Brunswick annually imports thousands of dollars worth of butter and cheese? Do you realize that our Province affords excellent pasturage; is well watered, and has a climate and soil admirably adapted to the growth of winter fodder for dairy stock; and do you not think it necessary that steps should be taken to utilize our natural resources to supply our own markets, rather than send so much gold to our sister provinces in the West? Gentlemen—farmers, and cheese and butter factory men of New Brunswick—we want you to consider whether we are not able, not only to supply our own markets with the best quality of butter and cheese, but also to put it in considerable quantities upon the markets of the world. The opportunity is ours. Enterprise, skill and perseverance are needed to bring this change about, and shame to the man who says the farmers of New Brunswick are incapable of these qualities. If you consider this a matter of moment we ask you to take advantage of the wonderfully cheap fares to St. John during the International Exhibition; benefit by its wealth of exhibit and the special attraction it furnishes you, and attend a mass meeting on the 30th inst., held on the grounds by the Provincial Farmer's Association to consider the means whereby our dairy interests can best be promoted. We intend to place a programme before you, carried out by men thoroughly capable of handling the question in its various phases; and then we ask your advice and co-operation in taking steps to increase in quantity, and improve and make uniform in quality our producing of butter and cheese. On behalf of the Provincial Farmer's Association. W. W. HUBBARD, Secretary. Gilmore W. Brown, C.E., now of Wheeling, Virginia, arrived in town Thursday afternoon.
